1. ***Resolution 22-05-02 Waiver of 60-day Notice of Intent for the Fish Lake Geothermal and Ormat Geothermal Portfolio Projects.***

**RE: CONSIDERATION OF 60-DAY NOTICE WAIVER AND APPROVAL OF FIRM CLEAN RESOURCE (“FCR”) PROJECTS**

## Overview

This Memorandum provides context and background information to support the recommendation that the Board approve the Fish Lake Geothermal and Ormat Geothermal Portfolio Firm Clean Resource Projects and associated agreements. The Fish Lake Geothermal Project is a 13 MW geothermal power plant. The Ormat Geothermal Portfolio Project is a portfolio of geothermal powered electric generating plants. CC Power staff is recommending that the Board waive the Notice of Intent to bring the FCR Projects before the Board pursuant to Section 6.02 of the CC Power Joint Powers Agreement (“JPA”) and vote to approve the Project at this Meeting.

## The Notice Requirement

Section 6.02 of the CC Power JPA requires, in part, that “the Board shall provide at least sixty (60) days prior written notice to all Members, unless such notice is otherwise waived, before any Project may be considered for adoption by a vote of the Board.” This requirement was established in the JPA before CC Power had developed its Project process, and was included, in part, to ensure that CC Power Members were made aware of potential projects and were given enough opportunity to determine whether they wished to participate in those projects.

The development of the Project Oversight Committee (“POC”) and the CC Power project process has ensured that Members have been kept up to date on project developments through Member Staff. Additionally, as the FCR projects require a Maximum Import Capability (MIC) allocation from the California Independent System Operator (“CAISO”), the FCR POC is requesting that the CC Power Board approve these projects prior to the deadline to submit a MIC expansion request at the CAISO on June 1, 2022. Staff, therefore, is recommending that the

Board waive the 60-day notice requirement in order to move forward expeditiously with the FCR Projects.

### **Firm Clean Resource Project Background**

On September 15, 2021 CC Power authorized the issuance of a Request for Offers (“RFO”) for Firm Clean Resources in response to the California Public Utilities Commission Decision 21-06-035 requiring load serving entities, including CC Power Members, to procure long lead-time clean resources to address mid-term reliability. In support of the RFO, the CC Power Interim General Manager and staff of San Jose Clean Energy made an initial presentation to the CC Power Board setting forth an approach and timeline for CC Power participation in FRC projects. In accordance with the presented approach, an FCR POC consisting of member staff was formed, and the RFO was issued on October 25, 2021, with responses due on December 13, 2021. The RFO evaluation process was shepherded by the FCR POC.

### **The Projects and Project Participants**

The Fish Lake Geothermal Projects is a 13 MW geothermal power plant, located in Esmeralda County, in the State of Nevada with a Guaranteed Commercial Operation Date of June 1, 2024. The Ormat Geothermal Portfolio Project is a portfolio of geothermal powered electric generating plants located in the States of California and Nevada with a maximum generating capacity of 125 MW and Final Commercial Operation Date Deadline of December 31, 2026.

Eight Members are participating in these projects, including:

- Central Coast Community Energy (CCCE)
- CleanPowerSF (CPSF)
- Peninsula Clean Energy (PCE)
- Redwood Coast Energy Authority (RCEA)
- San Jose Clean Energy (SJCE)
- Silicon Valley Clean Energy (SVCE)
- Sonoma Clean Power Authority (SCPA)
- Valley Clean Energy (VCE)

## **Labor Conditions**

### Fish Lake Geothermal Project

The project will (i) ensure that all employees hired by the developer, and its contractors and subcontractors, that will perform construction work or provide services related to construction work are paid wages not less than the rate of such wages then prevailing in the region in which the Facility is located, as determined by the Nevada Labor Commissioner in the manner provided in Nevada Revised Statutes Section 338.030 and are paid wages in compliance with Nevada Revised Statutes Section 338.030, or (ii) ensure that any construction work contracted by the developer be conducted using a project labor agreement or similar agreement providing for terms and conditions of employment with applicable labor organizations, or (iii) apply for and receive Nevada Renewable Tax Abatement (“RETA”) benefits which provides that the construction workforce must receive no less than 175% of the statewide average annual wage with adequate health insurance.

### Ormat Geothermal Portfolio Project

For facilities located in California, the project will (i) use reasonable efforts to ensure that all employees hired by the developer, and its contractors and subcontractors, that will perform new construction work or provide services related to new construction work shall be paid rates as set by the Department of Industrial Relations in accordance with California Labor Code section 1770, or (ii) ensure that any new construction work be conducted using a project labor agreement.

For facilities located in Nevada, the project will (i) use reasonable efforts to ensure that all employees hired by the developer, and its contractors and subcontractors, that will perform new construction work or provide services related to new construction work are paid wages not less than the rate of such wages then prevailing in the region in which each Facility is located, as determined by the Nevada Labor Commissioner in the manner provided in Nevada Revised Statutes Section 338.030 and are paid wages in compliance with Nevada Revised Statutes Section 338.030, or (ii) ensure that any new construction work be conducted using a project labor agreement or similar agreement providing for terms and conditions of employment with applicable labor organizations, or (iii) apply for and receive RETA benefits.

## **Contract Structure**

As described in more detail below, this project consists of two basic agreements to which CC Power is a party and a guarantee agreement to which the participating member and the developer are parties. The FCR contract structure allocates rights and obligations, project benefits, and cost and allocation of risks and liabilities similar to when CC Power Members contract bilaterally or with partners. The joint contracting structure limits the liability of Participating Members while providing the necessary security to finance the project construction and operation. The POC has been shepherding this contract development process in consultation with the lead negotiators and project counsel.

Power Purchase Agreement (“PPA”) - The PPA is between CC Power and an FCR developer and addresses issues such as (1) project requirements and milestones, (2) price, (3) quantity, (4) term, (5) payment obligations, and other key terms.

Buyer Liability Pass Through Agreements (“BLPTA”) – The Intent of the BLPTA is to mirror the liability a Participating Member would have if executing the PPA directly with a developer. Through the BLPTAs, each CCA guarantees CC Power’s payment obligations in proportion to each Members’ share of the project. In exchange, the FCR developer agrees to release CC Power from liability and to limit recovery from each CCA to an amount proportionate to each CCA’s share of the project.

Project Participation Share Agreement (“PPSA”) – Under the PPSA, participating CCAs agree to fund CC Power’s payment obligations so that CC Power can make timely payments under the PPA. The PPSA also addresses how participating CCAs will (1) direct CC Power’s actions under the PPA, and (2) step in, with a cap, to cover any member default in order to avoid a CC Power default under the PPA.

## **Project Voting Structure**

After the initial approval of a Project as within the power and purpose of CC Power, which requires a majority vote of the Board, Project Agreements may alter the voting structure of the CC Power Board for project specific votes, pursuant to Section 5.06 of the CC Power Joint Powers Agreement. Accordingly, the PPSAs for each FCR project modify the voting rules of the CC Power Board for purposes of approving or acting on any matter that is specific to the FCR projects. Each CC Power Board member that represents a Project Participant shall have one vote for any matter identified in the PPSA. Any CC Power Board member representing a

member that is not a Project Participant shall abstain from voting on any matter identified in the PPSA. A vote of the majority of the CC Power Board members representing Project Participants shall be sufficient to constitute action, provided a quorum is established and maintained.

### **Approval Process**

#### Fish Lake Geothermal Project:

Should the Board approve the Fisk Lake Geothermal Project and associated agreements, Participating Members will then follow their own review and approval of process for each Project. Approval by Participating Members within one hundred and twenty (120) days following the Effective Date of the PPA is a condition precedent to the effectiveness of the agreements. However, consistent with the table below, CC Power staff is requesting that each Participating Member request approval from their individual CCA Boards for more than their allocated Entitlement Share of the project as outlined in the PPA and PPSA. This will allow Participating Members to continue with the project by absorbing outstanding shares in the event that a Participating Member is unable to secure approval plus 25%.

CCA	% Share in PPA/PPSA	Initial Entitlement Share MW	Recommended Authority to Seek MW
CCCE	18.6	2.42	3.02
CPSF	14.5	1.89	2.36
PCE	17.8	2.31	2.89
RCEA	2.8	0.36	0.46
SJCE	17.4	2.26	2.83
SVCE	14.0	1.82	2.28
SCPA	11.7	1.52	1.90
VCE	3.2	0.42	0.52
<b>Total</b>	<b>100%</b>	<b>13.00</b>	<b>16.25</b>

#### Ormat Geothermal Portfolio Project:

Should the Board approve the Ormat Geothermal Portfolio Project and associated agreements, Participating Members will then follow their own review and approval of process for each Project. Approval by Participating Members within one hundred and twenty (120) days following the Effective Date of the PPA is a condition precedent to the effectiveness of the agreements. Consistent with the table below, CC Power staff is requesting that each Participating Member request approval from their individual CCA Boards for more than their

allocated Entitlement Share of the project as outlined in the PPA and PPSA. This will allow Participating Members to continue with the project by absorbing outstanding shares in the event that a Participating Member is unable to secure approval plus 25%. Additionally, should one or more CC Power members be unable to secure their individual Board approval for this project, the overall MW amount of the Project may be reduced.

CCA	% Share in PPA/PPSA	Initial Entitlement Share MW	Recommended Authority to Seek MW
CCCE	17.9	22.38	27.97
CPSF	13.9	17.38	21.72
PCE	17.1	21.38	26.72
RCEA	3.2	4.00	5.00
SJCE	19.6	24.50	30.63
SVCE	13.4	16.75	20.94
SCPA	11.2	14.00	17.50
VCE	3.7	4.63	5.78
<b>Total</b>	<b>100%</b>	<b>125.00</b>	<b>156.25</b>

## Conclusion

CC Power Staff is recommending that the Board waive the 60-day Notice requirement, approve the Fish Lake Geothermal and Ormat Geothermal Portfolio FCR Projects as outlined above, and authorize execution of the associated agreements, which are attached in substantially final form.

(c) Buyer shall cause the Project Participants to use commercially reasonable efforts to obtain the Import Capability at the Delivery Point and at [REDACTED] necessary to import the Guaranteed Net Qualifying Capacity from the Facility into the CAISO. Seller shall use commercially reasonable efforts to support Buyer and Project Participants in obtaining such Import Capability. To the extent Project Participants do not or cannot maintain Import Capability at the Delivery Point, or at [REDACTED], if applicable, necessary to support the importation of the Guaranteed Net Qualifying Capacity into the CAISO for reasons other than a Seller failure under this Agreement or the inability of Seller to maintain the Facility as a Pseudo-Tie Resource, the Capacity Attributes that are not imported or that cannot be imported shall constitute Deemed Delivered RA.

(d) No later than the Notification Deadline corresponding to each Showing Month of the Delivery Term, Seller shall submit, or cause the Facility’s Scheduling Coordinator to submit, Supply Plans to identify and confirm the Resource Adequacy Benefits provided to Project Participants for each Showing Month.

(e) Resource Adequacy Benefits are delivered and received when the CIRA Tool shows that the Supply Plans have been accepted by the CAISO. If CAISO rejects either the Supply Plans or Project Participants’ Resource Adequacy Plans with respect to any part of the Resource Adequacy Benefits in any Showing Month, the Parties will confer, make such corrections as are necessary for acceptance, and resubmit the corrected Supply Plans or Resource Adequacy Plans for validation before the applicable Notification Deadline for the relevant Showing Month.

(f) If Seller operates the Facility as a dispatchable resource, Seller shall undertake commercially reasonable efforts, subject to Section 3.12, to maximize the quantity of

## EXECUTION VERSION

Effective Flexible Capacity provided to the Project Participants from the Facility. At least ninety (90) days before the annual FCR Showings filing deadline, Seller shall provide Buyer with written Notice of the quantity of Effective Flexible Capacity the Facility is expected to provide for the following calendar year. No later than the Notification Deadline for each Showing Month of the Delivery Term, Seller shall notify Buyer of the quantity of Effective Flexible Capacity that the Project Participants are permitted to include in the FCR Showings.

(g) If Seller anticipates that it will have an RA Shortfall Month, Seller may, provide Replacement RA in the amount of (i) the Guaranteed Net Qualifying Capacity with respect to such Showing Month, minus (ii) the expected Net Qualifying Capacity that is able to be included in the Supply Plans for Project Participants for such Showing Month plus any Deemed Delivered RA; *provided*, that any Replacement RA is communicated by Seller to Buyer in the form of Exhibit M by Seller to Buyer no later than the Notification Deadline.

(h) Notwithstanding anything to the contrary in this Agreement, Seller shall be permitted to reduce deliveries of Capacity Attributes and Resource Adequacy Benefits during any Force Majeure Event that results in Seller's inability, despite the use of commercially reasonable efforts, to deliver Delivered Energy to the Delivery Point.

### 3.8 Resource Adequacy Failure.

(a) RA Deficiency Determination. For each RA Shortfall Month, Seller shall pay to Buyer as liquidated damages the RA Deficiency Amount, as set forth in Section 3.8(b), and/or provide Replacement RA, as set forth in Section 3.7(g), in each case, as the sole remedy for Capacity Attributes that Seller fails to convey to the Project Participants from the Facility.

(b) RA Deficiency Amount Calculation. For each RA Shortfall Month, Seller shall pay to Buyer an amount (the "RA Deficiency Amount") equal to the product of (i) the difference, expressed in kW, of the then applicable Guaranteed Net Qualifying Capacity, minus the then-applicable Net Qualifying Capacity included in the Supply Plans for such Showing Month for the Project Participants, which shall be deemed to be zero (0) MW if the Net Qualifying Capacity has not been published by or otherwise established with the CAISO by the Notification Deadline for such RA Shortfall Month, plus any Replacement RA that was able to be included in the Supply Plan for such Showing Month for the Project Participants and any Deemed Delivered RA, multiplied by (ii) [REDACTED]

3.9 CEC Certification and Verification. Seller shall take all necessary steps including, but not limited to, making or supporting timely filings with the CEC to obtain and maintain CEC Certification and Verification for the Facility throughout the Delivery Term, including compliance with all applicable requirements for certified facilities set forth in the current version of the *RPS Eligibility Guidebook* (or its successor). Seller shall obtain CEC Precertification by the Commercial Operation Date. Within thirty (30) days after the Commercial Operation Date, Seller shall apply with the CEC for final CEC Certification and Verification. Within one hundred eighty (180) days after the Commercial Operation Date, Seller shall obtain and maintain throughout the remainder of the Delivery Term the final CEC Certification and

## EXECUTION VERSION

Verification, which deadline will be extended on a day-for-day basis if there is a delay in CEC Certification and Verification and that delay is caused by any reason other than an act or omission of Seller. Seller must promptly notify Buyer and the CEC of any changes to the information included in Seller's application for CEC Certification and Verification for the Facility.

### 3.10 **[Reserved]**.

### 3.11 **California RPS Standard Terms and Conditions.**

(a) **Eligibility.** Seller, and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement that: (i) the Project qualifies and is certified by the CEC as an Eligible Renewable Energy Resource ("ERR") as such term is defined in Public Utilities Code Section 399.12 or Section 399.16; and (ii) the Project's output delivered to Buyer qualifies under the requirements of the California Renewables Portfolio Standard. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law. [STC 6].

(b) The term "commercially reasonable efforts" as used in this Section 3.11 means efforts consistent with and subject to Section 3.12. The term "Project" as used in Section 3.11(a) means the Facility.

(c) **Transfer of Renewable Energy Credits.** Seller and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement the Renewable Energy Credits transferred to Buyer conform to the definition and attributes required for compliance with the California Renewables Portfolio Standard, as set forth in California Public Utilities Commission Decision 08-08-028, and as may be modified by subsequent decision of the California Public Utilities Commission or by subsequent legislation. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law. [STC REC-1].

(d) **Tracking of RECs in WREGIS.** Seller warrants that all necessary steps to allow the Renewable Energy Credits transferred to Buyer to be tracked in Western Renewable Energy Generation Information System will be taken prior to the first delivery under the contract. [STC REC-2].

(e) The term "the contract" as used in Section 3.11(d) means this Agreement.

### 3.12 **Compliance Expenditure Cap.**

(a) The Parties acknowledge that an essential purpose of this Agreement is to provide renewable generation and capacity that meets the requirements of the California Renewables Portfolio Standard and that Governmental Authorities, including the CEC, CPUC, CAISO and WREGIS, may undertake actions to implement changes in Law. Seller agrees to use commercially reasonable efforts subject to the provisions of this Section 3.12 to cooperate with respect to any future changes to this Agreement needed to satisfy requirements of Governmental Authorities associated with changes in Law to maximize benefits to Buyer, including: (i) the

## EXECUTION VERSION

modification of the description of Green Attributes and/or Capacity Attributes as may be required, including updating the Agreement to reflect any mandatory contractual language required by Governmental Authorities; (ii) submission of any reports, data, or other information required by Governmental Authorities; or (iii) all other actions that may be required to ensure that this Agreement or the Facility is eligible as an ERR and for other benefits under the California Renewables Portfolio Standard; *provided*, Seller shall have no obligation to modify this Agreement, or take other actions not required under this Agreement, if such modifications or actions would materially adversely affect, or could reasonably be expected to have or result in a material adverse effect on, any of Seller's rights, benefits, risks and/or obligations under this Agreement.

(b) If a change in Laws occurring after the Effective Date has increased Seller's known or reasonably expected costs to comply with Seller's obligations under this Agreement with respect to obtaining, maintaining, conveying or effectuating Buyer's use of (as applicable) any Product pursuant to Sections 3.7(b) and (c), 3.8, 3.9, 3.11, 4.8 and 13.1(h) (any action required to be taken by Seller to comply with such change in Law, a "**Compliance Action**"), then the Parties agree that the maximum aggregate amount of costs and expenses Seller shall be required to bear during the Delivery Term to comply with all of such obligations shall be capped [REDACTED] in aggregate over the Contract Term (the "**Compliance Expenditure Cap**").

(c) If Seller reasonably anticipates the need to incur out-of-pocket expenses in excess of the Compliance Expenditure Cap in order to take any Compliance Action, Seller shall provide Notice to Buyer of such anticipated out-of-pocket expenses.

(d) Buyer will have sixty (60) days to evaluate such Notice (during which time period Seller is not obligated to take any Compliance Actions described in the Notice) and shall, within such time, either (1) agree to reimburse Seller for all of the costs that exceed the Compliance Expenditure Cap (such Buyer-agreed upon costs (including lost production, if any), the "**Accepted Compliance Costs**"), or (2) waive Seller's obligation to take such Compliance Actions, or any part thereof for which Buyer has not agreed to reimburse Seller. If Buyer fails to timely respond to any such Notice, it will be deemed to have waived Seller's obligations to take such Compliance Actions. For the avoidance of doubt, Seller is not obligated to take any Compliance Actions during the pendency of Buyer's sixty (60) day evaluation period.

(e) If Buyer agrees to reimburse Seller for the Accepted Compliance Costs, then Seller shall take such Compliance Actions covered by the Accepted Compliance Costs as agreed upon by the Parties and Buyer shall reimburse Seller for Seller's actual costs to effect the Compliance Actions, not to exceed the Accepted Compliance Costs, within sixty (60) days from the time that Buyer receives an invoice and documentation of such costs from Seller.

## ARTICLE 4 OBLIGATIONS AND DELIVERIES

### 4.1 **Delivery.**

## EXECUTION VERSION

(a) Energy. Subject to the provisions of this Agreement, commencing on the Commercial Operation Date through the end of the Contract Term, Seller shall supply and deliver the Product to Buyer at the Delivery Point, and Buyer shall take delivery of the Product at the Delivery Point in accordance with the terms of this Agreement. Seller shall be responsible for paying or satisfying when due any costs or charges imposed in connection with the delivery of Energy to the Delivery Point, including without limitation, Station Use, Electrical Losses, and any operation and maintenance charges imposed by the Transmission Provider directly relating to the Facility's operations. Buyer shall be responsible for all costs, charges and penalties, if any, imposed in connection with the delivery of Delivered Energy at and after the Delivery Point. The Delivered Energy will be scheduled to the CAISO by Seller (or Seller's designated Scheduling Coordinator) in accordance with Exhibit D.

(b) Green Attributes. All Green Attributes associated with the Delivered Energy are exclusively dedicated to and vested in Buyer. Seller represents and warrants that Seller holds the rights to all Green Attributes from the Facility, Seller has not sold such Green Attributes to any other person or entity, and Seller agrees to convey and hereby conveys all such Green Attributes to Buyer as included in the delivery of the Product from the Facility.

### 4.2 Title and Risk of Loss.

(a) Energy. Title to and risk of loss related to the Delivered Energy shall pass and transfer from Seller to Buyer at the Delivery Point. Seller warrants that all Product delivered to Buyer is free and clear of all liens, security interests, claims and encumbrances of any kind.

(b) Green Attributes. Title to and risk of loss related to the Green Attributes shall pass and transfer from Seller to Buyer upon the transfer of such Green Attributes in accordance with WREGIS.

4.3 Forecasting. Unless the Parties mutually agree to modified forecasting requirements, Seller shall provide the forecasts described below at its sole expense and in a format reasonably acceptable to Buyer (or Buyer's designee). Seller shall use reasonable efforts to provide forecasts that are accurate and, to the extent not inconsistent with the requirements of this Agreement, shall prepare such forecasts, or cause such forecasts to be prepared, in accordance with Prudent Operating Practices.

(a) Annual Forecast of Energy. No less than forty-five (45) days before (i) the first day of the first Contract Year of the Delivery Term and (ii) the beginning of each calendar year for every subsequent Contract Year during the Delivery Term, Seller shall provide to Buyer and the SC (if applicable) a non-binding forecast of each month's average-day expected Delivered Energy, by hour, for the following calendar year in a form substantially similar to the table found in Exhibit F-1, or as reasonably requested by Buyer.

(b) Monthly Forecast of Energy and Available Generating Capacity. No less than thirty (30) days before the beginning of Commercial Operation, and thereafter ten (10) Business Days before the beginning of each month during the Delivery Term, Seller shall provide to Buyer and Buyer's SC (if applicable) a non-binding forecast of the hourly expected Delivered

## EXECUTION VERSION

Energy and Available Generating Capacity for each day of the following month in a form substantially similar to the table found in Exhibit F-2 (“**Monthly Delivery Forecast**”).

(c) Day-Ahead Forecast. By 5:30 a.m. PPT on the Business Day immediately preceding the date of delivery, or as otherwise specified by Buyer consistent with Prudent Operating Practice, Seller shall provide Buyer with a non-binding forecast of (i) Available Generating Capacity, (ii) hourly expected Delivered Energy, in each case, for each hour of the immediately succeeding day (“**Day-Ahead Forecast**”). A Day-Ahead Forecast provided in a day prior to any non-Business Day(s) shall include non-binding forecasts for the immediate day, each succeeding non-Business Day and the next Business Day. Each Day-Ahead Forecast shall clearly identify, for each hour, Seller’s best estimate of (i) the Available Generating Capacity and (ii) the hourly expected Delivered Energy.

(d) Real-Time Forecasts. Seller shall arrange for Buyer to be provided real-time data (i) with respect to the Available Generating Capacity, via an Outage Management System (“**OMS**”) based on CAISO protocols, and (ii) with respect to hourly expected Delivered Energy quantities, via the Facility’s EMS, in each case of (i) and (ii) in accordance with such procedures (including appropriate back-up procedures) as may be agreed and implemented by Seller and Buyer. Among other information provided through such procedures, Buyer shall be notified if, past the deadlines for Day-Ahead Forecasts provided in Section 4.3(c), there are change(s) in such Day-Ahead Forecasts of one (1) MW/ (1) MWh or more, as applicable, in (i) Available Generating Capacity or (ii) hourly expected Delivered Energy, in each case, whether due to Forced Facility Outage, Transmission System Outage, Force Majeure or other cause including (as appropriate) information regarding the beginning date and time of the event resulting in the change in Available Generating Capacity or hourly expected Delivered Energy, as applicable, the expected end date and time of such event, and any other information required by the CAISO or reasonably requested by Buyer.

(e) CAISO Tariff Requirements. To the extent such obligations are applicable to the Facility, Seller will comply with all applicable obligations for Variable Energy Resources under the CAISO Tariff and the Eligible Intermittent Resource Protocol, including providing appropriate operational data and meteorological data.

4.4 Dispatch Down/Curtailment. Seller agrees to reduce the amount of Delivered Energy produced by the Facility, by the amount and for the period set forth in any Curtailment Order, provided that Seller is not required to reduce such amount to the extent such Curtailment Order or notice is inconsistent with the limitations of the Facility.

4.5 [Reserved]

4.6 Reduction in Delivery Obligation. For the avoidance of doubt, and in no way limiting Section 3.8 or Exhibit G:

(a) Planned Outages. Subject to providing Buyer one-hundred twenty (120) days prior Notice, Seller shall schedule all Planned Outages within the time-period determined by the CAISO for the Facility as a Resource Adequacy Resource that is subject to the Availability Standards, to qualify for an “Approved Maintenance Outage” under the CAISO Tariff. Seller shall

## EXECUTION VERSION

reimburse Buyer for any cost Project Participants incur to provide substitute Capacity Attributes, as required by the CAISO, during any Planned Outages (including the cost of procuring replacement Capacity Attributes for a full calendar month during any month in which a Planned Outage is planned or scheduled). Notwithstanding the above, no Planned Outages of the Facility shall be scheduled or planned from each June 1 through October 31 during the Delivery Term, unless approved by Buyer in writing in its sole discretion.

(b) Forced Facility Outage. Seller shall be permitted to reduce deliveries of Product other than Capacity Attributes during any Forced Facility Outage. Seller shall promptly provide Buyer with Notice and expected duration (if known) of any Forced Facility Outage.

(c) System Emergencies and other Interconnection Events. Seller shall be permitted to reduce deliveries of Product other than Capacity Attributes during any period of System Emergency, Market Curtailment Period, or upon Notice of a Curtailment Order pursuant to the terms of this Agreement, the Interconnection Agreement or applicable tariff.

(d) Force Majeure Event. Seller shall be permitted to reduce deliveries of Product including Capacity Attributes as set forth in Section 3.7(h) during any Force Majeure Event, so long as Seller complies with the applicable requirements of Article 10.

(e) Health and Safety. Seller shall be permitted to reduce deliveries of Product other than Capacity Attributes as necessary to maintain health and safety pursuant to Section 6.2.

4.7 Guaranteed Energy Production. During each Performance Measurement Period, Seller shall deliver to Buyer an amount of Adjusted Energy Production for the Performance Measurement Period, in MWh equal to no less than the Guaranteed Energy Production. If Seller fails to achieve the Guaranteed Energy Production amount in any Performance Measurement Period, Seller shall pay Buyer liquidated damages calculated in accordance with Exhibit G.

4.8 WREGIS. Seller shall, subject to Section 3.12, take all actions and execute all documents or instruments necessary to ensure that all WREGIS Certificates associated with all Renewable Energy Credits corresponding to all Delivered Energy are issued and tracked for purposes of satisfying the requirements of the California Renewables Portfolio Standard and transferred in a timely manner to Project Participants for their sole benefit. Seller shall comply with all Laws, including the WREGIS Operating Rules, regarding the certification and transfer of such WREGIS Certificates to Project Participants and Project Participants shall be given sole title to all such WREGIS Certificates. Seller shall be deemed to have satisfied the warranty in Section 3.11(c) provided that Seller fulfills its obligations under Sections 4.8(a) through (f) below. In addition:

(a) Prior to the Commercial Operation Date, Seller shall register the Facility with WREGIS and establish an account with WREGIS ("Seller's WREGIS Account"), which Seller shall maintain until the end of the Delivery Term. Seller shall transfer the WREGIS Certificates using "Forward Certificate Transfers" (as described in the WREGIS Operating Rules) from Seller's WREGIS Account to the WREGIS account(s) of Project Participants ("Buyer's WREGIS Account"). Seller shall be responsible for all expenses associated with registering the Facility with WREGIS, establishing and maintaining Seller's WREGIS Account,

## EXECUTION VERSION

paying WREGIS Certificate issuance and transfer fees, and transferring WREGIS Certificates from Seller's WREGIS Account to Project Participants' WREGIS Accounts.

(b) Seller shall cause Forward Certificate Transfers to occur on a monthly basis in accordance with the certification procedure established by the WREGIS Operating Rules. Since WREGIS Certificates will only be created for whole MWh amounts of Delivered Energy generated, any fractional MWh amounts (i.e., kWh) will be carried forward until sufficient generation is accumulated for the creation of a WREGIS Certificate.

(c) Seller shall, at its sole expense, ensure that the WREGIS Certificates for a given calendar month correspond with the Delivered Energy for such calendar month as evidenced by the Facility's metered data. Subject to Section 3.12, Seller shall comply with any requirements of the CPUC, CEC, WREGIS and/or California Air Resources Board applicable to entities delivering RPS-eligible energy into the CAISO market with respect to documenting and reporting e-tags, including, as applicable, any requirements to match e-tags to WREGIS Certificate creation. Seller agrees to provide Buyer any such information as may be reasonably required by Buyer to comply with any requirements to match e-tags to WREGIS Certificate creation, including the CPUC's *PCC Classification Review Process Handbook* and any additional requirements.

(d) Due to the ninety (90) day delay in the creation of WREGIS Certificates relative to the timing of invoice payment under Section 8.2, Buyer shall make an invoice payment for a given month in accordance with Section 8.2 before the WREGIS Certificates for such month are formally transferred to Project Participants in accordance with the WREGIS Operating Rules and this Section 4.8. Notwithstanding this delay, Project Participants shall have all right and title to all such WREGIS Certificates upon payment to Seller in accordance with Section 8.2.

(e) A "**WREGIS Certificate Deficit**" means any deficit or shortfall in WREGIS Certificates delivered to Project Participants for a calendar month as compared to the Delivered Energy except with respect to fractional amounts that are carried forward as otherwise provided in Section 4.8(b) for the same calendar month ("**Deficient Month**") caused by an error or omission of Seller. If any WREGIS Certificate Deficit is caused, or the result of any action or inaction by Seller, then the amount of Delivered Energy in the Deficient Month shall be reduced by the amount of the WREGIS Certificate Deficit for purposes of calculating Buyer's payment to Seller under Article 8 and damages, if any, under Exhibit G for the applicable Contract Year; *provided, however*, that such adjustment shall not apply to the extent that Seller resolves the WREGIS Certificate Deficit within ninety (90) days after the Deficient Month. Without limiting Seller's obligations under this Section 4.8, if a WREGIS Certificate Deficit is caused solely by an error or omission of WREGIS, the Parties shall cooperate in good faith to cause WREGIS to correct its error or omission.

(f) If WREGIS changes the WREGIS Operating Rules after the Effective Date or applies the WREGIS Operating Rules in a manner inconsistent with this Section 4.8 after the Effective Date, the Parties promptly shall modify this Section 4.8 as reasonably required to cause and enable Seller to transfer to Buyer's WREGIS Account a quantity of WREGIS Certificates for each given calendar month that corresponds to the Delivered Energy in the same calendar month.

4.9 **Interconnection Capacity**. Seller shall be responsible for all costs of interconnecting the Facility to the Interconnection Point. Seller shall have and maintain interconnection capacity available or allocable to the Facility that is no less than the Interconnection Capacity Limit throughout the Delivery Term.

4.10 **Green-E Certification**. Upon request of Buyer, Seller shall submit, a Green-e® Energy Tracking Attestation Form (“**Attestation**”) for Product delivered under this Agreement to the Center for Resource Solutions (“**CRS**”) at <https://www.tfaforms.com/4652008> or its successor. The Attestation shall be submitted in accordance with the requirements of CRS and shall be submitted within thirty (30) days of Buyer’s request or the last day of the month in which the applicable Delivered Energy was generated, whichever is later.

## ARTICLE 5 TAXES

5.1 **Allocation of Taxes and Charges**. Seller shall pay or cause to be paid all Taxes on or with respect to the Facility or on or with respect to the sale and making available of Product to Buyer that are imposed on Product prior to its delivery to Buyer at the time and place contemplated under this Agreement. Buyer shall pay or cause to be paid all Taxes on or with respect to the delivery to and purchase by Buyer of Product that are imposed on Product at and after its delivery to Buyer at the time and place contemplated under this Agreement (other than withholding or other Taxes imposed on Seller’s income, revenue, receipts or employees), if any. If a Party is required to remit or pay Taxes that are the other Party’s responsibility hereunder, such Party shall promptly pay the Taxes due and then seek and receive reimbursement from the other for such Taxes. In the event any sale of Product hereunder is exempt from or not subject to any particular Tax, Buyer shall provide Seller with all necessary documentation to evidence such exemption or exclusion within thirty (30) days after Buyer makes such claim. If Buyer does not provide such documentation, then Buyer shall indemnify, defend, and hold Seller harmless from any liability with respect to Taxes from which Buyer claims it is exempt.

5.2 **Cooperation**. Each Party shall use reasonable efforts to implement the provisions of and administer this Agreement in accordance with the intent of the Parties to minimize all Taxes, so long as no Party is materially adversely affected by such efforts. The Parties shall cooperate to minimize Tax exposure; *provided, however*, that neither Party shall be obligated to incur any financial or operational burden to reduce Taxes for which the other Party is responsible hereunder without receiving due compensation therefor from the other Party. All Product delivered by Seller to Buyer hereunder shall be a sale made at wholesale, with Buyer reselling such Product.

## ARTICLE 6 MAINTENANCE OF THE FACILITY

6.1 **Maintenance of the Facility**. Seller shall comply with Law and Prudent Operating Practice relating to the operation and maintenance of the Facility and the generation and sale of Product.

6.2 **Maintenance of Health and Safety**. Seller shall take reasonable safety precautions with respect to the operation, maintenance, repair and replacement of the Facility. If Seller

becomes aware of any circumstances relating to the Facility that create an imminent risk of damage or injury to any Person or any Person's property, Seller shall take prompt action to prevent such damage or injury and shall give Notice to Buyer's emergency contact identified on Exhibit N of such condition. Such action may include, to the extent reasonably necessary, disconnecting and removing all or a portion of the Facility, or suspending the supply of Delivered Energy to Buyer.

6.3 **Shared Facilities.** The Parties acknowledge and agree that the Facility is a phased portion of geothermal resource, and as a result, certain of the Shared Facilities and Interconnection Facilities, Seller's rights and obligations under the Interconnection Agreement and Seller's rights and obligations under transmission service agreements with Transmission Provider may be subject to certain shared facilities and/or co-tenancy agreements ("**Shared Facilities Agreements**") to be entered into among two or more of Seller, Transmission Provider, Seller's Affiliates, and/or third parties pursuant to which certain Shared Facilities, Interconnection Facilities, interconnection service and/or transmission service may be subject to joint ownership and/or shared maintenance and operation arrangements; *provided* that such Shared Facilities Agreements shall (i) permit Seller to perform or satisfy, and shall not purport to limit, its obligations hereunder, including providing interconnection capacity for the Facility in an amount not less than the Interconnection Capacity Limit, (ii) provide for separate metering and a separate CAISO Resource ID for the Generating Facility, (iii) provide that any other generating or energy storage facilities not included in the Facility but using Shared Facilities shall not be included within the Facility's CAISO Resource IDs; and (iv) provide that any curtailment of the full capacity of Shared Facilities that is ordered by Transmission Provider that Seller and its Affiliates have discretion to allocate across generating or energy storage facilities using the Shared Facilities shall not be allocated to the Facility more than its pro rata portion of the total capacity of all generating or energy storage facilities using the Shared Facilities. Seller shall not, and shall not permit any Affiliate to, allocate to other parties a share of the total interconnection capacity under the Interconnection Agreement in excess of an amount equal to the total interconnection capacity under the Interconnection Agreement minus the Interconnection Capacity Limit.

## ARTICLE 7 METERING

7.1 **Metering.** Seller shall measure the amount of Delivered Energy using the Facility Meter. All meters will be operated pursuant to applicable CAISO-approved calculation methodologies and maintained as Seller's cost. Subject to meeting any applicable CAISO requirements, the Facility Meter shall be programmed to adjust for Electrical Losses and Station Use in accordance with CAISO's rules for Pseudo-Tie Resources, and in a manner subject to Buyer's prior written approval, not to be unreasonably withheld. Metering will be consistent with the Metering Diagram to be set forth as Exhibit P, an updated version of which shall be provided by Seller to Buyer at least thirty (30) days prior to Commercial Operation. Each meter shall be kept under seal, such seals to be broken only when the meters are to be tested, adjusted, modified or relocated. In the event Seller breaks a seal, Seller shall notify Buyer as soon as practicable. In addition, Seller hereby agrees to provide all meter data to Buyer in a form reasonably acceptable to Buyer, and consents to Buyer obtaining from CAISO the CAISO meter data directly relating to the Facility and all inspection, testing and calibration data and reports. Seller and Buyer, or Seller's Scheduling Coordinator, shall cooperate to allow both Parties to

## EXECUTION VERSION

retrieve the meter reads from the CAISO Operational Meter Analysis and Reporting (OMAR) web or directly from the CAISO meter(s) at the Facility.

7.2 **Meter Verification**. Seller shall test the Facility Meter at least annually and more frequently than annually if Buyer or Seller reasonably believe there may be a meter malfunction. The tests shall be conducted by independent third parties qualified to conduct such tests. Buyer shall be notified seven (7) days in advance of such tests and have a right to be present during such tests. If a meter is inaccurate, it shall be promptly repaired or replaced. If a meter is inaccurate by more than one percent (1%) and it is not known when the meter inaccuracy commenced (if such evidence exists such date will be used to adjust prior invoices), then the invoices covering the period of time since the last meter test shall be adjusted for the amount of the inaccuracy on the assumption that the inaccuracy persisted during one-half of such period so long as such adjustments are accepted by CAISO and WREGIS; *provided*, such period may not exceed twelve (12) months.

## ARTICLE 8 INVOICING AND PAYMENT; CREDIT

8.1 **Invoicing**. Seller shall use commercially reasonable efforts to deliver an invoice to Buyer within ten (10) days after the end of the prior monthly delivery period. Each invoice shall (a) include records of metered data, including CAISO metering and transaction data sufficient to document and verify the amount of Product delivered by the Facility for any Settlement Period during the preceding month, including the amount of Delivered Energy, Replacement RA, the calculation of Deemed Delivered Energy, Lost Output, and Adjusted Energy Production; (b) include the LMP prices at the Settlement Point for each Settlement Period, the Contract Price applicable to such Product deliveries, and Seller's calculation of the Monthly Product Payment due from Buyer, calculated in accordance with Exhibit C, and including invoices or settlement data from the CAISO, necessary to verify the accuracy of such Monthly Product Payment; and (c) be in a format reasonably specified by Buyer, covering the services provided in the preceding month determined in accordance with the applicable provisions of this Agreement. Buyer shall, and shall cause its Scheduling Coordinator to, provide Seller with all reasonable access (including, in real time, to the maximum extent reasonably possible) to any records, including invoices or settlement data from the CAISO, forecast data and other information, all as may be necessary from time to time for Seller to prepare and verify the accuracy of all invoices. The invoice shall be delivered by electronic mail in accordance with Exhibit N.

8.2 **Payment**. Buyer shall make payment to Seller of Monthly Product Payments for Product (and any other amounts due) by wire transfer or ACH payment to the bank account provided on each monthly invoice. Buyer shall pay undisputed invoice amounts within thirty (30) days after Buyer's receipt of Seller's invoice; *provided* if such due date falls on a weekend or legal holiday, such due date shall be the next Business Day. Payments made after the due date will be considered late and will bear interest on the unpaid balance. If the amount due is not paid on or before the due date or if any other payment that is due and owing from one Party to another is not paid on or before its applicable due date, a late payment charge shall be applied to the unpaid balance and shall be added to the next billing statement. Such late payment charge shall be calculated based on the 3-Month prime rate (or any equivalent successor rate accepted by a majority of major financial institutions) published on the date of the invoice in The Wall Street

## EXECUTION VERSION

Journal (or, if The Wall Street Journal is not published on that day, the next succeeding date of publication), plus two percent (2%) (the “**Interest Rate**”). If the due date occurs on a day that is not a Business Day, the late payment charge shall begin to accrue on the next succeeding Business Day.

8.3 **Books and Records.** To facilitate payment and verification, each Party shall maintain all books and records necessary for billing and payments, including copies of all invoices under this Agreement, for a period of at least five (5) years or as otherwise required by Law. Upon ten (10) Business Days’ Notice to the other Party, either Party shall be granted access to the accounting books and records within the possession or control of the other Party pertaining to all invoices generated pursuant to this Agreement. Seller acknowledges that in accordance with California Government Code Section 8546.7, Seller may be subject to audit by the California State Auditor with regard to Seller’s performance of this Agreement because the compensation under this Agreement exceeds ten thousand dollars (\$10,000).

8.4 **Invoice Adjustments.** Invoice adjustments shall be made if (a) there have been good faith inaccuracies in invoicing or payment that are not otherwise disputed under Section 8.5, (b) an adjustment to an amount previously invoiced or paid is required due to a correction of data by the CAISO, or (c) there have been meter inaccuracies; provided, however, that there shall be no adjustments to prior invoices based upon meter inaccuracies except to the extent that such meter adjustments are accepted by CAISO for revenue purposes. If the required adjustment is in favor of Buyer, Buyer’s next monthly payment shall be credited in an amount equal to the adjustment. If the required adjustment is in favor of Seller, Seller shall add the adjustment amount to Buyer’s next monthly invoice. Adjustments in favor of either Buyer or Seller shall bear interest, until settled in full, in accordance with Section 8.2, accruing from the date on which the adjusted amount should have been due. Unless otherwise agreed by the Parties, no adjustment of invoices shall be permitted after twenty-four (24) months from the date of the invoice.

8.5 **Billing Disputes.** A Party may, in good faith, dispute the correctness of any invoice or any adjustment to an invoice rendered under this Agreement or adjust any invoice for any arithmetic or computational error within twelve (12) months of the date the invoice, or adjustment to an invoice, was rendered. In the event an invoice or portion thereof, or any other claim or adjustment arising hereunder, is disputed, payment of the undisputed portion of the invoice shall be required to be made when due. Any invoice dispute or invoice adjustment shall be in writing and shall state the basis for the dispute or adjustment. Payment of the disputed amount shall not be required until the dispute is resolved. Upon resolution of the dispute, any required payment shall be made within five (5) Business Days of such resolution along with interest accrued at the Interest Rate from and including the original due date to but excluding the date paid. Inadvertent overpayments shall be returned via adjustments in accordance with Section 8.4. Any dispute with respect to an invoice is waived if the other Party is not notified in accordance with this Section 8.5 within twelve (12) months after the invoice is rendered or subsequently adjusted, except to the extent any misinformation was from a third party not affiliated with any Party and such third party corrects its information after the twelve- (12-) month period. If an invoice is not rendered within twelve (12) months after the close of the month during which performance occurred, the right to payment for such performance is waived.

8.6 **Netting of Payments.** The Parties hereby agree that they shall discharge mutual debts and payment obligations due and owing to each other on the same date through netting, in which case all amounts owed by each Party to the other Party for the purchase and sale of Product during the monthly billing period under this Agreement or otherwise arising out of this Agreement, including any related damages calculated pursuant to Exhibit B, interest, and payments or credits, shall be netted so that only the excess amount remaining due shall be paid by the Party who owes it.

8.7 **Seller's CP Security.** To secure its obligations under this Agreement, Seller shall deliver the CP Security to Buyer within thirty (30) days of the Effective Date. Seller shall maintain the CP Security in full force and effect; *provided*, Seller will have no obligation to replenish the CP Security in the event Buyer collects or draws down any portion of the CP Security for any reason permitted under this Agreement. Except to the extent Seller elects to apply the CP Security to the Development Security, upon the earlier of (i) Seller's delivery of the Development Security, or (ii) sixty (60) days after termination of this Agreement, Buyer shall return the CP Security to Seller, less the amounts drawn in accordance with this Agreement. Seller may at its option exchange one permitted form of CP Security for another permitted form of Development Security.

8.8 **Seller's Development Security.** To secure its obligations under this Agreement, Seller shall deliver the Development Security to Buyer within thirty (30) days of the CP Satisfaction Date. Seller shall maintain the Development Security in full force and effect; *provided* Seller will have no obligation to replenish the Development Security in the event Buyer collects or draws down any portion of the Development Security for any reason permitted under this Agreement. Except to the extent Seller elects to apply the Development Security to the Performance Security, upon the earlier of (i) Seller's delivery of the Performance Security, or (ii) sixty (60) days after termination of this Agreement, Buyer shall return the Development Security to Seller, less the amounts drawn in accordance with this Agreement. Seller may at its option exchange one permitted form of Development Security for another permitted form of Development Security.

8.9 **Seller's Performance Security.** To secure its obligations under this Agreement, Seller shall deliver Performance Security to Buyer on or before the Commercial Operation Date. Seller shall maintain the Performance Security in full force and effect, and Seller shall within five (5) Business Days after any draw thereon replenish the Performance Security in the event Buyer collects or draws down any portion of the Performance Security for any reason permitted under this Agreement other than to satisfy a Termination Payment, until the following have occurred: (A) the Delivery Term has expired or terminated early; and (B) all payment obligations of Seller then due and payable under this Agreement, including compensation for penalties, Termination Payment, indemnification payments or other damages are paid in full (whether directly or indirectly such as through set-off or netting). Following the occurrence of both events, Buyer shall promptly return to Seller the unused portion of the Performance Security. Seller may at its option exchange one permitted form of Performance Security for another permitted form of Performance Security.

8.10 **First Priority Security Interest in Cash or Cash Equivalent Collateral.** To secure its obligations under this Agreement, and until released as provided herein, Seller hereby grants to Buyer a present and continuing first-priority security interest ("**Security Interest**") in,

and lien on (and right to net against), and assignment of the CP Security, Development Security, Performance Security, any other cash collateral and cash equivalent collateral posted pursuant to Sections 8.7, 8.8 and 8.9 and any and all interest thereon or proceeds resulting therefrom or from the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of Buyer, and Seller agrees to take all action as Buyer reasonably requires in order to perfect Buyer's Security Interest in, and lien on (and right to net against), such collateral and any and all proceeds resulting therefrom or from the liquidation thereof.

Upon or any time after the occurrence and continuation of an Event of Default caused by Seller, an Early Termination Date resulting from an Event of Default caused by Seller, or an occasion provided for in this Agreement where Buyer is authorized to retain all or a portion of the CP Security, Development Security or Performance Security, Buyer may do any one or more of the following (in each case subject to the final sentence of this Section 8.10):

(a) Exercise any of its rights and remedies with respect to the CP Security, Development Security and Performance Security, including any such rights and remedies under Law then in effect;

(b) Draw on any outstanding Letter of Credit issued for its benefit and retain any cash held by Buyer as CP Security, Development Security or Performance Security; and

(c) Liquidate all CP Security, Development Security or Performance Security (as applicable) then held by or for the benefit of Buyer free from any claim or right of any nature whatsoever of Seller, including any equity or right of purchase or redemption by Seller.

Buyer shall apply the proceeds of the collateral realized upon the exercise of any such rights or remedies to reduce Seller's obligations under this Agreement (Seller remains liable for any amounts owing to Buyer after such application), subject to Buyer's obligation to return any surplus proceeds remaining after these obligations are satisfied in full.

### 8.11 **Buyer Credit Arrangements.**

(a) To secure its obligations under this Agreement, Buyer shall deliver to Seller within one hundred twenty (120) days after the Effective Date, Buyer Liability Pass Through Agreements from the Project Participants with Liability Shares as set forth on Exhibit S. Seller shall countersign each Buyer Liability Pass Through Agreement within ten (10) days of receipt of Buyer's delivery of each such Buyer Liability Pass Through Agreement executed by Buyer and applicable Project Participant; provided that no delay in countersigning any such Buyer Liability Pass Through Agreement shall affect Seller's, Buyer's or the Project Participant's rights or obligations thereunder once executed. Buyer shall maintain such Buyer Liability Pass Through Agreements in full force and effect until both of the following have occurred: (a) the Delivery Term has expired or terminated early; and (b) all payment obligations of Buyer due and payable under this Agreement are paid in full (whether directly or indirectly such as through set-off or netting). Buyer may propose amendments to Exhibit S, including with respect to the identity of Project Participants and the amount of each Project Participant's Liability Share. Seller shall have thirty (30) days to evaluate any such proposed amendments to Exhibit S in its sole but good faith discretion and no such proposed amendment will be effective without the prior written consent of

Seller. If Seller consents to such proposed amendments to Exhibit S, Buyer shall have thirty (30) days to provide Seller with replacement Buyer Liability Pass Through Agreements with Liability Shares executed by Buyer and the applicable Project Participants that incorporate the Liability Shares set forth in the amended Exhibit S. Seller shall use good faith efforts to countersign each such Buyer Liability Pass Through Agreement executed by Buyer and the applicable Project Participant within ten (10) Business Days after Buyer's delivery of such Buyer Liability Pass Through Agreements to Seller; *provided* that no delay in countersigning any such Buyer Liability Pass Through Agreement shall affect Seller's, Buyer's or the Project Participant's rights or obligations thereunder once executed; and further provided that until the modified Buyer Liability Pass Through Agreements with Liability Shares set forth in amended Exhibit S have been executed by Seller and all applicable Project Participants, the prior agreements will remain in effect.

(b) Within sixty (60) days following a Step-Up Event, (A) Buyer shall provide Seller with replacement Buyer Liability Pass Through Agreements from all Compliant Project Participants executed by Buyer and the applicable Compliant Project Participants that reflect each Compliant Project Participant's Revised Liability Share following such Step-Up Event, and, (B) Exhibit S will be amended to reflect the Compliant Project Participants' Revised Liability Shares following such Step-Up Event. Seller shall use good faith efforts to countersign each such Buyer Liability Pass Through Agreement executed by Buyer and the applicable Compliant Project Participant within ten (10) Business Days after Buyer's delivery of such Buyer Liability Pass Through Agreements to Seller; *provided* that that no delay in countersigning any such Buyer Liability Pass Through Agreement shall affect Seller's, Buyer's or the Project Participant's rights or obligations thereunder once executed; and further provided that until the modified Buyer Liability Pass Through Agreements with Liability Shares set forth in amended Exhibit S have been executed by Seller and all applicable Project Participants, the prior agreements will remain in effect. Buyer will enforce the provisions of the Project Participation Agreement relating to nonperformance and payment defaults by Project Participants, including the use of the "Step-Up Allocation" provisions to cure a Project Participant Payment Default, and will give Seller written notice within three (3) Business Days after the occurrence of any of the following: (i) any Project Participant Payment Default by any Project Participant under the Project Participation Agreement, including copies of any notices given to the Defaulted Project Participant, (ii) the cure of any Project Participant Payment Default by a Defaulted Project Participant, (iii) any actions taken to enforce remedies with respect to a Project Participant Payment Default, (iv) the termination of any Project Participant's interest under the Project Participation Agreement, and (v) the reallocation of any terminated Project Participant's rights under the Project Participation Agreement, including the revised "Entitlement Shares" of each remaining Project Participant under the Project Participation Agreement.

## ARTICLE 9 NOTICES

9.1 **Addresses for the Delivery of Notices.** Any Notice required, permitted, or contemplated hereunder shall be in writing, shall be addressed to the Party to be notified at the address set forth in Exhibit N or at such other address or addresses as a Party may designate for itself from time to time by Notice hereunder.

9.2 **Acceptable Means of Delivering Notice.** Each Notice required, permitted, or contemplated hereunder shall be deemed to have been validly served, given or delivered as follows: (a) if sent by United States mail with proper first class postage prepaid, three (3) Business Days following the date of the postmark on the envelope in which such Notice was deposited in the United States mail; (b) if sent by a regularly scheduled overnight delivery carrier with delivery fees either prepaid or an arrangement with such carrier made for the payment of such fees, the next Business Day after the same is delivered by the sending Party to such carrier; (c) if sent by electronic communication (including electronic mail or other electronic means), at the time indicated by the time stamp upon delivery and, if after 5:00 p.m. PPT, on the next Business Day; or (d) if delivered in person, upon receipt by the receiving Party. Notwithstanding the foregoing, invoices sent pursuant to Section 8.1 and Notices of outages or other scheduling or dispatch information or requests may be sent by electronic communication and shall be considered delivered upon successful completion of such transmission.

## ARTICLE 10 FORCE MAJEURE

### 10.1 **Definition.**

(a) **“Force Majeure Event”** means any act or event that delays or prevents a Party from timely performing all or a portion of its obligations under this Agreement or from complying with all or a portion of the conditions under this Agreement if such act or event, despite the exercise of commercially reasonable efforts, cannot be avoided by and is beyond the reasonable control (whether direct or indirect) of and without the fault or negligence of the Party relying thereon as justification for such delay, nonperformance, or noncompliance.

(b) Without limiting the generality of the foregoing, so long as the following events, despite the exercise of reasonable efforts, cannot be avoided by, and are beyond the reasonable control (whether direct or indirect) of and without the fault or negligence of the Party relying thereon as justification for such delay, nonperformance or noncompliance, a Force Majeure Event may include an act of God or the elements, such as flooding, lightning, hurricanes, tornadoes, or ice storms; explosion; fire; volcanic eruption; flood; epidemic or pandemic (excluding impacts of the disease designated COVID-19 or the related virus designated SARS-CoV-2 impacts actually known by the Party claiming the Force Majeure Event as of the Effective Date); landslide; mudslide; sabotage; terrorism; earthquake; or other cataclysmic events; an act of public enemy; war; blockade; civil insurrection; riot; civil disturbance; or strikes or other labor difficulties caused or suffered by a Party or any third party except as set forth below.

(c) Notwithstanding the foregoing, the term **“Force Majeure Event”** does not include (i) economic conditions that render a Party’s performance of this Agreement at the Contract Price unprofitable or otherwise uneconomic (including an increase in component costs for any reason, including foreign or domestic tariffs, Buyer’s ability to buy electric energy at a lower price, or Seller’s ability to sell the Product, or any component thereof, at a higher price, than under this Agreement); (ii) Seller’s inability to obtain permits or approvals of any type for the construction, operation, or maintenance of the Facility, except to the extent such inability is caused by a Force Majeure Event; (iii) the inability of a Party to make payments when due under this Agreement, unless the cause of such inability is an event that would otherwise constitute a Force

## EXECUTION VERSION

Majeure Event as described above that disables physical or electronic facilities necessary to transfer funds to the payee Party; (iv) a Curtailment Order, except to the extent the Curtailment Order is caused by a Force Majeure Event; (v) Seller's inability to obtain sufficient labor, equipment, materials, or other resources to build or operate the Facility except to the extent such inability is caused by a Force Majeure Event; (vi) any equipment failure except if such equipment failure is caused by a Force Majeure Event; or (viii) any action or inaction by any third party, including Transmission Provider, that delays or prevents the approval, construction or placement in service of any Interconnection Facilities or Network Upgrades, except to the extent caused by a Force Majeure Event.

10.2 **Termination Following Force Majeure Event.** If a Force Majeure Event has occurred after the Commercial Operation Date that has caused either Party to be wholly or partially unable to perform its obligations hereunder, and the impacted Party has claimed and received relief from performance of its obligations for a consecutive twelve (12) month period, then the non-claiming Party may terminate this Agreement upon written Notice to the other Party. Upon any such termination, neither Party shall have any liability to the other Party, save and except for those obligations specified in Section 2.1(c), and Buyer shall promptly return to Seller any Performance Security then held by Buyer, less any amounts drawn in accordance with this Agreement. Notwithstanding the foregoing, the occurrence and continuation of a Force Majeure Event shall not (a) suspend or excuse the obligation of Seller to achieve the Guaranteed Construction Start Date or the Guaranteed Commercial Operation Date beyond the extensions provided in Exhibit B, or (b) limit Buyer's right to declare an Event of Default pursuant to Section 11.1(b)(ii) or (iv) and receive a Damage Payment upon exercise of Buyer's default right pursuant to Section 11.2.

10.3 **Notice for Force Majeure.** Within five (5) Business Days of knowledge of the commencement of Force Majeure Event, the claiming Party shall provide the other Party with oral notice of the event of Force Majeure, and within two (2) weeks of knowledge of the commencement of a Force Majeure Event the claiming Party shall provide the other Party with notice in the form of a letter describing in detail the occurrence giving rise to the Force Majeure Event, including the nature, cause, estimated date of commencement thereof, and the anticipated extent of any delay or interruption in performance. Failure to provide timely notice constitutes a waiver of the Force Majeure Event only for the time-period prior to the provision of timely notice. Upon written request by Buyer, Seller shall provide documentation demonstrating to Buyer's reasonable satisfaction that each day of the claimed delay was the result of a Force Majeure Event and did not result from Seller's actions or failure to exercise due diligence or take reasonable actions. The claiming party shall promptly notify the other Party in writing of the cessation or termination of such Force Majeure Event, all as known or estimated in good faith by the affected Party. The suspension of performance due to a claim of Force Majeure must be of no greater scope and of no longer duration than is required by the Force Majeure Event.

10.4 **No Liability If a Force Majeure Event Occurs.** Neither Seller nor Buyer shall be liable to the other Party in the event it is prevented from performing its obligations hereunder in whole or in part due to a Force Majeure Event. The Party rendered unable to fulfill any obligation by reason of a Force Majeure Event shall take reasonable actions necessary to remove such inability with due speed and diligence. Nothing herein shall be construed as permitting that Party to continue to fail to perform after said cause has been removed. The obligation to use due speed and diligence shall not be interpreted to require resolution of labor disputes by acceding to

demands of the opposition when such course is inadvisable in the discretion of the Party having such difficulty. Neither Party shall be considered in breach or default of this Agreement if and to the extent that any failure or delay in the Party's performance of one or more of its obligations hereunder is caused by a Force Majeure Event. Notwithstanding the foregoing, the occurrence and continuation of a Force Majeure Event shall not suspend or excuse the obligation of Seller to achieve the Guaranteed Construction Start Date or the Guaranteed Commercial Operation Date beyond the extensions provided in Section 4 of Exhibit B or limit Buyer's right to declare an Event of Default pursuant to Section 11.1(b)(ii) and receive a Damage Payment upon exercise of Buyer's rights pursuant to Section 11.2.

**ARTICLE 11**  
**DEFAULTS; REMEDIES; TERMINATION**

11.1 **Events of Default**. An "**Event of Default**" shall mean,

(a) with respect to a Party (the "**Defaulting Party**") that is subject to the Event of Default, the occurrence of any of the following:

(i) the failure by such Party to make, when due, any payment required pursuant to this Agreement and such failure is not remedied within ten (10) Business Days after Notice thereof;

(ii) any representation or warranty made by such Party herein is false or misleading in any material respect when made or when deemed made or repeated, and such default is not remedied within thirty (30) days after Notice thereof (or such longer additional period, not to exceed an additional sixty (60) days, if the Defaulting Party is unable to remedy such default within such initial thirty (30) days period despite exercising commercially reasonable efforts);

(iii) the failure by such Party to perform any material covenant or obligation set forth in this Agreement (except to the extent constituting a separate Event of Default set forth in this Section 11.1) and such failure is not remedied within thirty (30) days after Notice thereof (or such longer additional period, not to exceed an additional ninety (90) days, if the Defaulting Party is unable to remedy such default within such initial thirty (30) days period despite exercising commercially reasonable efforts);

(iv) such Party becomes Bankrupt;

(v) such Party assigns this Agreement or any of its rights hereunder other than in compliance with Section 14.2 or 14.3, as appropriate; or

(vi) such Party consolidates or amalgamates with, or merges with or into, or transfers all or substantially all of its assets to, another entity and, at the time of such consolidation, amalgamation, merger or transfer, the resulting, surviving or transferee entity fails to assume all the obligations of such Party under this Agreement to which it or its predecessor was a party by operation of Law or pursuant to an agreement reasonably satisfactory to the other Party.

(b) with respect to Seller as the Defaulting Party, the occurrence of any of the following:

## EXECUTION VERSION

(i) if at any time, Seller delivers or attempts to deliver Energy to the Delivery Point for sale under this Agreement that was not generated by the Facility except as expressly permitted hereunder;

(iii) if not remedied within ten (10) days after Notice thereof, the failure by Seller to deliver a Remedial Action Plan on the timeframe set forth under Section 2.4;

(v) Seller sells, assigns, or otherwise transfers, or commits to sell, assign, or otherwise transfer, the Product, or any portion thereof, during the Delivery Term to any party other than Buyer except as expressly permitted under this Agreement;

(vi) if, in any consecutive six (6) month period after the Commercial Operation Date, the Adjusted Energy Production amount for such period is not at least ten percent (10%) of the Expected Energy amount for such period, and Seller fails to (x) deliver to Buyer within ten (10) Business Days after Notice from Buyer a plan or report developed by Seller that describes the cause of the failure to meet the ten percent (10%) and the actions that Seller has taken, is taking, or proposes to take in an effort to cure such condition along with the written confirmation of a Licensed Professional Engineer that such plan or report is in accordance with Prudent Operating Practices and capable of cure within a reasonable period of time, not to exceed one-hundred eighty (180) days ("Cure Plan"); *provided* that if the cause of any such shortfall is a failure of the Facility's main power transformer, and such failure was not caused by Seller and could not have been avoided through the exercise of Prudent Operating Practice, then the Cure Plan may be extended for an additional period of time not to exceed three hundred sixty-five (365) days and (y) complete such Cure Plan in all material respects as set forth therein, including within the timeframe set forth therein;

(vii) if, in any Contract Year, beginning with the second (2<sup>nd</sup>) Contract Year, the Adjusted Energy Production amount for such Contract Year is not at least sixty-five percent (65%) of the Expected Energy amount for such Contract Year; *provided* that if the cause of any such shortfall is a failure of the Facility's main power transformer, and such failure was not caused by Seller and could not have been avoided through the exercise of Prudent Operating Practice, then the energy not generated and delivered during such failure will be treated as Lost Output solely for purposes of this subsection, for a cumulative period not to exceed three hundred sixty-five (365) days during such Contract Year;

least eighty percent (80%) of the aggregate Expected Energy amount for such Performance Measurement Period; *provided* that if the cause of any such shortfall is a failure of the Facility's main power transformer, and such failure was not caused by Seller and could not have been avoided through the exercise of Prudent Operating Practice, then the energy not generated and delivered during such failure will be treated as Lost Output solely for purposes of this subsection, for a cumulative period not to exceed three hundred sixty-five (365) days during such Performance Measurement Period;

(ix) failure by Seller to satisfy the collateral requirements pursuant to Sections 8.7, 8.8 or 8.9 within five (5) Business Days after Notice, including the failure to replenish the Performance Security amount in accordance with this Agreement in the event Buyer draws against either for any reason other than to satisfy a Damage Payment or a Termination Payment;

(x) with respect to any outstanding Letter of Credit provided for the benefit of Buyer that is not then required under this Agreement to be canceled or returned, the failure by Seller to provide for the benefit of Buyer either (1) cash or (2) a substitute Letter of Credit from a different issuer meeting the criteria set forth in the definition of Letter of Credit, in each case, in the amount required hereunder within ten (10) Business Days after Seller receives Notice of the occurrence of any of the following events:

(A) the issuer of the outstanding Letter of Credit shall fail to maintain a Credit Rating of at least BBB by S&P or Baa2 by Moody's;

(B) the issuer of such Letter of Credit becomes Bankrupt;

(C) the issuer of the outstanding Letter of Credit shall fail to comply with or perform its obligations under such Letter of Credit and such failure shall be continuing after the lapse of any applicable grace period permitted under such Letter of Credit;

(D) the issuer of the outstanding Letter of Credit shall fail to honor a properly documented request to draw on such Letter of Credit;

(E) the issuer of the outstanding Letter of Credit shall disaffirm, disclaim, repudiate or reject, in whole or in part, or challenge the validity of, such Letter of Credit;

(F) such Letter of Credit fails or ceases to be in full force and effect at any time; or

(G) Seller shall fail to renew or cause the renewal of each outstanding Letter of Credit on a timely basis as provided in the relevant Letter of Credit and as provided in accordance with this Agreement, and in no event less than sixty (60) days prior to the expiration of the outstanding Letter of Credit.

(c) with respect to Buyer as the Defaulting Party, the occurrence of any of the following:

## EXECUTION VERSION

(i) Buyer fails to deliver executed revised Buyer Liability Pass Through Agreements from all Compliant Project Participants for their respective Revised Liability Shares that total one hundred percent (100%) within sixty (60) days following a Step-Up Event;

(ii) following Project Participant Approval, Buyer fails to maintain Buyer Liability Pass Through Agreements from Project Participants with Liability Shares that total one hundred percent (100%), and such failure is not remedied within thirty (30) days after Notice thereof;

(iii) the breach of or default under any Buyer Liability Pass Through Agreement by the Project Participant party thereto; *provided*, Buyer shall have thirty (30) days after Notice thereof to cure any such breach or default by such Project Participant; or

(iv) the termination or expiration of the Project Participation Agreement.

11.2 **Remedies; Declaration of Early Termination Date.** If an Event of Default with respect to a Defaulting Party shall have occurred and be continuing, the other Party ("**Non-Defaulting Party**") shall have the following rights:

(a) to send Notice, designating a day, no earlier than the day such Notice is deemed to be received and no later than twenty (20) days after such Notice is deemed to be received, as an early termination date of this Agreement ("**Early Termination Date**") that terminates this Agreement (the "**Terminated Transaction**") and ends the Delivery Term effective as of the Early Termination Date;

(b) to accelerate all amounts owing between the Parties, and to collect as liquidated damages (i) subject to Section 12.3, the Damage Payment (in the case of an Event of Default by Seller occurring before the Commercial Operation Date, including an Event of Default under Section 11.1(b)(ii)), or (ii) the Termination Payment calculated in accordance with Section 11.3 below (in the case of any other Event of Default by either Party);

(c) to withhold any payments due to the Defaulting Party under this Agreement;

(d) to suspend performance; and

(e) to exercise any other right or remedy available at law or in equity, including specific performance or injunctive relief, except to the extent such remedies are expressly limited under this Agreement; *provided*, payment by the Defaulting Party of the Damage Payment or Termination Payment, as applicable, shall constitute liquidated damages and the Non-Defaulting Party's sole and exclusive remedy for any Terminated Transaction and the Event of Default related thereto.

11.3 **Termination Payment.** The Termination Payment ("**Termination Payment**") for a Terminated Transaction shall be the aggregate of all Settlement Amounts plus any or all other amounts due to or from the Non-Defaulting Party (as of the Early Termination Date) netted into a single amount. The Non-Defaulting Party shall calculate, in a commercially reasonable manner, a Settlement Amount for the Terminated Transaction as of the Early Termination Date. Third parties supplying information for purposes of the calculation of Gains or Losses may include, without

limitation, dealers in the relevant markets, end-users of the relevant product, information vendors and other sources of market information. Without prejudice to the Non-Defaulting Party's duty to mitigate, the Non-Defaulting Party shall not have to enter into replacement transactions to establish a Settlement Amount. Each Party agrees and acknowledges that (a) the actual damages that the Non-Defaulting Party would incur in connection with a Terminated Transaction would be difficult or impossible to predict with certainty, (b) the Damage Payment or Termination Payment described in Section 11.2 or this Section 11.3 (as applicable) is a reasonable and appropriate approximation of such damages, and (c) the Damage Payment or Termination Payment described in Section 11.2 or this Section 11.3 (as applicable) is the exclusive remedy of the Non-Defaulting Party in connection with a Terminated Transaction but shall not otherwise act to limit any of the Non-Defaulting Party's rights or remedies if the Non-Defaulting Party does not elect a Terminated Transaction as its remedy for an Event of Default by the Defaulting Party.

11.4 **Notice of Payment of Termination Payment.** As soon as practicable after a Terminated Transaction, Notice shall be given by the Non-Defaulting Party to the Defaulting Party of the amount of the Damage Payment or Termination Payment and whether the Termination Payment is due to or from the Non-Defaulting Party. The Notice shall include a written statement explaining in reasonable detail the calculation of such amount and the sources for such calculation. The Damage Payment or Termination Payment, as applicable, shall be made to or from the Non-Defaulting Party, as applicable, within ten (10) Business Days after such Notice is effective.

11.5 **Disputes With Respect to Termination Payment.** If the Defaulting Party disputes the Non-Defaulting Party's calculation of the Termination Payment, in whole or in part, the Defaulting Party shall, within five (5) Business Days of receipt of the Non-Defaulting Party's calculation of the Termination Payment, provide to the Non-Defaulting Party a detailed written explanation of the basis for such dispute. Disputes regarding the Termination Payment shall be determined in accordance with Article 15.

11.6 **Limitation on Seller's Ability to Make or Agree to Third-Party Sales from the Facility after Early Termination Date.** If this Agreement is terminated by Buyer prior to the Commercial Operation Date due to Seller's Event of Default, neither Seller nor Seller's Affiliates may sell, market or deliver any Product associated with or attributable to the Facility to a party other than Buyer for a period of two (2) years following the Early Termination Date due to Seller's Event of Default, unless prior to selling, marketing or delivering such Product, or entering into the agreement to sell, market or deliver such Product to a party other than Buyer, Seller or Seller's Affiliates provide Buyer with a written offer to sell the Product on terms and conditions materially similar to the terms and conditions contained in this Agreement (including price unless the Seller Event of Default is pursuant to Sections 11.1(b)(ii) or (iv) and Seller has demonstrated to Buyer's reasonable satisfaction that such delays did not result from Seller's actions or failure to take commercially reasonable actions, then excluding price) and Buyer fails to accept such offer within forty-five (45) days of Buyer's receipt thereof.

Neither Seller nor Seller's Affiliates may sell or transfer the Facility, or any part thereof, or land rights or interests in the Site (including the interconnection queue position of the Facility) so long as the limitations contained in this Section 11.6 apply, unless the transferee agrees to be bound by the terms set forth in this Section 11.6 pursuant to a written agreement approved by Buyer in its reasonable discretion.

## EXECUTION VERSION

Seller shall indemnify and hold Buyer harmless from all benefits lost and other damages sustained by Buyer as a result of any breach by Seller of its covenants contained within this Section 11.6.

11.7 **Rights And Remedies Are Cumulative.** Except where an express and exclusive remedy or measure of damages is provided, the rights and remedies of a Party pursuant to this Article 11 shall be cumulative and in addition to the rights of the Parties otherwise provided in this Agreement.

11.8 **Mitigation.** Any Non-Defaulting Party shall be obligated to use commercially reasonable efforts to mitigate its Costs, Losses and damages resulting from any Event of Default of the other Party under this Agreement.

11.9 **Pass Through of Buyer Liability.** Notwithstanding any other provision of this Agreement, if Buyer fails to make when due any payment required pursuant to this Agreement, and such failure is not remedied within ten (10) Business Days after Notice thereof, Seller may, without waiving any of its rights with respect to Buyer except as expressly provided herein, pursue remedies under any or all of the Buyer Liability Pass Through Agreements as provided therein. Seller hereby waives the right to recover directly from Buyer any Termination Payment owed by Buyer that is not paid by Buyer pursuant to Sections 11.3 and 11.4, but the foregoing waiver does not apply to any other right or remedy of Seller under this Agreement, including the right to recover accrued Monthly Product Payments, other amounts payable or reimbursable under this Agreement or any other amounts incurred or accrued prior to termination of this Agreement, and the right to terminate the Agreement as the result of an Event of Default by Buyer.

12.2 **Waiver and Exclusion of Other Damages.** EXCEPT AS EXPRESSLY SET FORTH HEREIN, THERE IS NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND ANY AND ALL IMPLIED WARRANTIES ARE DISCLAIMED. THE PARTIES CONFIRM THAT THE EXPRESS REMEDIES AND MEASURES OF DAMAGES PROVIDED IN THIS AGREEMENT SATISFY THE ESSENTIAL PURPOSES HEREOF. ALL LIMITATIONS OF LIABILITY CONTAINED IN THIS AGREEMENT, INCLUDING, WITHOUT LIMITATION, THOSE PERTAINING TO SELLER'S LIMITATION OF LIABILITY AND THE PARTIES' WAIVER OF CONSEQUENTIAL DAMAGES, SHALL APPLY EVEN IF THE REMEDIES FOR BREACH OF WARRANTY PROVIDED IN THIS AGREEMENT ARE DEEMED TO "FAIL OF THEIR

ESSENTIAL PURPOSE” OR ARE OTHERWISE HELD TO BE INVALID OR UNENFORCEABLE.

FOR BREACH OF ANY PROVISION FOR WHICH AN EXPRESS AND EXCLUSIVE REMEDY OR MEASURE OF DAMAGES IS PROVIDED, SUCH EXPRESS REMEDY OR MEASURE OF DAMAGES SHALL BE THE SOLE AND EXCLUSIVE REMEDY, THE OBLIGOR’S LIABILITY SHALL BE LIMITED AS SET FORTH IN SUCH PROVISION, AND ALL OTHER REMEDIES OR DAMAGES AT LAW OR IN EQUITY ARE WAIVED.

(b) Nothing in this Section shall enlarge or relieve Seller or Buyer of any liability to the other for any breach of this Agreement. Neither Party shall be indemnified for its damages resulting from its sole negligence, intentional acts, or willful misconduct. These indemnity provisions shall not be construed to relieve any insurer of its obligations to pay claims consistent with the provisions of a valid insurance policy.

16.2 **Notice of Claim.** Subject to the terms of this Agreement and upon obtaining knowledge of an Indemnifiable Loss for which it is entitled to indemnity under this Article 16, the Indemnified Party will promptly Notify the Indemnifying Party in writing of any damage, claim, loss, liability or expense which Indemnified Party has determined has given or could give rise to an Indemnifiable Loss under Section 16.1 ("**Claim**"). Without the prior written consent of Indemnified Party, Indemnifying Party will not enter into any settlement of any Claim which would lead to liability or create any financial or other obligation on the part of Indemnified Party for which Indemnified Party is not entitled to indemnification hereunder; provided, however, that Indemnifying Party may accept any settlement without the consent of Indemnified Party if such settlement provides a full release to Indemnified Party and no requirement that Indemnified Party acknowledge fault or culpability. If a firm offer is made to settle a Claim without leading to liability or the creation of a financial or other obligation on the part of Indemnified Party for which Indemnified Party is not entitled to indemnification hereunder and Indemnifying Party desires to accept and agrees to such offer, Indemnifying Party will give Notice to Indemnified Party to that effect. 19.5 **Severability**. In the event that any provision of this Agreement is unenforceable or held to be unenforceable, the Parties agree that all other provisions of this Agreement have force and effect and shall not be affected thereby. The Parties shall, however, use their best endeavors to agree on the replacement of the void, illegal or unenforceable provision(s) with legally acceptable clauses which correspond as closely as possible to the sense and purpose of the affected provision and this Agreement as a whole.

19.6 **Mobile-Sierra**. Notwithstanding any other provision of this Agreement, neither Party shall seek, nor shall they support any third party seeking, to prospectively or retroactively revise the rates, terms or conditions of service of this Agreement through application or complaint to FERC pursuant to the provisions of Section 205, 206 or 306 of the Federal Power Act, or any other provisions of the Federal Power Act, absent prior written agreement of the Parties. Further, absent the prior written agreement in writing by both Parties, the standard of review for changes to the rates, terms or conditions of service of this Agreement proposed by a Party shall be the “public interest” standard of review set forth in *United Gas Pipe Line Co. v. Mobile Gas Service Corp.*, 350 U.S. 332 (1956) and *Federal Power Commission v. Sierra Pacific Power Co.*, 350 U.S. 348 (1956). Changes proposed by a non-Party or FERC acting *sua sponte* shall be subject to the most stringent standard permissible under Law.

19.7 **Counterparts.** This Agreement may be executed in one or more counterparts, all of which taken together shall constitute one and the same instrument and each of which shall be deemed an original.

19.8 **Electronic Delivery.** This Agreement may be duly executed and delivered by a Party by electronic format (including portable document format (.pdf)) delivery of the signature page of a counterpart to the other Party.

19.9 **Binding Effect.** This Agreement shall inure to the benefit of and be binding upon the Parties and their respective successors and permitted assigns.

19.10 **No Recourse to Members of Buyer.** Buyer is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) pursuant to its Joint Powers Agreement and is a public entity separate from its constituent members. Except as set forth in Section 11.9 and any Buyer Liability Pass Through Agreements issued by one or more Project Participants pursuant to Section 8.11, Buyer shall solely be responsible for all debts, obligations and liabilities accruing and arising out of this Agreement, and Seller shall have no rights and shall not make any claims, take any actions or assert any remedies against any of Buyer's constituent members, or the employees, directors, officers, consultants or advisors or Buyer or its constituent members, in connection with this Agreement.

19.11 **Forward Contract.** The Parties acknowledge and agree that this Agreement constitutes a "forward contract" within the meaning of the U.S. Bankruptcy Code, and Buyer and Seller are "forward contract merchants" within the meaning of the U.S. Bankruptcy Code. Each Party further agrees that, for all purposes of this Agreement, each Party waives and agrees not to assert the applicability of the provisions of 11 U.S.C. § 366 in any bankruptcy proceeding wherein such Party is a debtor. In any such proceeding, each Party further waives the right to assert that the other Party is a provider of last resort to the extent such term relates to 11 U.S.C. §366 or another provision of 11 U.S.C. § 101-1532.

19.12 **Further Assurances.** Each of the Parties hereto agree to provide such information, execute and deliver any instruments and documents and to take such other actions as may be necessary or reasonably requested by the other Party which are not inconsistent with the provisions of this Agreement and which do not involve the assumption of obligations other than those provided for in this Agreement, to give full effect to this Agreement and to carry out the intent of this Agreement.

## EXHIBIT B

### MAJOR PROJECT DEVELOPMENT MILESTONES AND COMMERCIAL OPERATION

#### 1. Construction Start.

- a. **“Construction Start”** will occur upon Seller’s acquisition of all applicable regulatory authorizations, approvals and permits for the construction of the Facility, and once Seller has engaged all contractors, and ordered all essential equipment and supplies as, in each case, can reasonably be considered necessary so that physical construction of the Facility may begin and proceed to completion without foreseeable interruption of material duration, and has executed an engineering, procurement, and construction contract and issued thereunder a final notice to proceed that authorizes the contractor to mobilize to Site and begin physical construction (including, at a minimum, excavation for foundations or the installation or erection of improvements) at the Site. The date of Construction Start will be evidenced by and subject to Seller’s delivery to Buyer of a certificate substantially in the form attached as Exhibit J hereto, and the date certified therein shall be the **“Construction Start Date.”** Seller shall cause Construction Start to occur no later than the Guaranteed Construction Start Date.
- b. In addition to extensions pursuant to a Development Cure Period, Seller may extend the Guaranteed Construction Start Date for all purposes hereunder, including Section 11.1(b)(iv), by paying Daily Delay Damages in advance to Buyer for each day Seller desires to extend the Guaranteed Construction Start Date, not to exceed a total of ninety (90) days of extensions by such payment of Daily Delay Damages. On or before the date that is ten (10) days prior to the then-current (including any previous extensions) Guaranteed Construction Start Date, Seller may provide notice and payment to Buyer of the Daily Delay Damages for the number of days of extension to the Guaranteed Construction Start Date. For the avoidance of doubt, Seller is not obligated to extend the Guaranteed Construction Start Date by payment of Daily Delay Damages and Buyer will have no right to draw on the Development Security if Seller elects not to pay Daily Delay Damages. If Seller achieves Construction Start prior to the Guaranteed Construction Start Date, as extended by the payment of Daily Delay Damages, Buyer shall refund to Seller the Daily Delay Damages for each day Seller achieves Construction Start prior to the Guaranteed Construction Start Date times the Daily Delay Damages, not to exceed the total amount of Daily Delay Damages paid by Seller pursuant to this Section 1(b).

2. **Commercial Operation of the Facility.** **“Commercial Operation”** means the condition existing when (i) Seller has fulfilled all of the conditions precedent in Section 2.2 of the Agreement and provided Notice to Buyer substantially in the form of Exhibit H (the **“COD Certificate”**), (ii) Seller has notified Buyer in writing that it has provided the required documentation to Buyer and met the conditions for achieving Commercial Operation, and (iii) Buyer has acknowledged to Seller in writing that Buyer agrees that Commercial Operation has been achieved. Seller shall notify Buyer in writing when Seller believes that it has provided

the required documentation to Buyer and met the conditions for achieving COD. Buyer shall have five (5) Business Days to approve or reject in writing Seller's request for COD. The "**Commercial Operation Date**" shall be the later of (x) one hundred twenty (120) days before the Expected Commercial Operation Date, or (y) the date on which Commercial Operation is achieved.

- a. Seller shall cause Commercial Operation for the Facility to occur by the Guaranteed Commercial Operation Date. Seller shall notify Buyer at least sixty (60) days before the anticipated Commercial Operation Date. If Seller achieves Commercial Operation on or before the Guaranteed Commercial Operation Date (not including any extensions to such date resulting from Seller's payment of Commercial Operation Delay Damages, but as may be extended pursuant to a Development Cure Period), then Buyer shall refund to Seller all Daily Delay Damages paid by Seller and not previously refunded by Buyer.
  - b. In addition to extensions pursuant to a Development Cure Period, Seller may extend the Guaranteed Commercial Operation Date for all purposes hereunder, including Section 11.1(b)(ii), by paying Commercial Operation Delay Damages to Buyer in advance for each day Seller desires to extend the Guaranteed Commercial Operation Date, not to exceed a total of sixty (60) days of extensions by such payment of Commercial Operation Delay Damages. On or before the date that is ten (10) days prior to the then-current (including any previous extensions) Guaranteed Commercial Operation Date, Seller may provide Notice and payment to Buyer of the Commercial Operation Delay Damages for the number of days of extension to the Guaranteed Commercial Operation Date. For the avoidance of doubt, Seller is not obligated to extend the Guaranteed Commercial Operation Date by payment of Commercial Operation Delay Damages and Buyer will have no right to draw on the Development Security if Seller elects not to pay Commercial Operation Delay Damages. If Seller achieves Commercial Operation prior to the Guaranteed Commercial Operation Date, as extended by the payment of Commercial Operation Delay Damages, Buyer shall refund to Seller the Commercial Operation Delay Damages for each day Seller achieves Commercial Operation prior to the Guaranteed Commercial Operation Date times the Commercial Operation Delay Damages, not to exceed the total amount of Commercial Operation Delay Damages paid by Seller pursuant to this Section 2(b).
3. **Termination for Failure to Achieve Construction Start and/or Commercial Operation.** If the Facility has not achieved Construction Start on or before the Guaranteed Construction Start Date (as may be extended hereunder), Buyer may elect to terminate this Agreement in accordance with Sections 11.1(b)(iv) and 11.2. If the Facility has not achieved Commercial Operation on or before the Guaranteed Commercial Operation Date (as may be extended hereunder), Buyer may elect to terminate this Agreement in accordance with Sections 11.1(b)(ii) and 11.2.
  4. **Extension of the Guaranteed Dates.** The Guaranteed Construction Start Date and the Guaranteed Commercial Operation Date shall, subject to notice and documentation requirements set forth below, both be automatically extended on a day-for-day basis (the

**“Development Cure Period”**) for the duration of any and all delays arising out of the following circumstances to the extent the following circumstances are not the result of Seller’s failure to take all commercially reasonable actions to meet its requirements and deadlines:

- a. a Force Majeure Event occurs; or
- b. the Interconnection Facilities or Network Upgrades or any other upgrades or interconnection facilities required under the Interconnection Agreement with NV Energy are not complete and ready for the Facility to connect and sell Product at the Delivery Point by the Guaranteed Commercial Operation Date despite the exercise of diligent and commercially reasonable efforts by Seller; or
- c. Seller has not acquired all material permits, consents, licenses, approvals, or authorizations from any Governmental Authority required for Seller to own, construct, interconnect, operate or maintain the Facility, and to permit Seller and Facility to make available and sell Product by the Guaranteed Commercial Operation Date, despite the exercise of best efforts by Seller; or
- d. Buyer has not made all necessary arrangements to receive the Delivered Energy at the Delivery Point by the Guaranteed Commercial Operation Date.

Notwithstanding anything in this Agreement to the contrary, the cumulative extensions granted under the Development Cure Period (other than the extensions granted pursuant to clause 4(d) above) shall not exceed one hundred twenty (120) days, for any reason, including a Force Majeure Event, and the cumulative extensions granted to the Guaranteed Commercial Operation Date by the payment of Commercial Operation Delay Damages and any Development Cure Period(s) (other than the extensions granted pursuant to clause 4(d) above) shall not exceed one hundred eighty (180) days. Upon request from Buyer, Seller shall provide documentation reasonably demonstrating that the delays described above did not result from Seller’s actions or failure to take commercially reasonable actions.

5. **Failure to Reach Guaranteed Capacity**. If, at Commercial Operation, the Installed Capacity is less than one hundred percent (100%) of the Guaranteed Capacity, Seller shall have ninety (90) days after the Commercial Operation Date to install additional capacity and/or Network Upgrades such that the Installed Capacity is equal to no less than the Guaranteed Capacity, and Seller shall provide to Buyer a new certificate substantially in the form attached as **Exhibit I** hereto specifying the new Installed Capacity. If Seller fails to construct the Guaranteed Capacity by such date, Seller shall pay “**Capacity Damages**” to Buyer, in an amount equal to [REDACTED] for each MW that the Guaranteed Capacity exceeds the Installed Capacity, and the Expected Energy shall be reduced to an amount equal to the product of (a) the amount of Expected Energy in effect prior to such adjustment, multiplied by (b) the ratio of the Installed Capacity as of such date to the Guaranteed Capacity.
6. **[Reserved]**.

**EXHIBIT C**  
**COMPENSATION**

Buyer shall compensate Seller for the Product in accordance with this Exhibit C.

(a) [Reserved].

(b) Delivered Energy. For each MWh of Delivered Energy in each Settlement Period, Buyer shall pay Seller the difference of: (i) the Contract Price; minus (ii) the Day-Ahead Market LMP applicable to the Settlement Point for such Settlement Period; *provided, however*, that (A) if the Day-Ahead Market LMP applicable to the Settlement Point for such Settlement Period is less than the Negative LMP Strike Price, then such Day-Ahead Market LMP value will be deemed to be the Negative LMP Strike Price for purposes of this Exhibit C, and (B) if the result of the difference of (i) minus (ii) above results in a negative value, then Seller shall pay Buyer the absolute value of such result (which payment may be applied as a credit to Buyer on Seller's monthly invoice). Seller, through its Scheduling Coordinator, shall receive (and, except as otherwise provided in subpart (B) above, is entitled to retain) payment for Delivery Energy from CAISO for such delivery based on the applicable Energy price, as published by CAISO. For the avoidance of doubt, Buyer is purchasing a bundled product and Seller's receipt of payment directly via CAISO settlements is for the Parties' mutual convenience.

(c) Deemed Delivered Energy. For each Settlement Period, Buyer shall pay Seller the Contract Price for each MWh of Deemed Delivered Energy above the Curtailment Cap. There shall be no payment for (i) Deemed Delivered Energy amounts below the Curtailment Cap, or (ii) Deemed Delivered Energy amounts accrued during a Market Curtailment Period for energy that the Facility was forecasted to generate in the Day-Ahead Forecast provided under Section 4.3(c) if the Day-Ahead Market LMP corresponding to such Day-Ahead Forecast was greater than the Negative LMP Strike Price.

(d) Excess Contract Year Deliveries. If, at any point in any Contract Year, the amount of Delivered Energy plus the amount of Deemed Delivered Energy for such Contract Year exceeds [REDACTED] of the Expected Energy for such Contract Year, the Contract Price applicable to such Delivered Energy and Deemed Delivered Energy, notwithstanding anything to the contrary in this Agreement, shall be [REDACTED] of the Contract Price. If, at any point in any Contract Year, the amount of Delivered Energy plus the amount of Deemed Delivered Energy for such Contract Year exceeds [REDACTED] of the Expected Energy for such Contract Year, the Contract Price applicable to such Delivered Energy and Deemed Delivered Energy, notwithstanding anything to the contrary in this Agreement, shall be zero dollars per MWh (\$0/MWh).

(e) Negative LMP Strike Price. Buyer may change the Negative LMP Strike Price by providing written notice to Seller at least five (5) Business Days prior to the effective date of such change, which notice must identify the new Negative LMP Strike Price and the effective date for the new Negative LMP Strike Price; *provided, however*, that the Negative LMP Strike Price identified by Buyer must be less than or equal to zero dollars per MWh (\$0/MWh).

(f) Curtailement Payments. Seller shall receive no compensation from Buyer for (i) Delivered Energy or Deemed Delivered Energy during any Curtailement Period and (ii) Deemed Delivered Energy in amounts below the Curtailement Cap. Buyer shall pay for Deemed Delivered Energy above the Curtailement Cap as provided above.

(g) Test Energy. Test Energy is compensated at the Test Energy Rate in accordance with Section 3.6.

(h) Tax Credits. The Parties agree that the neither the Contract Price nor the Test Energy Rate are subject to adjustment or amendment if Seller fails to receive any Tax Credits; if any Tax Credits expire, are repealed or otherwise cease to apply to Seller or the Facility in whole or in part; or Seller or its investors are unable to benefit from any Tax Credits. Seller shall bear all risks, financial and otherwise, throughout the Contract Term, associated with Seller's or the Facility's eligibility to receive Tax Credits or to qualify for accelerated depreciation for Seller's accounting, reporting or Tax purposes. The obligations of the Parties hereunder, including those obligations set forth herein regarding the purchase and price for and Seller's obligation to deliver Delivered Energy and Product, shall be effective regardless of whether the sale of Delivered Energy is eligible for, or receives Tax Credits during the Contract Term.

### SCHEDULING COORDINATOR RESPONSIBILITIES

(a) Seller as Scheduling Coordinator for the Facility. Seller shall be the Scheduling Coordinator or designate a qualified third party to provide Scheduling Coordinator services with the CAISO for the Facility for both the delivery and the receipt of Test Energy and the Product at the Delivery Point, and bid the Delivered Energy into the Day-Ahead Market and the Real-Time Market consistent with Prudent Operating Practice. Each Party shall perform all scheduling and transmission activities in compliance with (i) the CAISO Tariff, (ii) WECC scheduling practices, and (iii) Prudent Operating Practice. The Parties agree to communicate and cooperate as necessary in order to address any scheduling or settlement issues as they may arise, and to work together in good faith to resolve them in a manner consistent with the terms of the Agreement. Seller (as the Facility's SC) shall ensure that all Delivered Energy is electronically tagged (E-tagged) in accordance with Generally Accepted Utility Practice.

(b) CAISO Costs and Revenues. As Scheduling Coordinator for the Facility, Seller shall be responsible for all CAISO costs, including without limitation, all penalties, Imbalance Energy charges, and other charges, and shall be entitled to all CAISO revenues, including without limitation, credits, Imbalance Energy payments, and revenues associated with CAISO dispatches, bid cost recovery, Inter-SC Trade credits, or other credits in respect of the Product scheduled or delivered from the Facility. Seller shall be responsible for all CAISO penalties resulting from any failure by Seller to abide by the CAISO Tariff or the outage notification requirements set forth in this Agreement. The Parties agree that any Availability Incentive Payments (as defined in the CAISO Tariff) are for the benefit of Seller and for Seller's account and that any Non-Availability Charges (as defined in the CAISO Tariff) are the responsibility of Seller and for Seller's account. In addition, if during the Delivery Term, the CAISO implements or has implemented any sanction or penalty related to scheduling, outage reporting, or generator operation, the cost of such sanctions or penalties arising from the scheduling, outage reporting, or generator operation of the Facility shall be Seller's responsibility.

(c) CAISO Settlements. Seller (as the Facility's SC) shall be responsible for all settlement functions with the CAISO related to the Facility.

### GUARANTEED ENERGY PRODUCTION DAMAGES CALCULATION

In accordance with Section 4.7, if Seller fails to achieve the Guaranteed Energy Production during any Performance Measurement Period, a liquidated damages payment shall be due from Seller to Buyer, calculated as follows:

$$[(A - B) * (C - D)]$$

where:

A = the Guaranteed Energy Production amount for the Performance Measurement Period, in MWh

B = the Adjusted Energy Production amount for the Performance Measurement Period, in MWh

C = Replacement price for the Performance Measurement Period, in \$/MWh, which is the sum of (a) the simple average of the Integrated Forward Market hourly price for all the hours in the Performance Measurement Period, as published by the CAISO, for the Existing Zone Generation Trading Hub (as defined in the CAISO Tariff) for the Delivery Point, plus (b) the lesser of (x) \$50.00/MWh and (y) the market value of Replacement Green Attributes based on the average of at least two broker quotes obtained by Buyer from nationally recognized brokers for the purchase of Replacement Green Attributes, or if such quotes are not reasonably available to Buyer, as reasonably determined by Buyer.

D = the Contract Price, in \$/MWh

No payment shall be due if the calculation of (A - B) or (C - D) yields a negative number. In no event will Buyer owe any payment to Seller pursuant to this Exhibit G.

Within sixty (60) days after a Contract Year which ends each Performance Measurement Period, Buyer shall send Seller Notice of the amount of damages owing, if any, which shall be payable to Buyer before the later of (a) thirty (30) days of such Notice and (b) ninety (90) days after each Performance Measurement Period.

As used herein:

“Adjusted Energy Production” shall mean the sum of the following: Delivered Energy + Deemed Delivered Energy + Lost Output.

### FORM OF BUYER LIABILITY PASS THROUGH AGREEMENT

This Buyer Liability Pass Through Agreement (this “**BLPTA**”) is entered into as of [\_\_\_\_], 20\_\_ (the “**BLPTA Effective Date**”) by and between [\_\_\_\_], a [\_\_\_\_] (together with its successors and permitted assigns “**Project Participant**”), California Community Power, a California joint powers authority (“**CC Power**”), and [\_\_\_\_], a [\_\_\_\_] (together with its successors and permitted assigns “**Seller**”). Seller, CC Power, and Project Participant are sometimes referred to herein individually as a “**Party**” and jointly as the “**Parties**.”

### RECITALS

**WHEREAS**, CC Power and Seller have entered into that certain Renewable Power Purchase Agreement (as amended, restated or otherwise modified from time to time, the “**PPA**”) dated as of [\_\_\_\_], 20\_\_;

**WHEREAS**, Project Participant is entering into this BLPTA to secure, in part, California Community Power’s obligations under the PPA;

**WHEREAS**, Project Participant is named as a Project Participant under the PPA and will derive substantial direct and indirect benefits from the execution and delivery of the PPA;

**WHEREAS**, Seller and CC Power will derive substantial and direct benefits from the execution and delivery of this BLPTA; and

**WHEREAS**, initially capitalized terms used but not defined herein have the meaning set forth in the PPA.

**NOW THEREFORE**, in consideration of the mutual covenants and agreements herein contained, and for other good and valuable consideration, the sufficiency and adequacy of which are hereby acknowledged, the Parties agree to the following:

### AGREEMENT

**1. Project Participant Covenants.** For value received, Project Participant does hereby unconditionally, absolutely, and irrevocably guarantee, as obligor and not as a surety, to Seller the complete and prompt payment of [X%] (the “**Liability Share**”), as the same may be adjusted pursuant to Section 4, [Note: Insert percentage from Exhibit S] of all obligations and liabilities for payment now or hereafter owing from CC Power to Seller under the PPA, including liabilities for Monthly Product Payments, any Termination Payment, and any other damage payments or reimbursement amounts (each such obligation or liability of CC Power under the PPA, a “**Guaranteed Amount**”). Any payment made directly from CC Power to Seller under the PPA shall reduce Project Participant’s liability hereunder by reducing the total amount that is used to calculate the Guaranteed Amount pursuant to the preceding sentence. This BLPTA is an irrevocable, absolute, unconditional, and continuing guarantee of the punctual payment and performance, and not of collection, of Project Participant’s Liability Share of the Guaranteed Amount. In the event CC Power shall fail to duly, completely, or punctually pay any amount owed

by Buyer pursuant to the terms and conditions of the PPA, and such failure is not remedied within ten (10) Business Days after Notice thereof pursuant to Sections 11.1 or 11.4, as applicable, Project Participant shall promptly pay Project Participant's Liability Share of the Guaranteed Amount, as required herein.

2. **Seller Waiver.** In consideration of the foregoing, Seller unconditionally waives all right to recover directly from CC Power any Termination Payment that is not paid by CC Power pursuant to Sections 11.3 and 11.4 of the PPA, but the foregoing waiver does not apply to any other right or remedy of Seller under the PPA, including the right to recover accrued Monthly Product Payments, other amounts payable or reimbursable under the PPA or any other amounts incurred or accrued prior to termination of the PPA and the right to terminate the PPA as the result of an Event of Default by Buyer.

3. **Demand Notice.** For avoidance of doubt, Seller may demand payment from Project Participant for purposes of this BLPTA only when and if a payment is not duly, completely, or punctually paid by CC Power pursuant to the terms and conditions of the PPA and such failure is not remedied by CC Power within ten (10) Business Days after Notice thereof is issued pursuant to Sections 11.1 or 11.4, as applicable. If CC Power fails to pay any amount when due pursuant to the PPA, and such failure is not remedied by CC Power within ten (10) Business Days after Notice thereof, then Seller may exercise its rights under this BLPTA and make a payment demand upon Project Participant to pay Project Participant's Liability Share of the unpaid Guaranteed Amount (a "**Payment Demand**"). A Payment Demand shall be in writing and shall reasonably specify (a) what amount CC Power has failed to pay, (b) an explanation of why such payment is due and owing, (c) a calculation of the Guaranteed Amount due from Project Participant, and (d) a specific statement that Seller is requesting that Project Participant pay its Guaranteed Liability Share of the unpaid Guaranteed Amount under this BLPTA. Project Participant shall, within fifteen (15) Business Days following its receipt of the Payment Demand, pay to Seller Project Participant's Liability Share of the unpaid Guaranteed Amount.

4. **Step-Up Events.** Within sixty (60) days after the occurrence of a Step-Up Event, Project Participant and CC Power will tender to Seller a duly executed and binding replacement Buyer Liability Pass Through Agreement in the same form as this Agreement, but for a Liability Share equal to the Project Participant's Revised Liability Share. Upon receipt of such executed replacement Buyer Liability Pass Through Agreement, Seller will cancel this Buyer Liability Pass Through Agreement, effective upon the effectiveness of the replacement Buyer Liability Pass Through Agreement. For the avoidance of doubt, the cancellation of an existing Buyer Liability Pass Through Agreement shall not be effective unless and until the replacement Buyer Liability Pass Through Agreement has become effective and binding. Following delivery of such replacement Buyer Liability Pass Through Agreement and cancellation of this Buyer Liability Pass Through Agreement, Exhibit S to the PPA will be deemed amended to reflect the Project Participant's Revised Liability Share; *provided* that the Project Participant's Revised Liability Share shall not exceed one hundred twenty-five percent (125%) of the Project Participant's Initial Liability Share.

5. **Scope and Duration of BLPTA.** The obligations under this BLPTA are independent of the obligations of CC Power under the PPA, and an action may be brought to enforce this BLPTA whether or not action is brought against CC Power under the PPA. This

BLPTA shall continue in full force and effect from the BLPTA Effective Date until both of the following have occurred: (a) the Delivery Term of the PPA has expired or terminated early, and (b) either (i) all payment and indemnity obligations of CC Power due and payable under the PPA are paid in full (whether directly or indirectly such as through set-off or netting) or have otherwise expired or (ii) Project Participant has paid the maximum Guaranteed Amount (i.e. based on its maximum Revised Liability Share as provided in Section 4) in full. This BLPTA shall also continue to be effective or be reinstated, as the case may be, if at any time any payment of any Guaranteed Amount by CC Power is rescinded or must otherwise be returned by Seller upon the insolvency, bankruptcy or reorganization of CC Power or similar proceeding, all as though such payment had not been made, and Project Participant's Liability Share of such Guaranteed Amount shall be subject to payment following a Payment Demand issued pursuant to this BLPTA. Without limiting the generality of the foregoing, and to the extent that the Project Participant has not paid its maximum Guaranteed Amount in full, the obligations of the Project Participant hereunder shall not be released, discharged, or otherwise affected, and this BLPTA shall not be invalidated or impaired or otherwise affected for the following reasons:

- a) The extension of time for the payment of, or any waiver of, any Guaranteed Amount; or
- b) Any amendment, modification or other alteration of the PPA; or
- c) Any insurance that may be available to cover any loss, except to the extent insurance proceeds are used to satisfy the Guaranteed Amount; or
- d) Any voluntary or involuntary liquidation, dissolution, receivership, insolvency, bankruptcy, assignment for the benefit of creditors, reorganization, arrangement, composition or readjustment of, or other similar proceeding affecting CC Power, or any Project Participant, including but not limited to any rejection or other discharge of CC Power's obligations under the PPA, or such Project Participant's obligations hereunder, imposed by any court, trustee or custodian or any similar official or imposed by any law, statute or regulation, in each such event in any such proceeding; or
- e) Any reorganization of CC Power or Project Participant, or any merger or consolidation of CC Power or Project Participant into or with any other Person, or the sale of all or substantially all of the assets of CC Power or Project Participants; or
- f) The receipt, release, modification or waiver of, or failure to pursue or seek relief under or with respect to, the PPA, any other BLPTA, guaranty, collateral, pledge or security device whatsoever; or
- g) CC Power's, or any Project Participant's inability to pay any Guaranteed Amount or perform its obligations under the PPA or hereunder as the case may be; or
- h) Any other event or circumstance that may now or hereafter constitute a defense to payment of the Guaranteed Amount, by either CC Power or any Project Participant, including, without limitation, statute of frauds and accord and satisfaction; *provided* that Project Participant reserves the right to assert for itself any defenses, setoffs or counterclaims that CC

Power is or may be entitled to assert against Seller under the terms of the PPA (but not otherwise), including with respect to disputes regarding the calculation of a Guaranteed Amount.

**6. Waivers by Project Participant.** Project Participant hereby unconditionally waives as a condition precedent to the performance of its obligations hereunder, with the exception of the requirements in Paragraphs 2 and 3, (a) notice of acceptance, presentment, demand, or protest, notice of any of the events described in Paragraph 5, or any other notice or demand of any kind with respect to the Guaranteed Amounts and this BLPTA, (b) any requirement that Seller pursue or exhaust any right, power or remedy or proceed against California Community Power under the PPA or otherwise or against any other Person, including any obligation to pursue any other BLPTAs, or to marshal assets, (c) any defense based on any of the matters described in Paragraph 4, (d) all rights of subrogation or other rights to pursue CC Power for payments made under this BLPTA until all amounts owing under the PPA have been paid in full, and (e) any duty of Seller to disclose any information or other matters relating to the business, operations or finances or other condition of CC Power, any Project Participant, or any other Person who has provided a BLPTA or other security or guaranty with respect to the PPA now or hereafter known to Seller. Project Participant further acknowledges and agrees that it is and will be bound by actions taken and elections made by CC Power under the PPA and waives any defense based on lack of notice or consent, or CC Power's authority or lack thereof or the validity, regularity or advisability of the actions taken or elections made.

**7. Project Participant Representations and Warranties and Covenants.** Project Participant hereby represents and warrants that (a) it has all necessary and appropriate powers and authority and the legal right to execute and deliver, and perform its obligations under, this BLPTA, (b) this BLPTA constitutes its legal, valid and binding obligations enforceable against it in accordance with its terms, except as enforceability may be limited by bankruptcy, insolvency, moratorium and other similar laws affecting enforcement of creditors' rights or general principles of equity, (c) the execution, delivery and performance of this BLPTA does not and will not contravene Project Participant's organizational documents, any applicable Law or any contractual provisions binding on or affecting Project Participant, (d) there are no actions, suits or proceedings pending before any court, governmental agency or arbitrator, or, to the knowledge of the Project Participant, threatened, against or affecting Project Participant or any of its properties or revenues which may, in any one case or in the aggregate, adversely affect the ability of Project Participant to enter into or perform its obligations under this BLPTA, and (e) no consent or authorization of, filing with, or other act by or in respect of, any arbitrator or Governmental Authority, and no consent of any other Person (including, any member of the Project Participant), that has not heretofore been obtained is required in connection with the execution, delivery, performance, validity or enforceability of this BLPTA by Project Participant. Project Participant warrants and covenants that with respect to its contractual obligations under this BLPTA, it will not claim and affirmatively waives immunity on the grounds of sovereignty or similar grounds with respect to itself or its revenues or assets from (1) suit, (2) jurisdiction of court (provided that such court is located within a venue permitted in Law and under the Agreement), (3) relief by way of injunction, order for specific performance or recovery of property, (4) attachment of assets, or (5) execution or enforcement of any judgment; provided, however that nothing in this Agreement shall waive the obligations or rights set forth in the California Tort Claims Act (Government Code Section 810 et seq.); *provided*, this waiver shall not apply to the City of San José acting in its capacity as a Governmental Authority and not solely as the administrator of San José Clean Energy.

**8. Seller Representations and Warranties.** Seller hereby represents and warrants that (a) it has all necessary and appropriate powers and authority and the legal right to execute and deliver, and perform its obligations under, this BLPTA, (b) this BLPTA constitutes its legal, valid and binding obligations enforceable against it in accordance with its terms, except as enforceability may be limited by bankruptcy, insolvency, moratorium and other similar laws affecting enforcement of creditors' rights or general principles of equity, (c) the execution, delivery and performance of this BLPTA does not and will not contravene Seller's organizational documents, any applicable Law or any contractual provisions binding on or affecting Seller, (d) there are no actions, suits or proceedings pending before any court, governmental agency or arbitrator, or, to the knowledge of Seller, threatened, against or affecting Seller or any of its properties or revenues which may, in any one case or in the aggregate, adversely affect the ability of Seller to enter into or perform its obligations under this BLPTA, and (e) no consent or authorization of, filing with, or other act by or in respect of, any arbitrator or Governmental Authority, and no consent of any other Person (including, any stockholder or creditor of Seller), that has not heretofore been obtained is required in connection with the execution, delivery, performance, validity or enforceability of this BLPTA by Seller.

**9. California Community Power Representations and Warranties.** California Community Power hereby represents and warrants that (a) it has all necessary and appropriate powers and authority and the legal right to execute and deliver, and perform its obligations under, this BLPTA, (b) this BLPTA constitutes its legal, valid and binding obligations enforceable against it in accordance with its terms, except as enforceability may be limited by bankruptcy, insolvency, moratorium and other similar laws affecting enforcement of creditors' rights or general principles of equity, (c) the execution, delivery and performance of this BLPTA does not and will not contravene California Community Power's organizational documents, any applicable Law or any contractual provisions binding on or affecting California Community Power, (d) there are no actions, suits or proceedings pending before any court, governmental agency or arbitrator, or, to the knowledge of the California Community Power, threatened, against or affecting California Community Power or any of its properties or revenues which may, in any one case or in the aggregate, adversely affect the ability of California Community Power to enter into or perform its obligations under this BLPTA, and (e) no consent or authorization of, filing with, or other act by or in respect of, any arbitrator or Governmental Authority, and no consent of any other Person (including, any member of California Community Power), that has not heretofore been obtained is required in connection with the execution, delivery, performance, validity or enforceability of this BLPTA by California Community Power.

**11. Governing Law and Forum Selection.** This BLPTA shall be governed by, and interpreted and construed in accordance with, the laws of the United States and the State of California, excluding choice of law rules. The Parties agree that any suit, action or other legal proceeding by or against any Party (or its affiliates or designees) with respect to or arising out of this BLPTA shall be brought in the federal courts of the United States or the courts of the State of California sitting in the County of \_\_\_\_\_.

**12. Miscellaneous.** This BLPTA shall be binding upon the Parties and their respective successors and assigns and shall inure to the benefit of the Parties and their successors and permitted assigns. No provision of this BLPTA may be amended or waived except by a written instrument executed by Seller, CC Power, and Project Participant. No provision of this BLPTA confers, nor is any provision intended to confer, upon any third party (other than the Parties' successors and permitted assigns) any benefit or right enforceable at the option of that third party. This BLPTA embodies the entire agreement and understanding of the Parties hereto with respect to the subject matter hereof and supersedes all prior or contemporaneous agreements and understandings of the Parties hereto, verbal or written, relating to the subject matter hereof. If any provision of this BLPTA is determined to be illegal or unenforceable (i) such provision shall be deemed restated in accordance with applicable Laws to reflect, as nearly as possible, the original intention of the Parties hereto, and (ii) such determination shall not affect any other provision of this BLPTA and all other provisions shall remain in full force and effect. This BLPTA may be executed in any number of separate counterparts, each of which when so executed shall be deemed an original, and all of said counterparts taken together shall be deemed to constitute one and the same instrument. This BLPTA may be executed and delivered by electronic means with the same force and effect as if the same was a fully executed and delivered original manual counterpart.

**13. Assignment.** Except as provided below in this Paragraph 13, no Party may assign this BLPTA or its rights or obligations under this BLPTA, without the prior written consent of the other Parties, which consent shall not be unreasonably withheld, conditioned or delayed. Seller may, without the prior written consent of Project Participant and CC Power, transfer or assign this BLPTA to any Person to whom Seller may assign its rights or obligations under the PPA, including assignments for financing purposes, including a Portfolio Financing; *provided*, Seller use reasonable efforts to give Project Participant and CC Power Notice at least fifteen (15) Business Days before the date of such proposed assignment and, except in the case of a collateral assignment or other assignment for financing purposes, provide Project Participant and CC Power a written agreement signed by the Person to which Seller wishes to assign its interests that provides that

such Person will fully assume all of Seller's obligations and liabilities under this BLPTA, including obligations and liabilities that arose prior to the date of transfer or assignment, upon such transfer or assignment. Project Participant may not, without the prior written consent of Seller and CC Power, transfer or assign this BLPTA to any member of CC Power or any other load serving entity; provided that such consent shall not be unreasonably withheld, conditioned or delayed; provided further that it shall not be considered unreasonable for Seller to withhold consent if a proposed transfer or assignment would result in a reduction in the overall credit profile of the Project Participants.

**14. No Recourse to Members of Project Participant.** Project Participant is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) pursuant to its joint powers agreement and is a public entity separate from its constituent members. Project Participant shall solely be responsible for all debts, obligations and liabilities accruing and arising out of this BLPTA. Seller and CC Power shall have no rights and shall not make any claims, take any actions or assert any remedies against any of Project Participant's constituent members, or the officers, directors, advisors, contractors, consultants or employees of Project Participant or its constituent members, in connection with this BLPTA.

**15. No Recourse to Members of CC Power.** CC Power is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) pursuant to its Joint Powers Agreement and is a public entity separate from its constituent members. Except as expressly set forth in the PPA and this BLPTA, CC Power shall solely be responsible for all debts, obligations and liabilities accruing and arising out of this BLPTA, and as such, Seller and Project Participant shall have no rights and shall not make any claims, take any actions or assert any remedies against any of CC Power's constituent members, or the officers, directors, advisors, contractors, consultants or employees of Project Participant or its constituent members, in connection with this BLPTA.

**16. CleanPowerSF as Project Participant.** Paragraph 14 shall not apply with respect to CleanPowerSF as a Project Participant, if CleanPowerSF is a Project Participant, but the following shall apply:

a) **Designated Fund.** CleanPowerSF payment obligations under this BLPTA are special limited obligations of CleanPowerSF payable solely from the revenues of CleanPowerSF. CleanPowerSF's payment obligations under this BLPTA are not a charge upon the revenues or general fund of the San Francisco Public Utility Commission ("**SFPUC**") or the City and County of San Francisco or upon any non- CleanPowerSF moneys or other property of the SFPUC or the City and County of San Francisco.

b) **Controller Certification.** CleanPowerSF's obligations hereunder shall not at any time exceed the amount certified by the Controller for the purpose and period stated in such certification. Except as may be provided by laws governing emergency procedures, officers and employees of CleanPowerSF are not authorized to request, and CleanPowerSF is not required to reimburse Seller for, commodities or services beyond the agreed upon contract scope unless the changed scope is authorized by amendment and approved as required by law. Officers and employees of CleanPowerSF are not authorized to offer or promise, nor is CleanPowerSF required

to honor, any offered or promised additional funding in excess of the maximum amount of funding for which the contract is certified without certification of the additional amount by the Controller. The Controller is not authorized to make payments on any contract for which funds have not been certified as available in the budget or by supplemental appropriation.

c) Biennial Budget Process. For each City and County of San Francisco biennial budget cycle during the term of this BLPTA, CleanPowerSF agrees to take all necessary action to include the maximum amount of its annual payment obligations under this BLPTA in its budget submitted to the City and County of San Francisco's Board of Supervisors for each year of that budget cycle.

d) Compliance with Laws. Each Party shall keep itself fully informed of all applicable federal, state, and local laws in any manner affecting the performance of its obligations under this BLPTA, and must at all times materially comply with such applicable laws as they may be amended from time to time.

e) Prohibition on Political Activity with City Funds. In performing any services required under this BLPTA, Seller shall comply with San Francisco Administrative Code Chapter 12G, which prohibits funds appropriated by the City for this BLPTA from being expended to participate in, support, or attempt to influence any political campaign for a candidate or for a ballot measure in San Francisco.

f) Non-discrimination in Contracts. Seller shall comply with the provisions of Chapters 12B and 12C of the San Francisco Administrative Code. Seller shall incorporate by reference in all subcontracts the provisions of Sections 12B.2(a), 12B.2(c)-(k), and 12C.3 of the San Francisco Administrative Code and shall require all subcontractors to comply with such provisions. Seller is subject to the enforcement and penalty provisions in Chapters 12B and 12C.

g) Non-discrimination in the Provision of Employee Benefits. San Francisco Administrative Code 12B.2. Seller does not as of the date of this BLPTA, and will not during the term of this BLPTA, in any of its operations in San Francisco, on real property owned by San Francisco, or where work is being performed for the City elsewhere in the United States, discriminate in the provision of employee benefits between employees with domestic partners and employees with spouses and/or between the domestic partners and spouses of such employees, subject to the conditions set forth in San Francisco Administrative Code Section 12B.2.

h) Submitting False Claims. Pursuant to San Francisco Administrative Code §21.35, any contractor or subcontractor who submits a false claim shall be liable to the City for the statutory penalties set forth in that section. A contractor or subcontractor will be deemed to have submitted a false claim to the City if the contractor or subcontractor: (1) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (2) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (3) conspires to defraud the City by getting a false claim allowed or paid by the City; (4) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (5) is a beneficiary of an inadvertent submission of a false claim to the

City, subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.

i) Consideration of Salary History. Seller shall comply with San Francisco Administrative Code Chapter 12K, the Consideration of Salary History Ordinance or “Pay Parity Act.” Seller is prohibited from considering current or past salary of an applicant in determining whether to hire the applicant or what salary to offer the applicant to the extent that such applicant is applying for employment to be performed on this BLPTA or in furtherance of this BLPTA, and whose application, in whole or part, will be solicited, received, processed or considered, whether or not through an interview, in the City or on City property.

j) Consideration of Criminal History in Hiring and Employment Decisions. Seller agrees to comply fully with and be bound by all of the provisions of Chapter 12T, “City Contractor/Subcontractor Consideration of Criminal History in Hiring and Employment Decisions,” of the San Francisco Administrative Code, including the remedies provided, and implementing regulations, as may be amended from time to time. The requirements of Chapter 12T shall only apply to Seller’s operations to the extent those operations are in furtherance of the performance of this BLPTA, shall apply only to applicants and employees who would be or are performing work in furtherance of this BLPTA, and shall apply when the physical location of the employment or prospective employment of an individual is wholly or substantially within the City. Chapter 12T shall not apply when the application in a particular context would conflict with federal or state law or with a requirement of a government agency implementing federal or state law.

k) Conflict of Interest. By executing this BLPTA, Seller certifies that it does not know of any fact which constitutes a violation of Section 15.103 of the City’s Charter; Article III, Chapter 2 of City’s Campaign and Governmental Conduct Code; Title 9, Chapter 7 of the California Government Code (Section 87100 et seq.), or Title 1, Division 4, Chapter 1, Article 4 of the California Government Code (Section 1090 et seq.), and further agrees promptly to notify the City if it becomes aware of any such fact during the term of this BLPTA.

l) Campaign Contributions. By executing this BLPTA, Seller acknowledges its obligations under Section 1.126 of the City’s Campaign and Governmental Conduct Code, which prohibits any person who contracts with, or is seeking a contract with, any department of the City for the rendition of personal services, for the furnishing of any material, supplies or equipment, for the sale or lease of any land or building, for a grant, loan or loan guarantee, or for a development agreement, from making any campaign contribution to (i) a City elected official if the contract must be approved by that official, a board on which that official serves, or the board of a state agency on which an appointee of that official serves, (ii) a candidate for that City elective office, or (iii) a committee controlled by such elected official or a candidate for that office, at any time from the submission of a proposal for the contract until the later of either the termination of negotiations for such contract or twelve months after the date the City approves the contract. The prohibition on contributions applies to each prospective party to the contract; each member of Seller’s board of directors; Seller’s chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than ten percent (10%) in Seller; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by Seller. Seller shall inform the relevant persons of the limitation on contributions imposed by Section 1.126.

m) MacBride Principles – Northern Ireland. Pursuant to San Francisco Administrative Code § 12F.5, the City and County of San Francisco urges companies doing business in Northern Ireland to move towards resolving employment inequities, and encourages such companies to abide by the MacBride Principles. The City and County of San Francisco urges San Francisco companies to do business with corporations that abide by the MacBride principles.

n) Tropical Hardwood and Virgin Redwood Ban. The City and County of San Francisco urges contractors not to import, purchase, obtain, or use for any purpose, any tropical hardwood, tropical hardwood product, virgin redwood or virgin redwood product. If this order is for wood products or a service involving wood products: (a) Chapter 8 of the Environment Code is incorporated herein and by reference made a part hereof as though fully set forth. (b) Except as expressly permitted by the application of Sections 802(B), 803(B), and 804(B) of the Environment Code, Seller shall not provide any items to the City in performance of this BLPTA which are tropical hardwoods, tropical hardwood products, virgin redwood or virgin redwood products. (c) Failure of Seller to comply with any of the requirements of Chapter 8 of the Environment Code shall be deemed a material breach of contract.

o) Effect on Payment Obligations. The Parties agree that, although breach of an obligation set forth in Sections 16(d) through 16(n) may result in Seller incurring liability for such breach, any such liability will be independent of Project Participant's liability hereunder, and no breach of or default by Seller under Sections 16(d) through 16(n) will relieve Project Participant of its liability for its Liability Share of all Guaranteed Amounts, nor may any such breach or default, or claim of breach or default, be permitted or asserted as a defense to or offset against payment of any amounts owed by Project Participant to Seller hereunder.

**17. City of San José (San José Clean Energy) as Project Participant**. Paragraph 14 shall not apply with respect to the City of San José as a Project Participant, if the City of San José, as administrator of San José Clean Energy ("**SJCE**") is a Project Participant, but the following shall apply:

a) Designated Fund. The City of San José is a municipal corporation and is precluded under the California State Constitution and applicable law from entering into obligations that financially bind future governing bodies without an appropriation for such obligation, and, therefore, nothing in the Agreement shall constitute an obligation of future legislative bodies of the City to appropriate funds for purposes of the Agreement; *provided, however*, that the City of San José has created and set aside a designated fund (being the San Jose Energy Operating Fund established pursuant to City of San Jose Municipal Code, Title 4, Part 63, Section 4.80.4050 *et. seq.*) ("**Designated Fund**") for payment of its obligations under this BLPTA. Subject to the requirements and limitations of applicable law and taking into account other available money specifically authorized by the San José City Council and allocated and appropriated to the SJCE's obligations, SJCE agrees to establish rates and charges that are sufficient to maintain revenues in the Designated Fund necessary to pay its obligations under this BLPTA.

b) Limited Obligations. SJCE's payment obligations under this BLPTA are special limited obligations of the SJCE payable solely from the Designated Fund and are not a charge upon the revenues or general fund of the City of San José or upon any non- San José Clean Energy moneys or other property of the Community Energy Department or the City of San José.

c) Nondiscrimination/Non-Preference. In performing its obligations under this BLPTA, Seller shall not, and shall not cause or allow its subcontractors to, discriminate against or grant preferential treatment to any person on the basis of race, sex, color, age, religion, sexual orientation, actual or perceived gender identity, disability, ethnicity or national origin. This prohibition applies to recruiting, hiring, demotion, layoff, termination, compensation, fringe benefits, advancement, training, apprenticeship and other terms, conditions, or privileges of employment, subcontracting and purchasing. Seller will inform all subcontractors of these obligations. This prohibition is subject to the following conditions: (i) the prohibition is not intended to preclude Seller from providing a reasonable accommodation to a person with a disability; (ii) the City's Compliance Officer may require Seller to file, and cause any Seller's subcontractor to file, reports demonstrating compliance with this section. Any such reports shall be filed in the form and at such times as the City's Compliance Officer designates. They shall contain such information, data and/or records as the City's Compliance Officer determines is needed to show compliance with this provision.

d) Conflict of Interest. Seller represents that it is familiar with the local and state conflict of interest laws and agrees to comply with those laws in performing this BLPTA. Seller certifies that, as of the Effective Date, it was unaware of any facts constituting a conflict of interest or creating an appearance of a conflict of interest. Seller shall avoid all conflicts of interest or appearances of conflicts of interest in performing this BLPTA. Seller has the obligation of determining if the manner in which it performs any part of this BLPTA results in a conflict of interest or an appearance of a conflict of interest and shall immediately notify SJCE in writing if it becomes aware of any facts giving rise to a conflict of interest or the appearance of a conflict of interest. Seller's violation of this subsection (ii) is a material breach.

e) Environmentally Preferable Procurement Policy. Seller shall perform its obligations under this BLPTA in conformance with San José City Council Policy 1-19, entitled "Prohibition of City Funding for Purchase of Single serving Bottled Water," and San José City Council Policy 4-6, entitled "Environmentally Preferable Procurement Policy," as those policies may be amended from time to time. The Parties acknowledge and agree that in no event shall a breach of this Section 13.1(g) be a material breach of this BLPTA or otherwise give rise to an Event of Default or entitle SJCE to terminate this BLPTA.

f) Gifts Prohibited. Seller represents that it is familiar with Chapter 12.08 of the San José Municipal Code, which generally prohibits a City of San José officer or designated employee from accepting any gift. Seller shall not offer any City of San José officer or designated employee any gift prohibited by Chapter 12.08. Seller's violation of this subsection (iv) is a material breach.

g) Disqualification of Former Employees. Seller represents that it is familiar with Chapter 12.10 of the San José Municipal Code, which generally prohibits a former City of San José officer and former designated employee from providing services to the City of San José connected with his/her former duties or official responsibilities. Seller shall not use either directly or indirectly any officer, employee or agent to perform any services if doing so would violate Chapter 12.10.

h) Effect on Payment Obligations. The Parties agree that, although breach of an obligation set forth in Sections 17(d) through 17(g) may result in Seller incurring liability for such breach, any such liability will be independent of Project Participant's liability hereunder, and no breach of or default by Seller under Sections 17(c) through 17(h) will relieve Project Participant of its liability for its Liability Share of all Guaranteed Amounts, nor may any such breach or default, or claim of breach or default, be permitted or asserted as a defense to or offset against payment of any amounts owed by Project Participant to Seller hereunder.

**IN WITNESS WHEREOF**, the Parties have caused this BLPTA to be duly executed and delivered by their duly authorized representatives on the date first above written.

CCP, Project Company and Collateral Agent are hereinafter sometimes referred to individually as a “Party” and jointly as the “Parties”. Capitalized terms used but not otherwise defined in this Consent shall have the meanings ascribed to them in the PPA (as defined below).

### RECITALS

The Parties enter into this Consent with reference to the following facts:

- A. Project Company and CCP have entered into that certain Renewable Power Purchase Agreement, dated as of *[Date]* *[List all amendments as contemplated by Section 3.4]* (“PPA”), pursuant to which Project Company will develop, construct, commission, test and operate the geothermal energy facility (the “Project”) and sell the Product to CCP, and CCP will purchase the Product from Project Company;
- B. As collateral for Project Company’s obligations under the PPA, Project Company has agreed to provide to CCP certain collateral, which may include Performance Security and Development Security and other collateral described in the PPA (collectively, the “PPA Collateral”);

- D. As collateral security for Project Company’s obligations under the Financing Agreement and related agreements (collectively, the “Financing Documents”), Project Company has, among other things, assigned all of its right, title and interest in, to and under the PPA and Project Company’s owners have pledged their ownership interest in Project Company (collectively, the “Assigned Interest”) to the Collateral Agent pursuant to the Financing Documents; and
- E. It is a requirement under the Financing Agreement and the PPA that CCP and the other Parties hereto shall have executed and delivered this Consent.

## AGREEMENT

In consideration of the foregoing, and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, and intending to be legally bound, the Parties hereto hereby agree as follows:

### SECTION 1. CONSENT TO ASSIGNMENT, ETC.

#### 1.1 Consent and Agreement.

CCP hereby acknowledges:

(a) Notice of and consents to the assignment as collateral security to Collateral Agent, for the benefit of the Secured Parties, of the Assigned Interest; and

(b) The right (but not the obligation) of Collateral Agent in the exercise of its rights and remedies under the Financing Documents, to make all demands, give all notices, take all actions and exercise all rights of Project Company permitted under the PPA (subject to CCP's rights and defenses under the PPA and the terms of this Consent) and accepts any such exercise; *provided*, insofar as the Collateral Agent exercises any such rights under the PPA or makes any claims with respect to payments or other obligations under the PPA, the terms and conditions of the PPA applicable to such exercise of rights or claims shall apply to Collateral Agent to the same extent as to Project Company.

#### 1.2 Project Company's Acknowledgement.

Each of Project Company and Collateral Agent hereby acknowledges and agrees that CCP is authorized to act in accordance with Collateral Agent's instructions, and that CCP shall bear no liability to Project Company or Collateral Agent in connection therewith, including any liability for failing to act in accordance with Project Company's instructions.

#### 1.3 Right to Cure.

If Project Company defaults in the performance of any of its obligations under the PPA, or upon the occurrence or non-occurrence of any event or condition under the PPA which would immediately or with the passage of any applicable grace period or the giving of notice, or both, enable CCP to terminate or suspend its performance under the PPA (a "PPA Default"), CCP will not terminate or suspend its performance under the PPA until it first gives written notice of such PPA Default to Collateral Agent and affords Collateral Agent the right to cure such PPA Default within the applicable cure period under the PPA, which cure period shall run concurrently with that afforded Project Company under the PPA. In addition, if Collateral Agent gives CCP written notice prior to the expiration of the applicable cure period under the PPA of Collateral Agent's intention to cure such PPA Default (which notice shall include a reasonable description of the time during which it anticipates to cure such PPA Default) and is diligently proceeding to cure such PPA Default, notwithstanding the applicable cure period under the PPA, Collateral Agent shall have a period of sixty (60) days (or, if such PPA Default is for failure by the Project Company to pay an amount to CCP which is due and payable under the PPA other than to provide PPA Collateral, thirty (30) days, or, if such PPA Default is for failure by Project Company to provide

PPA Collateral, ten (10) Business Days) from the later to occur of (i) Collateral Agent's receipt of the notice of such PPA Default from CCP and (ii) the expiration of the cure periods available to the Project Company in the PPA to cure such PPA Default; *provided*, that (a) if possession of the Project is necessary to cure any such non-monetary PPA Default and Collateral Agent has commenced foreclosure proceedings within sixty (60) days from the later to occur of (i) Collateral Agent's receipt of the notice of the PPA Default and (ii) the expiration of the cure periods available to the Project Company in the PPA and is diligently pursuing such foreclosure proceedings, Collateral Agent will be allowed a reasonable time, not to exceed one hundred eighty (180) days from the later to occur of (i) Collateral Agent's receipt of the notice of the PPA Default and (ii) the expiration of the cure periods available to the Project Company in the PPA, to complete such proceedings and cure such PPA Default, and (b) if Collateral Agent is prohibited from curing any such PPA Default by any process, stay or injunction issued by any Governmental Authority or pursuant to any bankruptcy or insolvency proceeding or other similar proceeding involving Project Company, then the time periods specified herein for curing a PPA Default shall be extended for the period of such prohibition, so long as Collateral Agent has diligently pursued removal of such process, stay or injunction. Collateral Agent shall provide CCP with reports concerning the status of efforts to cure a PPA Default upon CCP's reasonable request.

#### 1.4 Substitute Owner.

Subject to Section 1.7, the Parties agree that if Collateral Agent notifies (such notice, a "Financing Document Default Notice") CCP that an event of default has occurred and is continuing under the Financing Documents (a "Financing Document Event of Default") then, upon a judicial foreclosure sale, non-judicial foreclosure sale, deed in lieu of foreclosure or other transfer following a Financing Document Event of Default, Collateral Agent (or its designee) shall be substituted for Project Company (the "Substitute Owner") under the PPA, and, subject to Sections 1.7(b) and 1.7(c) below, CCP and Substitute Owner will recognize each other as counterparties under the PPA and will continue to perform their respective obligations (including those obligations accruing to CCP and the Project Company prior to the existence of the Substitute Owner) under the PPA in favor of each other in accordance with the terms thereof; *provided*, before CCP is required to recognize the Substitute Owner, the Substitute Owner must (i) be the Collateral Agent or a permitted assignee under the PPA or (ii) have financial qualifications and operating experience of *[TBD]* (a "Permitted Transferee"). For purposes of the foregoing, CCP shall be entitled to assume that any such purported exercise of rights by Collateral Agent that results in substitution of a Substitute Owner under the PPA is in accordance with the Financing Documents without independent investigation thereof but shall have the right to require that the Collateral Agent and its designee (if applicable) certify the same.

#### 1.5 Replacement Agreements.

Subject to Section 1.7, if the PPA is terminated, rejected or otherwise invalidated as a result of any bankruptcy, insolvency, reorganization or similar proceeding affecting Project Company, its owner(s) or guarantor(s), and if Collateral Agent or its designee directly or indirectly takes possession of, or title to, the Project (including possession by a receiver or title by foreclosure or deed in lieu of foreclosure) ("Replacement Owner"), CCP shall, and Collateral Agent shall cause Replacement Owner to, enter into a new agreement with one another for the balance of the obligations under the PPA remaining to be performed having terms substantially the same as the

terms of the PPA with respect to the remaining Term (“Replacement PPA”); *provided*, before CCP is required to enter into a Replacement PPA, the Replacement Owner shall satisfy the requirements of a Permitted Transferee. For purposes of the foregoing, CCP is entitled to assume that any such purported exercise of rights by Collateral Agent that results in a Replacement Owner is in accordance with the Financing Documents without independent investigation thereof but shall have the right to require that the Collateral Agent and its designee (if applicable) certify the same. Notwithstanding the execution and delivery of a Replacement PPA, to the extent CCP is, or was otherwise prior to its termination as described in this Section 1.5, entitled under the PPA (subject to Section 1.3 hereof), CCP may suspend performance of its obligations under such Replacement PPA, unless and until all PPA Defaults of Project Company under the PPA or Replacement PPA have been cured (subject to Section 1.3 hereof).

#### 1.6 Transfer.

Subject to Section 1.7, a Substitute Owner or a Replacement Owner may assign all of its interest in the Project and the PPA and a Replacement PPA to a natural person, corporation, trust, business trust, joint venture, joint stock company, association, company, limited liability company, partnership, Governmental Authority or other entity (a “Person”) to which the Project is transferred; *provided*, the proposed transferee shall be a Permitted Transferee.

#### 1.7 Assumption of Obligations.

##### (a) Transferee.

Any transferee under Section 1.6 shall expressly assume in a writing all of the obligations of Project Company, Substitute Owner or Replacement Owner under the PPA or Replacement PPA, as applicable, including posting and collateral assignment of the PPA Collateral. Upon such assignment and the cure of any outstanding PPA Default except for any such defaults that are both personal to the transferor and not curable by the transferee, and payment of all other amounts due and payable to CCP in respect of the PPA or such Replacement PPA, the transferor shall be released from any further liability under the PPA or Replacement PPA, as applicable.

##### (b) Substitute Owner.

Subject to Section 1.7(c), any Substitute Owner pursuant to Section 1.4 shall be required to perform Project Company’s obligations under the PPA, including posting and collateral assignment of the PPA Collateral; *provided*, the obligations of such Substitute Owner shall be no more than those of Project Company under the PPA.

##### (c) No Liability.

CCP acknowledges and agrees that neither Collateral Agent nor any Secured Party shall have any liability or obligation under the PPA as a result of this Consent (except to the extent Collateral Agent or a Secured Party is a Substitute Owner or Replacement Owner) nor shall Collateral Agent or any other Secured Party be obligated or required to (i) perform any of Project Company’s obligations under the PPA, except as provided in Sections 1.7(a) and 1.7(b) and to the extent Collateral Agent or a Secured Party is a Substitute Owner or Replacement Owner, or (ii) take any action to collect or enforce any claim for payment assigned under the Financing

Documents. If Collateral Agent becomes a Substitute Owner pursuant to Section 1.4 or enters into a Replacement PPA, Collateral Agent shall not have any personal liability to CCP under the PPA or Replacement PPA and the sole recourse of CCP in seeking enforcement of such obligations against Collateral Agent shall be to the aggregate interest of the Secured Parties in the Project; *provided*, such limited recourse shall not limit CCP's right to seek equitable or injunctive relief against Collateral Agent, or CCP's rights with respect to any offset rights expressly allowed under the PPA, a Replacement PPA or the PPA Collateral.

#### 1.8 Delivery of Notices.

CCP shall deliver to Collateral Agent, concurrently with the delivery thereof to Project Company, a copy of each notice, request or demand given by CCP to Project Company pursuant to the PPA relating to (a) a PPA Default by Project Company under the PPA, (b) any claim regarding Force Majeure by CCP under the PPA, (c) any notice of dispute under the PPA, (d) any notice of intent to terminate or any termination notice, and (e) any matter that would require the consent of Collateral Agent pursuant to Section 1.11 or any other provision of this Consent. Collateral Agent acknowledges that delivery of such notice, request and demand shall satisfy CCP's obligation to give Collateral Agent a notice of PPA Default under Section 1.3. Collateral Agent shall deliver to CCP, concurrently with delivery thereof to Project Company, a copy of each notice, request or demand given by Collateral Agent to Project Company pursuant to the Financing Documents relating to any indebtedness of Project Company being declared immediately due and payable under the Financing Documents.

#### 1.9 Confirmations.

CCP will, as and when reasonably requested by Collateral Agent from time to time, confirm in writing matters relating to the PPA (including the performance of same by Project Company); *provided*, such confirmation may be limited to matters of which CCP is aware as of the time the confirmation is given and such confirmations shall be without prejudice to any rights of CCP under the PPA as between CCP and Project Company.

#### 1.10 Exclusivity of Dealings.

Except as provided in Sections 1.3, 1.4, 1.5, 1.8, 1.9, 1.11 and 2.1, unless and until CCP receives a Financing Document Default Notice, CCP shall deal exclusively with Project Company in connection with the performance of CCP's obligations under the PPA. From and after such time as CCP receives a Financing Document Default Notice and until a Substitute Owner is substituted for Project Company pursuant to Section 1.4, a Replacement PPA is entered into or the PPA is transferred to a Person to whom the Project is transferred pursuant to Section 1.6, CCP shall, until Collateral Agent confirms to CCP in writing that all obligations under the Financing Documents are no longer outstanding, deal exclusively with Collateral Agent in connection with the performance of CCP's obligations under the PPA, and CCP may irrevocably rely on instructions provided by Collateral Agent in accordance therewith to the exclusion of those provided by any other Person.

### 1.11 No Amendments.

To the extent permitted by Laws, CCP agrees that it will not, without the Project Company obtaining prior written consent of Collateral Agent (not to be unreasonably withheld, delayed or conditioned) (a) enter into any material supplement, restatement, novation, extension, amendment or modification of the PPA (b) terminate or suspend its performance under the PPA (except in accordance with Section 1.3) or (c) consent to or accept any termination or cancellation of the PPA by Project Company.

## SECTION 2. PAYMENTS UNDER THE PPA

### 2.1 Payments.

Unless and until CCP receives written notice to the contrary from Collateral Agent, CCP will make all payments to be made by it to Project Company under or by reason of the PPA directly to Project Company at the following account: [\_\_\_\_\_] or, to such other Person or at such other address or account as Collateral Agent may from time to time specify in writing to CCP. CCP, Project Company, and Collateral Agent acknowledge that CCP will be deemed to be in compliance with the payment terms of the PPA to the extent that CCP makes payments in accordance with Collateral Agent's instructions.

### 2.2 No Offset, Etc.

All payments required to be made by CCP under the PPA shall be made without any offset, recoupment, abatement, withholding, reduction or defense whatsoever, other than that expressly allowed by the terms of the PPA.

## SECTION 3. REPRESENTATIONS AND WARRANTIES OF CCP

**[RESERVED]**

**ARTICLE 8**  
**OPERATING ACCOUNT**

8.1. Calculation of Estimated Monthly Project Cost.

(a) No later than one hundred and eighty (180) days after the Effective Date, the CCP Manager shall present to the Project Committee a proposed Estimated Monthly Project Cost, which shall be equal to the single highest forecasted Monthly Cost over the first Contract Year. The Project Committee shall review, and, if appropriate, recommend, modify, or approve through a Normal Vote, the proposed Estimated Monthly Project Cost.

8.2. Operating Account. CCP shall establish an Operating Account for each Project Participant that is accessible to and can be drawn upon by both CCP and the applicable Project Participant. Such Operating Accounts are for the purpose of providing a reliable source of funds for the payment obligations of the Project and, taking into account the variability of costs associated with the Project for the purpose of providing a reliable payment mechanism to address the ongoing costs associated with the Project.

(a) Operating Account Amount. The Operating Account Amount for each Project Participant shall be an amount equal to the Estimated Monthly Project Cost multiplied by three (3), the product of which is multiplied by such Project Participant's Entitlement Share ("**Operating Account Amount**").

(b) Initial Funding of Operating Account. By no later than three hundred and sixty-five (365) days after the Effective Date, each Project Participant shall deposit into such Project Participant's Operating Account an amount equal to that Project Participant's Operating Account Amount.

(c) Use of Operating Account. CCP shall draw upon each Project Participant's Operating Account each month in an amount equal to the Monthly Costs multiplied by such Project Participant's Entitlement Share. As required by Section 9.5, each Project Participant must deposit sufficient funds into such Project Participant's Operating Account by the deadline specified in Section 9.5.

(d) Final Distribution of Operating Account. Following the expiration or earlier termination of the PPA, and upon payment and satisfaction of any and all liabilities and obligations to make payments of the Project Participants under this Agreement and upon satisfaction of all remaining costs and obligations of CCP under the PPA, any amounts then remaining in any Project Participant's Operating Account shall be paid to the associated Project Participant.

## **ARTICLE 9**

### **BILLING**

9.1. **Monthly Costs.** The amount of Monthly Costs for a particular Month shall be the sum of the Project Participant's Entitlement Share multiplied by the Monthly Product Payments for the Product, as specified in Section 8.2 of the PPA for such Month and to the extent such payment is made by CCP to the Project Developer, plus the Project Participant's Entitlement Share multiplied by the Operating Cost for such Month and subtracting the Project Participant's Entitlement Share multiplied by the positive revenue associated with the sale of any Facility Energy, Capacity Attributes, Ancillary Services, and/or Environmental Attributes, as shown in the following formula:

Monthly Cost = ((Project Participant's Entitlement Share) × (Monthly Product Payments)) + ((Project Participant's Entitlement Share) × (Operating Costs)) – ((Project Participant's Entitlement Share) × (revenue from sale of Facility Energy, Capacity Attributes, Ancillary Services and/or Environmental Attributes))

9.2. **Billing Statements.** By no later than ten (10) calendar days after CCP receives an invoice from Project Developer for the prior Month of each Contract Year pursuant to Section 8.1 of the PPA, CCP shall issue to each Project Participant a copy of the invoice and a "Billing Statement," which specifies such Project Participant's Monthly Costs, itemized by each part of such Monthly Cost. The amount of Monthly Costs attributable to a Project Participant, and specified in such Billing Statement, shall be the "**Invoice Amount.**"

9.3. **Disputed Monthly Billing Statement.** A Project Participant may dispute, by written Notice to CCP, any portion of any Billing Statement submitted to that Project Participant by CCP pursuant to Section 9.2, provided that the Project Participant shall pay the full amount of the Billing Statement when due. If CCP determines that any portion of the Billing Statement is incorrect, CCP will deposit the difference between such correct amount and such full amount, if any, including interest at the rate received by CCP on any overpayment into the Project Participant's Operating Account. If CCP and a Project Participant disagree regarding the accuracy of a Billing Statement, CCP will give consideration to such dispute and will advise all Project Participants with regard to CCP's position relative thereto within thirty (30) days following receipt of written Notice by Project Participant of such dispute.

9.4. **Payment Adjustments; Billing Errors.** If CCP or Project Developer determines that a prior invoice or Billing Statement was inaccurate, CCP shall credit against or increase as appropriate each Project Participant's subsequent Monthly Costs according to such adjustment. The accompanying Billing Statement shall describe the cause of such adjustment and the amount of such adjustment.

9.5. **Payment of Invoice Amount.** Each Project Participant shall deposit the Invoice Amount for the applicable Month into such Project Participant's Operating Account by no later than the twentieth (20<sup>th</sup>) calendar day of the following Month after the Billing Statement is issued, unless CCP has failed to issue the Billing Statement by the deadline specified in Section 9.2, in which case, each Project Participant shall deposit the Invoice Amount for the applicable Month by no later than thirty (30) days after the date on which CCP issues the Billing Statement to the Project Participant.

9.6. Withdrawal of Invoice Amount from Operating Account. No sooner than five (5) calendar days after CCP issues a Billing Statement to a Project Participant or a Step-Up Invoice to a Project Participant, CCP shall withdraw the Invoice Amount or the Step-Up Invoice Amount from each Project Participant's Operating Account. If the Monthly Cost attributable to such Project Participant is a negative number, CCP shall deposit such funds into the Operating Account of that Project Participant.

9.7. Late Payments.

(a) If any Project Participant fails to deposit the Invoice Amount into the Project Participant's Operating Account by the deadline specified in Section 9.5, then CCP will issue such Project Participant a Late Payment Notice within five (5) days of the deadline specified in Section 9.5 directing the Project Participant to immediately deposit the Invoice Amount into the Project Participant's Operating Account and informing the Project Participant that such Project Participant must pay a charge ("**Late Payment Charge**"). Upon issuing a Late Payment Notice to any Project Participant, CCP shall promptly provide Notice of such occurrence to all other Project Participants.

(b) The Late Payment Charge shall be equal to the Invoice Amount minus any partial payment that was deposited into such Project Participant's Operating Account multiplied by the Interest Rate specified in Section 8.2 of the PPA for the period from the deadline specified in Section 9.5 until the date on which the Project Participant deposits the Invoice Amount plus the Late Payment Charge into such Project Participant's Operating Account. Upon payment, CCP shall withdraw the full amount of such Late Payment Charge from the Project Participant's Operating Account and deposit any such Late Payment Charge into the Operating Accounts of all other Project Participants on a pro rata share, based on such other Project Participants' Entitlement Shares.

**ARTICLE 10**

**UNCONDITIONAL PAYMENT OBLIGATIONS; AUTHORIZATIONS; CONFLICTS;  
LITIGATION.**

10.1. Unconditional Payment Obligation. Beginning with the earliest of (i) the date CCP is obligated to pay any portion of the costs of the Project, (ii) the date of the COD, or (iii) the date of the first delivery of the Product to Project Participants and continuing through the term of this Agreement, Project Participants shall pay CCP the amounts of Monthly Costs set forth in the Billing Statements submitted by CCP to Project Participants in accordance with the provisions of Section 9, whether or not the Project or any part thereof has been completed, is functioning, producing, operating or operable or its output or the provision of Facility products are suspended, interrupted, interfered with, reduced or curtailed or terminated in whole or in part, and such payments shall not be subject to reduction whether by offset or otherwise and shall not be conditional upon the performance or nonperformance by any party of any agreement for any cause whatsoever, provided that the obligation of Project Participants to pay amounts associated with the Monthly Product Payment shall be limited to the amount of Monthly Product Payment charged by the Project Developer to CCP and paid by CCP to the Project Developer.

10.2. Authorizations. Each Project Participant hereby represents and warrants that no order, approval, consent, or authorization of any governmental or public agency, authority, or person, is required on the part of such Project Participant for the execution and delivery by the Project Participant, or the performance by the Project Participant of its obligations under this Agreement except for such as have been obtained.

10.3. Conflicts. Each Project Participant represents and warrants to CCP as of the Effective Date that, to the Project Participant's knowledge, the execution and delivery of this Agreement by the Project Participants and the Project Participants' performance hereunder will not constitute a default under any agreement or instrument to which it is a party, or any order, judgment, decree or ruling of any court that is binding on the Project Participant, or a violation of any applicable law of any governmental authority, which default or violation would have a material adverse effect on the financial condition of the Project Participant.

10.4. Litigation. Each Project Participant represents and warrants to CCP that, as of the Effective Date, to the Project Participant's knowledge, except as disclosed, there are no actions, suits or proceedings pending against the Project Participant (service of process on the Project Participant having been made) in any court that questions the validity of the authorization, execution or delivery by the Project Participant of this Agreement, or the enforceability on the Project Participant of this Agreement.

10.5. San José Clean Energy.

(a) The City of San José is a municipal corporation and is precluded under the California State Constitution and applicable law from entering into obligations that financially bind future governing bodies without an appropriation for such obligation, and, therefore, nothing in the Agreement shall constitute an obligation of future legislative bodies of the City of San José to appropriate funds for purposes of the Agreement; provided, however, that the City of San José has created and set aside a designated fund (being the San Jose Energy Operating Fund established pursuant to City of San Jose Municipal Code, Title 4, Part 63, Section 4.80.4050 *et. seq.*) ("**Designated Fund**") for payment of its obligations under this Agreement.

(b) Limited Obligations. The City of San José's payment obligations under this Agreement are special limited obligations of San José Clean Energy payable solely from the Designated Fund and are not a charge upon the revenues or general fund of the City of San José or upon any non- San José Clean Energy moneys or other property of the Community Energy Department or the City of San José.

10.6. Clean Power San Francisco. With regard to Clean Power San Francisco only, (1) obligations under this Agreement are special limited obligations of Clean Power San Francisco payable solely from the revenues of Clean Power San Francisco, and shall not be a charge upon the revenues or general fund of the San Francisco Public Utilities Commission or the City and County of San Francisco or upon any non-Clean Power San Francisco moneys or other property of the San Francisco Public Utilities Commission or the City and County of San Francisco, (2) cannot exceed the amount certified by the San Francisco City Controller for the purpose and period stated in such certification, and (3) absent an authorized emergency per the San Francisco City Charter or Code, no San Francisco City representative is authorized to offer or promise, nor is San

Francisco required to honor, any offered or promised payments under this Agreement for work beyond the agreed upon scope or in excess of the certified maximum amount without the San Francisco City Controller having first certified the additional promised amount.

**ARTICLE 11**  
**PROJECT SPECIFIC MATTERS AND PROJECT PARTICIPANTS' RIGHTS AND OBLIGATIONS.**

11.1. CCP Rights and Obligations under the PPA. Notwithstanding anything to the contrary contained in this Agreement: (i) the obligation of CCP to cause the delivery of the Project Participants' Entitlement Shares of the Product during the Delivery Term of this Agreement is limited to the Product which CCP receives from the Facility (or the Project Developer, as applicable); (ii) the obligation of CCP to pay any amount to Project Participants hereunder or to give credits against amounts due from Project Participants hereunder is limited to amounts CCP receives in connection with the transaction to which the payment or credit relates (or is otherwise available to CCP in connection with this Agreement for which such payment or credit relates); (iii) any purchase costs, operating costs, energy costs, capacity costs, Facility costs, environmental attribute costs, transmission costs, tax costs, insurance costs, indemnifications, other costs or other charges for which CCP is responsible under the PPA shall be considered purchase costs, operating costs, energy costs, capacity costs, Facility costs, environmental attribute costs, transmission costs, tax costs, insurance costs, indemnifications, other costs or other charges incurred by CCP and payable by Project Participants as provided in this Agreement; (iv) CCP shall carry out its obligations and exercise its rights under the PPA in a commercially reasonable manner; (v) all remedies provided to CCP pursuant to the PPA or the Scheduling Coordinator Services Agreement shall be provided to Project Participants in accordance with Section 5.1(h); and (vi) any Force Majeure under the PPA or other event of force majeure affecting the delivery of Product pursuant to applicable provisions of the PPA shall be considered an event caused by Uncontrollable Forces affecting CCP with respect to the delivery of the Product hereunder and CCP forwarding to Project Participants notices and information from the Project Developer concerning an event of Force Majeure upon receipt thereof shall be sufficient to constitute a Notice that Uncontrollable Forces have occurred pursuant to Section 5.1 of this Agreement. Any net proceeds received by CCP from the sale of the Product by the Project Developer to any third-party as a result of a Force Majeure event or failure by CCP to accept delivery of Product pursuant to the PPA and any reimbursement received by CCP for purchase of Replacement RA shall be remitted by CCP to the Project Participants in accordance with their respective Entitlement Shares.

11.2. Obligations of CCP and Project Participants to Maximize the Economic and Compliance Value of the Project.

(a) Each Project Participant shall take all actions that are (i) reasonably necessary to maximize the economic and compliance value of the Project to the Project Participants, and (ii) only capable of being carried out by the Project Participants. Such actions include, but are not limited to, applying for and securing the import capability rights necessary to support the import of Capacity Attributes from the Project into the CAISO in an amount equal to at least its Entitlement Share of all of the import capability rights that are needed to utilize all of the Resource Adequacy Benefits from the Project.

(b) CCP shall take any actions requested by a Project Participant to support the individual Project Participant's obligation under Section 11.2(a) and any actions requested by a Project Participant that are reasonably necessary to maximize the economic and compliance value of the Project to the Project Participants, to the extent that such actions by CCP are feasible and commercially reasonable.

(c) If any individual Project Participant fails to secure import capability rights or other similar rights in an amount equal to at least its Entitlement Share of all of the import capability rights that are needed to utilize all of the Resource Adequacy Benefits available from the Project, then any resulting reduced economic or compliance value of the Project shall not reduce or otherwise modify that Project Participant's payment obligations under Section 10.1.

(d) CCP and the Project Participants agree to take such additional actions in order to help effectuate the transfer of any import capability rights or similar rights from a Defaulting Project Participant to any Non-Defaulting Project Participants that assumes any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c). Such actions include but are not limited to executing additional agreements among the Project Participants, amending this Agreement, and/or submitting necessary documents to CAISO and participating in any CAISO process related to the transfer of import capability rights.

## **ARTICLE 12**

### **NONPERFORMANCE AND PAYMENT DEFAULT.**

12.1. Nonperformance by Project Participants. If a Project Participant fails to perform any covenant, agreement, or obligation under this Agreement or shall cause CCP to be in default with respect to any undertaking entered into for the Project or to be in default under the PPA ("**Defaulting Project Participant**"), CCP may, in the event the performance of any such obligation remains unsatisfied after thirty (30) days' prior written notice thereof to such Project Participant and a demand to so perform, take any action permitted by law to enforce its rights under this Agreement, including but not limited to termination of such Project Participant's rights under this Agreement including any rights to its Entitlement Share of the Product, and/or bring any suit, action or proceeding at law or in equity as may be necessary or appropriate to recover damages and/or enforce any covenant, agreement or obligation against such Project Participant with regard to its failure to so perform. Any Project Participant that is not the Defaulting Project Participant ("**Non-Defaulting Project Participant**") may submit Notice directly to the CCP Board, if such Non-Defaulting Project Participant determines that CCP is or may not be fully taking appropriate actions to enforce CCP's rights under this Agreement against a Defaulting Project Participant. The CCP Board shall consider such Notice and direct CCP to take appropriate action, if any.

12.2. Payment Default. If either of the following occurs, then such occurrence shall constitute a "**Payment Default**":

(a) any Project Participant fails to deposit the Invoice Amount into the Project Participant's Operating Account by the deadline specified in Section 9.5, and if such Participant has not deposited the Invoice Amount plus the Late Payment Charge into such Project Participant's

Operating Account within ten (10) calendar days of the issuance of the Late Payment Notice to such Project Participant by CCP; or

(b) any Project Participant files a petition for Bankruptcy or has a petition for Bankruptcy filed against it, and such Project Participant has not shown that it is able to comply with its obligations under this Agreement to the reasonable satisfaction of Project Developer within sixty (60) days of such Bankruptcy filing, in which case a Payment Default shall occur upon the date that CCP receives a notice regarding such determination from Project Developer.

12.3. Payment Default Notice. Upon the occurrence of a Payment Default, CCP shall issue a Notice of Payment Default to the Project Participant notifying such Project Participant that as a result of a Payment Default, it is in default under this Agreement and has assumed the status of a Defaulting Project Participant and that such Defaulting Project Participant's Project Revenue Rights have been suspended and that such Defaulting Project Participant's Project Rights are subject to termination and disposal in accordance with Sections 12.6 and 12.8 of this Agreement. CCP shall provide a copy of such Notice of Default to all other Project Participants within five (5) calendar days after the issuance of the written Notice of Payment Default by CCP to the Defaulting Project Participant.

12.4. Cured Payment Default. If after a Payment Default, the Defaulting Project Participant cures such Payment Default within forty-five (45) calendar days after the issuance of the Late Payment Notice by CCP, the Defaulting Project Participant's Project Revenue Rights shall be reinstated and its Project Rights shall not be subject to termination and disposal as provided for in Sections 12.6 and 12.8. In order to cure a Payment Default occurring under Section 12.2(a), the Defaulting Project Participant must deposit the full amount of any unpaid Invoice Amounts and any associated Late Payment Penalties into its Operating Account. In order to cure a Payment Default occurring under Section 12.2(b), the Bankruptcy proceeding against the Defaulting Project Participant must be dismissed or Project Developer must issue a Notice to CCP stating that Project Developer has determined that the Defaulting Project Participant has demonstrated that it is able to comply with its obligations under the Agreement.

12.5. Suspension of Project Participant's Project Revenue Rights and Treatment of Capacity Attributes and Environmental Attributes.

(i) Upon the occurrence of a Payment Default, the Defaulting Project Participant's Project Revenue Rights shall be suspended until such time as such Defaulting Project Participant cures the Payment Default pursuant to the requirements of Section 12.4. Any revenue associated with the sale of Facility Energy, Capacity Attributes, Ancillary Services, or Environmental Attributes associated with the Facility shall be deposited by CCP into the Step-Up Reserve Account, as specified in Section 12.7.

(ii) For any Month where the funds remaining in a Defaulting Project Participant's Operating Account are sufficient to pay the entire Invoice Amount, CCP shall withdraw the Invoice Amount from such Defaulting Project Participant's Operating Account and shall cause the delivery of the Defaulting Project Participant's Entitlement Share of the Product, including Capacity Attributes and Environmental Attributes, associated with the Facility or otherwise provided for pursuant to the PPA. For any Month where the funds remaining in a

Defaulting Project Participant's Operating Account are less than the amount necessary to pay the entire Invoice Amount, CCP shall withdraw all remaining funds from the Defaulting Project Participant's Operating Account, and to the extent reasonably possible, in CCP's sole discretion, CCP shall cause the delivery of a quantity of Capacity Attributes and Environmental Attributes proportionate to the portion of the Invoice Amount that the remaining funds were sufficient to pay for. For any Month where the Defaulting Project Participant's Operating Account has no funds remaining, the Defaulting Project Participant shall have no right to any such Capacity Attributes or Environmental Attributes associated with the Facility or otherwise provided for under the PPA.

12.6. Termination and Disposal of Project Participant's Project Rights. If a Defaulting Project Participant has not cured a Payment Default within forty-five (45) calendar days after the payment deadline specified in Section 9.5 by CCP ("**Payment Default Termination Deadline**"), then all Project Rights and Obligations pursuant to this Agreement shall be terminated and disposed in accordance with Sections 12.6 and 12.8 of this Agreement; provided, however, that the Defaulting Project Participant shall be liable for all outstanding payment obligations accrued prior to the Payment Default Termination Deadline and shall remain subject to all rights, obligations, and liabilities of this Agreement, including but not limited to any liabilities for Damage Payment or Termination Payment, as applicable, and any other damage payments or reimbursement amounts under the PPA. CCP shall provide to the Defaulting Project Participant a separate monthly invoice of any such payment obligations of such Defaulting Project Participant. CCP shall immediately notify the other Project Participants of such termination of the Defaulting Project Participant's Project Rights and Obligations.

12.7. Step-Up Invoices.

(a) Upon the occurrence of a Payment Default, CCP shall, concurrently with the Late Payment Notice issued pursuant to Section 9.7(a), issue a Step-Up Invoice to each Non-Defaulting Project Participant that specifies such Non-Defaulting Project Participant's pro rata payment obligation, calculated based on the Entitlement Share of such Non-Defaulting Project Participant, of the amount of the Payment Default for the Defaulting Project Participant (the "**Step-Up Invoice Amount**"); provided, however, that a Non-Defaulting Project Participant's Step-Up Invoice Amount shall not exceed twenty-five percent (25%) of such Non-Defaulting Project Participant's Invoice Amount for the same month for which the Payment Default occurred (the "**Step-Up Invoice Amount Cap**").

(i) Each Non-Defaulting Project Participant shall deposit the Step-Up Invoice Amount into such Non-Defaulting Project Participant's Operating Account by the later of the twentieth (20<sup>th</sup>) calendar day of the following Month or thirty (30) days after the date on which CCP issues the Step-Up Invoice to the other Project Participants. No sooner than five (5) calendar days after CCP issues the Step-Up Invoice, CCP may withdraw the amount of the Step-Up Invoice from each Project Participant's Operating Account and deposit such funds in a separate account ("**Step-Up Reserve Account**"), which shall be accessible only by CCP, and which CCP may in its sole discretion draw upon in order to ensure that CCP can meet the payment obligations of the PPA. CCP first shall withdraw all funds from a Defaulting Project Participant's Operating Account before withdrawing funds from the Step-Up Reserve Account.

(ii) Application of Moneys Received from a Defaulting Project Participant. If a Defaulting Project Participant cures a Payment Default on or before the Payment Default Termination Deadline, any funds remaining in the Step-Up Reserve Account shall be deposited into the Operating Accounts of the other Project Participants on a pro rata share, based on the Entitlement Share of such other Project Participant. If a Defaulting Project Participant fails to cure a Payment Default and the Defaulting Project Participant's Project Rights and Obligations are terminated and disposed of in accordance with Section 12.8, any funds remaining in the Step-Up Reserve Account shall be deposited into the Operating Accounts of the Non-Defaulting Project Participants on a pro rata share, based on the Entitlement Share, subject to the Step-Up Invoice Amount Cap, of such other Project Participant. If any Non-Defaulting Project Participant has not deposited the full amount of its share of the Step-Up Invoice Amount into its Operating Account by the deadline specified in Section 12.7(a)(i), then such occurrence shall be a Late Payment as specified in Section 9.7(a) and is subject to a Late Payment Charge pursuant to Section 9.7(b), and any such Non-Defaulting Project Participant shall not be entitled to its share of any moneys received from the Defaulting Project Participant or any funds remaining in the Step-Up Reserve Account in accordance with this Section 12.7(a)(ii) until such Non-Defaulting Project Participant has deposited the full amount of its Step-Up Invoice Amount and the Late Payment Charge into its Operating Account.

12.8. Step-Up Allocation of Project Participant's Project Rights. In the event that a Defaulting Project Participant's Project Rights are terminated pursuant to Section 12.6, then such Defaulting Project Participant's Entitlement Share shall be allocated to the other Project Participants ("**Step-Up Allocation**") pursuant to the process set forth in this Section 12.8.

(a) Step-Up Allocation Cap. If a Defaulting Project Participant's Entitlement Share is allocated to the Non-Defaulting Project Participants pursuant to this Section 12.8, no individual Non-Defaulting Project Participant shall be obligated to assume an allocation that exceeds that Project Participant's Step-Up Allocation Cap set forth in Column E of the Table in Exhibit B of this Agreement. Each Non-Defaulting Project Participant's initial Step-Up Allocation Cap shall be equal to the Non-Defaulting Project Participant Entitlement Share as of the Effective Date and set forth in Column B of the Table in Exhibit B of this Agreement, multiplied by one hundred and twenty-five percent (125%). If a Project Participant modifies its Entitlement Share pursuant to Section 4.2 of this Agreement, then that Project Participant's Step-Up Allocation Cap shall be equal to the Project Participant's Entitlement Share as modified pursuant to Section 4.2 multiplied by one hundred and twenty-five percent (125%). Upon a modification of a Project Participant's Entitlement Share pursuant to Section 4.2, the CCP Manager shall cause the Step-Up Allocation Cap specified in Column E of the Table in Exhibit B of this Agreement to be modified in accordance with this Section 12.8(a). For avoidance of doubt, if a Project Participant's Entitlement Share is increased pursuant to Section 12.8(b) or (c), then such Project Participant's Step-Up Allocation Cap shall not be modified.

(b) Step-Up Allocation Share. If a Defaulting Project Participant's Project Rights are terminated pursuant to Section 12.6, then such Defaulting Project Participant's Entitlement Share shall be allocated to each Non-Defaulting Project Participant based on such Non-Defaulting Project Participant's pro rata share, calculated based on its Entitlement Share of the entire project minus the Entitlement Share of the Defaulting Project Participant, unless such allocation would cause any individual Non-Defaulting Project Participant to exceed its Step-Up

Allocation Cap, in which case Section 12.8(c) shall apply. Upon allocation of a defaulting Project Participant's Entitlement Share pursuant to this Section 12.8(b), the CCP Manager shall cause each affected Project Participant's Entitlement Share specified in Column D of the Table in Exhibit B to be modified in accordance with this Section 12.8.

(c) Voluntary Allocation of Project Rights in Excess of the Step-Up Allocation Caps. If the allocation of a Defaulting Project Participant's Entitlement Share pursuant to Section 12.8(b) would cause any Non-Defaulting Project Participant's Entitlement Share to exceed its Step-Up Allocation Cap, then no allocation shall occur pursuant to Section 12.8(b). In such case, the CCP Manager shall oversee the offering of the total amount of the Defaulting Project Participant's Entitlement Share to the Non-Defaulting Project Participants on a voluntary basis. The initial offering shall be to each Non-Defaulting Project Participant on a pro rata share, based on such Non-Defaulting Project Participant's Entitlement Share. Each Project Participant may accept or reject the portion of the Defaulting Project Participant's Entitlement Share. If any portion of the Defaulting Project Participant's Entitlement Share remains unclaimed after the initial offering, then the remaining portion shall be offered to any Non-Defaulting Project Participant that accepted its full share of the Defaulting Project Participant's Entitlement Share in the initial offering on a pro rata share, based on such Non-Defaulting Project Participant's Entitlement Share as a percentage of the total Entitlement Shares of all Project Participants that are participating in the subsequent round of offerings. The CCP Manager shall conduct subsequent offering rounds until either the total amount of the Defaulting Project Participant's Entitlement Share is accepted by one or more of the Non-Defaulting Project Participants or some portion of the Defaulting Project Participant's Entitlement Share remains, but all Non-Defaulting Project Participants have rejected such remaining amount.

(d) Step-Up Allocation Damage Payment. A Defaulting Project Participant shall owe to each Non-Defaulting Project Participant that assumes any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c) a "**Step-Up Allocation Damage Payment**" equal to the Costs and Losses, on the one hand, netted against its Gains, on the other. If the Non-Defaulting Project Participant's Costs and Losses exceed its Gains, then the Step-Up Allocation Damage Payment shall be an amount owing to such Non-Defaulting Project Participant. If the Non-Defaulting Project Participant's Gains exceed its Costs and Losses, then the Step-Up Allocation Damage Payment shall be zero dollars (\$0). A Defaulting Project Participant shall not be entitled to any Step-Up Allocation Damage Payment or any other damages otherwise authorized under this Agreement from any other Project Participant. The Step-Up Allocation Damage Payment does not include consequential, incidental, punitive, exemplary, or indirect or business interruption damages. Each Non-Defaulting Project Participant that assumes any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c) shall calculate, in a commercially reasonable manner, the Step-Up Allocation Damage Payment for the Defaulting Project Participant's Entitlement Share assumed by the Non-Defaulting Project Participant as of the effective date of such Step-Up Allocation. Third parties supplying information for purposes of the calculation of Gains or Losses may include, without limitation, dealers in the relevant markets, end-users of the relevant product, information vendors and other sources of market information. If the Defaulting Project Participant disputes the Non-Defaulting Project Participant's calculation of the Step-Up Allocation Damage Payment, in whole or in part, the Defaulting Project Participant shall, within five (5) Business Days of receipt of the Non-Defaulting Project Participant's calculation of the Step-Up Allocation

Damage Payment, provide to the Non-Defaulting Project Participant a detailed written explanation of the basis for such dispute. Disputes regarding the Step-Up Allocation Damage Payment shall be determined in accordance with Article 16. Each Party agrees and acknowledges that (i) the actual damages that the other Project Participant would incur in connection with a Step-Up Allocation would be difficult or impossible to predict with certainty, (ii) the Step-Up Allocation Damage Payment described in this Section 12.8(d) is a reasonable and appropriate approximation of such damages, and (iii) the Step-Up Allocation Damage Payment described in this Section 12.8(d) is the exclusive remedy of a Project Participant in connection with a Step-Up Allocation pursuant to the process set forth in Sections 12.8(b) or 12.8(c) against a Defaulting Project Participant but shall not otherwise act to limit any of the Non-Defaulting Project Participant's rights or remedies under this Agreement.

(e) Import Capacity Rights. If a Defaulting Project Participant's Project Rights are terminated pursuant to Section 12.6, then such Defaulting Project Participant shall transfer all import capacity rights and other similar rights that are associated with the Project and that are held by such Defaulting Project Participant to the Non-Defaulting Project Participants that assume any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c). The Defaulting Project Participant shall take all actions necessary to effectuate the transfer of such rights to the Non-Defaulting Project Participants.

(f) Remarketing of Unclaimed Defaulting Project Participant's Entitlement Share. If after the process set forth in Section 12.8(c), some portion of the Defaulting Project Participant's Entitlement Share remains unclaimed, the CCP Manager, in their discretion or as directed by the Non-Defaulting Project Participants, may take any action to generate revenue from such unclaimed Entitlement Share in order to meet CCP's payment obligation under the PPA. For avoidance of doubt, the CCP Manager shall not be limited by the requirements of Section 4.2 or 5.1(j) of this Agreement in remarketing or generating revenue base on the unclaimed share.

12.9. Elimination or Reduction of Payment Obligations. Notwithstanding anything to the contrary in this Agreement, upon termination of a Defaulting Project Participant's Project Rights pursuant to Section 12.6 and the disposal of such Defaulting Project Participant's Project Rights and Obligations pursuant to Section 12.8, such Defaulting Project Participant's obligation to make payments under this Agreement (notwithstanding anything to the contrary herein) shall not be eliminated or reduced; provided, however, such payment obligations for the Defaulting Project Participant may be eliminated or reduced to the extent permitted by law, through an amendment to this Agreement, which shall be subject to the consent and approval of all Parties to this Agreement.

## **ARTICLE 13** **LIABILITY**

13.1. Project Participants' Obligations Several. No Project Participant shall be liable under this Agreement for the obligations of any other Project Participant or for the obligations of CCP incurred on behalf of other Project Participants. Each Project Participant shall be solely responsible and liable for performance of its obligations under this Agreement, except as otherwise provided for herein. The obligation of Project Participants to make payments under this

Agreement is a several obligation and not a joint obligation with those of the other Project Participants.

13.2. No Liability of CCP or Project Participants, Their Directors, Officers, Etc.; CCP, The Project Participants' and CCP Manager's Directors, Officers, Employees Not Individually Liable. Except as provided for under Section 13.5 herein, the Parties agree that neither CCP, Project Participants, nor any of their past, present or future directors, officers, employees, board members, agents, attorneys or advisors (collectively, the "**Released Parties**") shall be liable to any other of the Released Parties for any and all claims, demands, liabilities, obligations, losses, damages (whether direct, indirect or consequential), penalties, actions, loss of profits, judgments, orders, suits, costs, expenses (including attorneys' fees and expenses) or disbursements of any kind or nature whatsoever in law, equity or otherwise (including, without limitation, death, bodily injury or personal injury to any person or damage or destruction to any property of Project Participants, CCP, or third persons) suffered by any Released Party as a result of the action or inaction or performance or non-performance by the Project Developer under the PPA. Except as provided for under Section 13.5 herein, each Party shall release each of the other Released Parties from any claim or liability that such Party may have cause to assert as a result of any actions or inactions or performance or non-performance by any of the other Released Parties under this Agreement (excluding gross negligence and willful misconduct, which, unless otherwise agreed to by the Parties, are both to be determined and established by a court of competent jurisdiction in a final, non-appealable order). Notwithstanding the foregoing, no such action or inaction or performance or non-performance by any of the Released Parties shall relieve CCP or any Project Participants from their respective obligations under this Agreement, including, without limitation, the Project Participants' obligation to make payments required under Section 9.5 of this Agreement and CCP's obligation to make payments under Section 8.2 of the PPA. The provisions of this Section 13.2 shall not be construed so as to relieve the CCP or the Project Developer from any obligation or liability under this Agreement or the PPA.

13.3. Extent of Exculpation; Enforcement of Rights. The exculpation provision set forth in Section 13.2 hereof shall apply to all types of claims or actions including, but not limited to, claims or actions based on contract or tort. Notwithstanding the foregoing, any Party may protect and enforce its rights under this Agreement by a suit or suits in equity for specific performance of any obligations or duty of any other Party, and each Party shall at all times retain the right to recover, by appropriate legal proceedings, any amount determined to have been an overpayment, underpayment or other monetary damages owed by the other Party in accordance with the terms of this Agreement.

13.4. No General Liability of CCP. The undertakings under this Agreement by CCP shall not constitute a debt or indebtedness of CCP within the meaning of any provision or limitation of the Constitution or statutes of the State of California, and shall not constitute or give rise to a charge against its general credit.

13.5. Indemnification. Each Party (an "**Indemnifying Party**") shall indemnify, defend, protect, hold harmless, and release the other Parties, their directors, board members, officers, employees, agents, attorneys and advisors, past, present or future, from and against any and all claims, demands, liabilities, obligations, losses, damages (whether direct, indirect or consequential), penalties, actions, loss of profits, judgments, orders, suits, costs, expenses

(including attorneys' fees and expenses) or disbursements of any kind or nature whatsoever in law, equity or otherwise, which include, without limitation, death, bodily injury, or personal injury to any person or damage or destruction to any property of Project Participants, CCP, or third persons, that may be imposed on, incurred by or asserted against any Party arising by manner of any breach of this Agreement by the Indemnifying Party, or the negligent acts, errors, omissions or willful misconduct incident to the performance of this Agreement on the part of any such Indemnifying Party or any Indemnifying Party's directors, board members, officers, employees, agents and advisors, past, present or future.

Any Notice required, permitted, or contemplated hereunder shall be in writing, shall be addressed to the Party to be notified at the address set forth in Exhibit A or at such other address or addresses as a Party may designate for itself from time to time by Notice hereunder.

14.2. Acceptable Means of Delivering Notice. #### **ARTICLE 16** **GOVERNING LAW AND DISPUTE RESOLUTION**

16.1. Governing Law. This Agreement and the rights and duties of the Parties hereunder shall be governed by and construed, enforced, and performed in accordance with the laws of the state of California, without regard to principles of conflicts of Law. To the extent enforceable at such time, each Party waives its respective right to any jury trial with respect to any litigation arising under or in connection with this Agreement. The Parties agree that any suit, action, or other legal proceeding by or against any Party with respect to or arising out of this Agreement shall be

If the Parties are unable to resolve a dispute arising hereunder within thirty (30) days after Notice of the dispute, the Parties may pursue all remedies available to them at Law or in equity.

The Parties shall, however, use their best endeavors to agree on the replacement of the void, illegal or unenforceable provision(s) with legally acceptable clauses which correspond as closely as possible to the sense and purpose of the affected provision and this Agreement as a whole.

### PROCEDURE FOR VOLUNTARY REDUCTION OF PROJECT PARTICIPANT'S ENTITLEMENT SHARE

(a) Offer to Other Project Participants. A Project Participant proposing to reduce its Entitlement Share of the Project shall provide Notice to all other Project Participants and CCP specifying the quantity of the proposed reduction of Entitlement Share ("**Entitlement Share Reduction Amount**") and the first Month for which the Project Participant Proposes that the change of Entitlement Share would become effective (such Notice referred to as the "**Entitlement Share Reduction Notice**").

(i) Upon receiving an Entitlement Share Reduction Notice from any Project Participant, the CCP Manager shall promptly do all of the following:

(A) Establish Entitlement Share Reduction Compensation Amount. The CCP Manager shall secure at least one (1), but no more than three (3), valuations of the net present value of the Entitlement Share Reduction Amount over the remaining term of the PPA from one or more qualified firm(s) with the requisite experience to determine such valuation. The valuation, or if more than one valuation is obtained, the average of all valuations received, shall be the "**Proposed Entitlement Share Reduction Compensation Amount.**" The CCP Manager shall call a meeting of the Project Committee and present the Proposed Entitlement Share Reduction Compensation Amount to the Project Committee. The Project Committee shall by a Normal Vote either approve the Proposed Entitlement Share Reduction Compensation Amount or direct the CCP Manager to secure additional valuations. The Proposed Entitlement Share Reduction Compensation Amount approved by the Project Committee shall be the "**Entitlement Share Reduction Compensation Amount.**" The Project Participant proposing to reduce its Entitlement Share may modify the quantity of the Entitlement Share Reduction Amount associated with its proposal or withdraw its proposal at any time prior to the initiation of the process set forth in paragraph (a)(i)(B).

(B) Oversee the Offering of the Entitlement Share Reduction Amount to Other Project Participants. The CCP Manager shall facilitate the offering of the Entitlement Share Reduction Amount to the other Project Participants through multiple rounds of offerings.

a) The initial offering shall be to each Project Participant on a pro rata share, based on such Project Participant's Entitlement Share. Each Project Participant may accept or reject the portion of the Entitlement Share Reduction Amount offered to the Project Participant through this process. If any portion of the Entitlement Share Reduction Amount remains after the initial offering, then the remaining portion shall be offered to any Project Participant that accepted the share of the Entitlement Share Reduction Amount offered in the initial offering on a pro rata share, based on such Project Participant's Entitlement Share as a percentage of the total Entitlement Shares of all Project Participants that accepted the portion of the Entitlement Share Reduction Amount offered to them in the initial offering.

b) The CCP Manager shall conduct subsequent offering rounds until either the total Entitlement Share Reduction Amount is accepted by one or more of the other Project Participants or some portion of the Entitlement Share Reduction Amount remains, but all Project Participants have rejected such amount.

c) Any Project Participant accepting a share of the offered Entitlement Share Reduction Amount shall either pay the offering Project Participant or be compensated by the offering Project Participant at the Entitlement Share Reduction Compensation Amount multiplied by the quantity of the portion being accepted.

d) Before a transfer of all or a portion of any Project Participant's Entitlement share to another Project Participant can become effective, the proposed transfer must be submitted to and approved by the Project Committee through a Normal Vote.

e) After acceptance and payment for such portion of the Entitlement Share Reduction Amount, and upon approval of such transfer by the Project Committee, the CCP Manager shall cause the Entitlement Share specified in Exhibit B to be modified accordingly, and such modification shall be considered an element of the administration of this Agreement and shall not require the consent of the Parties hereto.

(C) Oversee the Offering of the Entitlement Share Reduction Amount to CCP Members that are not Project Participants. If there is any portion of the Entitlement Share Reduction Amount that remains unaccepted after the process specified in paragraph (a)(i)(B) is complete, then the Project Participant proposing to reduce its Entitlement Share may request that the CCP Manager offer the remaining portion of the Entitlement Share Reduction Amount to CCP Members that are not Project Participants. If any CCP Member wishes to accept any or all of the remaining portion of the Entitlement Share Reduction Amount, such action shall require the CCP Member to become a Project Participant through an amendment to this Agreement, which shall be subject to the consent and approval of all Parties to this Agreement and the CCP Member becoming a Project Participant. The compensation amount associated with the CCP Member accepting the remaining portion of the Entitlement Share Reduction Amount shall be negotiated between the CCP Member and the offering Project Participant.

(D) Oversee the Offering of the Entitlement Share Reduction Amount to a Community Choice Aggregator that is not a CCP Member. If there is any portion of the Entitlement Share Reduction Amount that remains unaccepted after the process specified in both paragraphs (a)(i)(B) and (a)(k)(C) is complete, then the Project Participant proposing to reduce its Entitlement Share, may request that the CCP Manager offer the remaining portion of the Entitlement Share Reduction Amount to a community choice aggregator that is not a CCP Member. If any community choice aggregator wishes to accept any or all of the remaining portion of the Entitlement Share Reduction Amount, such action shall require the community choice aggregator to become a CCP Member, and subsequent to becoming a CCP Member, to become a Project Participant through an amendment to this Agreement that is subject to the consent and approval of all Parties to this Agreement and the community choice aggregator becoming a Project Participant. The compensation amount associated with the community choice aggregator accepting the remaining portion of the Entitlement Share Reduction Amount shall be negotiated between the community choice aggregator and the offering Project Participant.

### PROJECT COMMITTEE OPERATIONS, MEETINGS, AND VOTING

(a) Chairperson of Project Committee. The chairperson of the Project Committee (“**Chairperson**”) shall be the CCP Manager. The Chairperson shall be responsible for calling and presiding over meetings of the Project Committee in a manner and to the extent permitted by law.

(b) Conducting Meetings. Conducting of Project Committee meetings and actions taken by the Project Committee may be taken by vote given in an assembled meeting, by telephone, by video conferencing, or by any combination thereof, to the extent permitted by law.

(c) Calling of Meetings.

(i) The Chairperson may call a meeting of the Project Committee at their discretion.

(ii) The Chairperson shall promptly call a meeting of the Project Committee at the request of any representative of a Project Participant.

(d) Unanimous Votes. Certain actions, as designated in Section 6.4(c), require a unanimous affirmative vote by all Project Participants (“**Unanimous Vote**”). No such vote may be taken unless a representative from every Project Participant is present at the meeting of the Project Committee. If any Project Participant’s Entitlement Share is reduced to zero through the process specified in Exhibit C, such Project Participant shall not be required to be present or be entitled to vote in order for such vote to be a Unanimous Vote.

(e) Normal Votes. All actions not designated as requiring unanimous vote, shall proceed pursuant to the “**Normal Vote**” process set forth in this paragraph (e).

(i) Quorum. No Normal Vote of the Project Committee shall be taken unless a representative is present for at least fifty percent (50%) of the total number of Project Participants, without regard to each Project Participant’s Entitlement Share.

(ii) Initial Normal Vote. Unless a representative requests an Alternate Normal Vote, pursuant to paragraph (e)(iii), all actions requiring a Normal Vote, as specified in Section 6.4(b) or 6.4(d), shall require an affirmative vote of at least fifty-one percent (51%) of the total number of Project Participants, without regard to each Project Participant’s Entitlement Share.

(iii) Alternate Normal Vote. Any representative may request that any Normal Vote be taken on an Entitlement Share basis (referred to as an “**Alternate Normal Vote**”). If a representative requests an Alternate Normal Vote, then the following vote requirements shall apply:

(A) If any individual Project Participant has an Entitlement Share exceeding fifty percent (50%), then all actions for which an Alternate Normal Vote is taken shall require that the Project Participant with an Entitlement Share exceeding fifty percent (50%) plus any other Project Participant vote in the affirmative.

(B) If no individual Project Participant has an Entitlement Share exceeding fifty percent (50%), then all actions for which an Alternate Normal Vote is taken shall require an affirmative vote of Project Participants having Entitlement Shares aggregating at least fifty-one percent (51%) of the total Entitlement Shares.

### **Section 2.4 Early Termination Rights.**

(a) Notwithstanding anything to the contrary in this Agreement, if Project Participant Approval of this Agreement is not obtained within one hundred twenty (120) days following the Effective Date, then either Party may terminate this Agreement upon written notice to the other Party. Upon such termination, neither Party shall have any liability to the other Party, save and except for those obligations specified in Section 2.3. Seller and Buyer shall cooperate reasonably with each other to accomplish Project Participant Approval in a timely manner. Notwithstanding anything in this Agreement to the contrary, Buyer shall have a one-time right, but not an obligation, to lower the Maximum Capacity to an amount no less than sixty-four (64) MW by delivering to Seller notice of such adjustment no later than the earlier of (i) the date that the Project Participant Approval is obtained and (ii) the date that is one hundred twenty (120) days after the Effective Date. Any such reduction of the Maximum Capacity shall proportionally reduce

the Minimum Capacity. For illustrative purposes only, if the Maximum Capacity is reduced by 10% (from 125 MW to 112.5 MW), then the Minimum Capacity shall be reduced by 10% (from 64 MW to 57.6 MW).

(b) Notwithstanding anything to the contrary in this Agreement, if (i) by September 30, 2024, Seller has provided Proposed Facility Notices to Buyer for Proposed Facilities with Facility Net Capacities that in the aggregate are no lower than the Minimum Capacity for the Project and (ii) by September 30, 2027, no Proposed Facility has been included as an Included Facility in accordance with Section 3.1, then at any time thereafter until the date that Buyer notifies Seller that the Project Participants (A) have obtained Import Capability for Proposed Facilities with Facility Net Capacities that in the aggregate are no lower than the Minimum Capacity for the Project or (B) have elected to include Proposed Facilities with Facility Net Capacities that in the aggregate are no lower than the Minimum Capacity for the Project as Included Facilities, notwithstanding that the Project Participants have not obtained Import Capability for some or all of such Proposed Facilities, Seller may, but is not obligated to, terminate this Agreement upon written notice to Buyer. Upon such termination, neither Party shall have any liability to the other Party, save and except for those obligations specified in Section 2.3, and Buyer shall return the Project Development Security to Seller in accordance with Section 5.9(c).

### **ARTICLE III DEVELOPMENT OF THE FACILITIES**

**Section 3.1 Project Design and Facility Specifications.** Subject to limitations on Project Participants' Import Capability, as set forth below, Seller shall use commercially reasonable efforts to deliver to Buyer, on or before the Final COD Deadline, Project Net Capacity equal to the Maximum Capacity. Seller shall determine the location, design, configuration, and Facility Net Capacity of each Facility, subject to the Requirements and to any conditions which are imposed by any Governmental Authority as part of the environmental review of each Facility required under applicable Federal and Nevada or California Requirements of Law, as applicable; provided, each Facility shall be a Firm Clean Resource and shall have a Commercial Operation Date that occurs no later than the Final COD Deadline. Promptly after Seller determines a Facility should be included in the Project (a "**Proposed Facility**"), Seller shall deliver to Buyer a notice (a "**Proposed Facility Notice**") that (a) includes the Facility Specifications for such Proposed Facility, which shall include the Facility Net Capacity and Primary Point of Delivery for such Proposed Facility, (b) includes the Milestone Schedule for such Proposed Facility, and (c) identifies whether Seller has elected to designate the Proposed Facility as a Pseudo-Tie Resource or a Dynamically Scheduled Resource. Each Proposed Facility shall have an expected Commercial Operation Date that is at least twenty-seven (27) months later than the date on which Seller delivers a Proposed Facility Notice, and Seller shall not deliver a Proposed Facility Notice to Buyer after the date that is twenty-seven (27) months prior to the Final COD Deadline without Buyer's prior written consent, which Buyer may withhold in Buyer's absolute discretion; provided, however, that Seller shall have the right to declare the Commercial Operation Date prior to the date that is twenty-seven (27) months after the date that Seller delivers a Proposed Facility Notice so long as such Commercial Operation Date is no less than twelve (12) months after the date that Seller delivers a Proposed Facility Notice. Buyer shall cause the Project Participants to use commercially reasonable efforts to obtain Import Capability necessary to import the Facility Net Capacity of each Proposed Facility into the CAISO at the Primary Point of Delivery for such

Proposed Facility, and Buyer shall notify Seller as soon as reasonably practicable after receipt of the Proposed Facility Notice either (A) that the Project Participants have been able to obtain such Import Capability or have elected to include the Proposed Facility in the Project without obtaining Import Capability such that the Proposed Facility will be included in the Project (“**Included Facility**”), or (b) that the Project Participants have been unable to obtain such Import Capability such that the Proposed Facility will not be added to the Project (“**Excluded Facility**”), and both the Maximum Capacity of the Project and the Minimum Capacity of the Project will be reduced by the Facility Net Capacity of the Excluded Facility(ies). If Buyer fails to notify Seller that the Proposed Facility is an Included Facility or an Excluded Facility by the date that is twenty-four (24) months prior to the Final COD Deadline, then the Final COD Deadline shall be extended on a day-for-day basis for each day until the date that Buyer provides such notice to Seller or Seller withdraws the Proposed Facility Notice due to Buyer’s failure to notify Seller that the Proposed Facility is an Included Facility or an Excluded Facility, which withdrawal shall become effective ten (10) Business Days after Seller’s delivery to Buyer of written notice of the withdrawal, unless Buyer notifies Seller that the Proposed Facility shall be an Included Facility within such ten (10) Business Day period. An illustrative list of potential Facilities is included in Appendix N; provided, however, that Appendix N is for illustrative purposes only, and no Facility shall be added to the Project unless and until such Facility is added pursuant to the process set forth in this Section 3.1.

### **Section 3.2 Permitting and CEQA Exemption.**

(a) Seller, at its expense, shall timely take, or cause its Affiliates to take, all steps necessary to obtain all Permits required to construct, maintain, or operate each Facility, including drilling of the geothermal wells of the Facility, in accordance with the Requirements, including the timely preparation of all environmental documents required to have the applicable Facility reviewed under applicable Federal and Nevada law to the extent required under such law.

(b) The Parties acknowledge and agree that (a) each Facility will be subject to environmental review pursuant to NEPA in connection with the procurement of rights-of-way from the U.S. Department of the Interior, Bureau of Land Management for the construction and installation of certain electrical facilities, (b) pursuant to that law, Seller will, or will cause its Affiliates to, submit to and complete the NEPA Environmental Assessment with respect to each Facility, and (c) each Facility that will be located in Nevada is statutorily exempt from CEQA pursuant to Title 14, California Code of Regulations, Section 15277.

**Section 3.3 Performance Testing Conditions Criteria.** For each Facility, no later than Construction Start for such Facility, Seller shall deliver to Buyer ambient conditions criteria and a cooling water correction curve applicable to the performance testing that will be performed to demonstrate the peak electrical output of such Facility (collectively, the “**Performance Testing Conditions Criteria**”).

**Section 3.4 Site Confirmation.** For each Facility for which Seller has delivered the Facility Specifications to Buyer, Seller represents and warrants that (a) Seller’s agents and representatives have visited, inspected, and are familiar with each Site and its surface physical condition relevant to the obligations of Seller pursuant to this Agreement, including surface conditions, normal and usual soil conditions, roads, utilities, and topographical, solar radiation,

air, and water quality conditions, (b) to its knowledge, Seller is familiar with all local and other conditions that may be material to Seller's performance of its obligations under this Agreement (including transportation, seasons and climate, access, weather, handling and storage of materials and equipment, and availability and quality of labor and utilities), and (c) Seller has determined that the Site constitutes an acceptable and suitable site for the construction (if applicable) and operation of such Facility in accordance herewith. Any failure by Seller to have taken or to take the actions described in this Section 3.4 shall not relieve Seller from any responsibility for estimating properly the difficulty and cost of successfully constructing (if applicable), maintaining or operating a Facility in accordance with this Agreement or from proceeding to construct (if applicable), maintain, and operate such Facility successfully without any additional expense to Buyer. At all times after delivery to Buyer of the Facility Specifications for a Facility, Seller shall have "Site Control" for such Facility, which means that Seller or its Affiliates shall own the Site, have a right-of-way with respect to the Site, or be the lessee of the Site under a lease which permits Seller to perform its obligations under the Agreement and the Seller Ancillary Documents. Seller shall provide Buyer with prompt notice of any change in the status of Seller's Site Control. Seller shall not take any action or permit any action to be taken at or with respect to the Site that has a material adverse effect upon the applicable Facility or the geothermal resource, or the generating capability of the applicable Facility.

**Section 3.5 Certification of Commercial Operation Dates.** When Seller has determined that all requirements under this Agreement for achieving Commercial Operation of a Facility have been satisfied, Seller shall provide Buyer with a certificate from the Licensed Professional Engineer substantially in the form of Appendix K, together with notice that the other conditions precedent specified in the definition of "Commercial Operation" in Section 1.1 have been satisfied in respect of such Facility. Buyer shall either accept or reject the notice in its reasonable discretion by delivering a notice to Seller in writing within thirty (30) Business Days. If Buyer fails to respond within thirty (30) Business Days, it shall be deemed to have accepted the notice. If Buyer rejects the notice, Buyer shall state in detail the reasons for its rejection and the Parties shall immediately meet and confer to address Buyer's concerns. Commercial Operation of the Facility shall be deemed to have occurred on the date that the requirements for Commercial Operation are satisfied, which date may be earlier than the date on which Buyer accepts Seller's notice that Commercial Operation has occurred and/or the date on which any concerns that Buyer expresses in connection with Seller's notice are resolved; provided the Parties acknowledge or are deemed to have acknowledged, or it is determined through dispute resolution, that all such requirements for Commercial Operation, as applicable, for such Facility have been satisfied on such earlier date.

**Section 3.6 Milestone Schedule.** For each Facility that is added to the Project pursuant to the process set forth in Section 3.1, within fifteen (15) days after the close of (i) each calendar quarter from the first calendar quarter following the date on which such Facility is added to the Project until the Construction Start for such Facility, and (ii) each calendar month from the first calendar month following Construction Start until the Commercial Operation Date for such Facility, Seller shall provide to Buyer a Progress Report and agrees to regularly scheduled meetings between representatives of Buyer and Seller to review such reports and discuss Seller's construction progress. The form of the Progress Report is set forth in Appendix O. Seller shall also provide Buyer with any reasonably requested documentation (subject to confidentiality restrictions) directly related to the achievement of Milestones within ten (10) Business Days of

receipt of such request by Seller. Seller shall achieve each Milestone by the Milestone Date specified therefor in the Milestone Schedule for such Facility, provided that such Milestone Date may be extended by Seller by providing to Buyer notice of such extension at least fifteen (15) days (or, in the event of a Force Majeure concerning which fifteen (15) days advance notice is not practicable, as soon as practicable) prior to such Milestone Date, including the cause of the delay, if known, (e.g., governmental approvals, financing, property acquisition, design activities, equipment procurement, project construction, interconnection, or any other factor) and Seller's description of its proposed course of action to achieve the missed Milestone by the extended Milestone Date. The date specified for each Milestone shall be the Milestone Date for achieving such Milestone, provided that, if and to the extent such date shall be extended as provided in this Section 3.6, the extended date shall be the new Milestone Date for purposes of this Agreement. Notwithstanding anything herein to the contrary, Seller shall not be in default or otherwise have any liability under this Agreement for failing to meet a Milestone Date, other than to the extent provided in Section 3.7 of this Agreement. To the extent that Seller determines that, due to Seller's inability to satisfy one or more Milestones timely, a Facility is unlikely to achieve Commercial Operation by the Final COD Deadline, Seller shall be entitled to deliver to Buyer a notice that removes such Facility from the Project; provided, however, that if Buyer has notified Seller that the Project Participants have secured Import Capability sufficient to import Capacity Attributes from such Facility into the CAISO Market, then within thirty (30) days after the notice of removal, Seller shall deliver to buyer a Proposed Facility Notice that identifies a replacement Proposed Facility that would use but not exceed such Import Capability and that will achieve Commercial Operation by the Final COD Deadline.

### **Section 3.7 Performance Damages.**

(a) **Failure to Achieve Minimum Capacity by the Final COD Deadline.** If the Project Net Capacity as of the Final COD Deadline is less than the Minimum Capacity, then, subject to Section 3.7(d), Seller shall pay liquidated damages to Buyer in an amount equal to [REDACTED] ("*Delay Damages*") of difference between the Minimum Capacity and the Project Net Capacity per day for each day intervening between the Final COD Deadline and the earliest of (i) the date that the Project Net Capacity becomes equal to or greater than the Minimum Capacity, and (ii) the date that is one hundred eighty (180) days after the Final COD Deadline ("*Minimum Capacity Cure Date*"). If the Project Net Capacity as of the Minimum Capacity Cure Date is less than the Minimum Capacity, then, subject to Section 3.7(d), (A) Seller shall pay to Buyer an amount equal to [REDACTED] ("*Capacity Buydown Damages*") and (B) the Minimum Capacity shall be revised to equal the Project Net Capacity as of the Minimum Capacity Cure Date. Seller shall provide to Buyer a written notice of such revised Minimum Capacity.

(b) **[Reserved].**

(c) **Payment of Delay Damages and Capacity Buydown Damages.** For each month during which Delay Damages have accrued, within twenty (20) Business Days after the end of such month, Seller shall deliver to Buyer a written statement of the amount of the applicable liquidated damages that accrued during such month in accordance with Section 3.7(a), together with payment thereof. Within twenty (20) Business Days after the Minimum Capacity Cure Date,

Seller shall pay Buyer any Capacity Buydown Damages required to be paid to Buyer in accordance with Section 3.7(a).

(d) **Delay Damages and Capacity Buydown Damages Cap.** Notwithstanding anything to the contrary herein, Seller's obligation to pay Delay Damages and Capacity Buydown Damages, in the aggregate, shall not exceed an amount equal to two hundred percent (200%) of the amount of the Project Development Security (as the same may have been recalculated in accordance with Section 5.9(a)).

(e) Damages that Buyer would incur due to (i) Seller's failure to achieve a Project Net Capacity that meets the Minimum Capacity by the Final COD Date, or (ii) Seller's failure to achieve a Project Net Capacity that meets the Minimum Capacity by the Minimum Capacity Cure Date, would be difficult or impossible to predict with certainty, and it is impractical or difficult to assess actual damages in those circumstances, but the Delay Damages and Capacity Buydown Damages set forth in Sections 3.7(a) are fair and reasonable calculations of such damages. Buyer's right to collect liquidated damages pursuant to Sections 3.7(a) is Buyer's sole and exclusive remedy for any failure by Seller to achieve any required level of Project Net Capacity by the Minimum Capacity Cure Date.

**Section 3.8 Notice of Facility Net Capacity and Primary Point of Delivery.** At least one (1) year prior to the Commercial Operation Date of a Facility, Seller shall provide notice to Buyer confirming (a) the Facility Net Capacity for such Facility, subject to adjustment pursuant to Section 3.9 below, and (b) the Primary Point of Delivery for such Facility. If Seller proposes to increase the Facility Net Capacity of a Facility or to change the Primary Point of Delivery for a Facility, and the Parties do not mutually agree to the proposed increase to the Facility Net Capacity or the proposed change to the Primary Point of Delivery for a Facility, as applicable, (such agreement not to be unreasonably withheld, conditioned or delayed), then, unless Seller withdraws its proposal to increase the Facility Net Capacity or change the Primary Point of Delivery, as applicable, the Proposed Facility will be removed from the Project.

**Section 3.9 Revision of Facility Net Capacity.** No less than thirty (30) days prior to a Facility's Commercial Operation, Seller has the right, (a) without Buyer's consent, to reduce the Facility Net Capacity for such Facility, or (b) with Buyer's consent, to increase the Facility Net Capacity for such Facility, in either case by providing notice to Buyer stating the reduced or increased Facility Net Capacity ("**Revised Net Capacity**") and evidence reasonably demonstrating (i) the sustained operation of the Facility for at least five (5) consecutive hours at a delivery rate of at least ninety percent (90%) of the Revised Net Capacity (net of providing the full requirements for Parasitic Load and net of transmission losses) as measured by the Electric Metering Devices at the Primary Point of Delivery, as adjusted to reflect nominal resource temperature and flow rates and other environmental conditions in accordance with the Performance Testing Conditions Criteria for such Facility, and (ii) the delivery of Energy equal to at least the product of ninety percent (90%) of the Revised Net Capacity for each of one hundred twenty (120) consecutive hours (net of providing the full requirements for Parasitic Load and net of transmission losses) as measured by the Electric Metering Devices at the Primary Point of Delivery, as adjusted to reflect resource temperature and flow rates and other environmental conditions in accordance with the Performance Testing Conditions Criteria for such Facility. Notwithstanding the prior sentence, no reduction to Facility Net Capacity pursuant to this Section 3.9 shall reduce the Minimum Capacity.

Buyer shall either accept or reject a notice increasing the Facility Net Capacity in its reasonable discretion by delivering a notice to Seller in writing within thirty (30) days. If Buyer fails to respond within thirty (30) days, it shall be deemed to have accepted the notice. If Buyer rejects the notice, Buyer shall state in detail the reasons for its rejection. The Parties shall immediately meet and confer to address Buyer's concerns. Upon Buyer's acceptance, or deemed acceptance, of the notice, the Facility Net Capacity will be revised to equal the Revised Net Capacity specified in the notice, effective as of the date that Seller provided its notice to Buyer. If Buyer rejects a proposal to increase the Facility Net Capacity, the Facility Net Capacity will remain unchanged. Notwithstanding anything to the contrary in the first sentence of this Section 3.9, if Seller provides a notice revising the Facility Net Capacity of more than one Facility that will deliver Energy to the same Primary Point of Delivery, then if the aggregate Facility Net Capacities of all such Facilities does not increase, then Buyer's consent shall not be required to increase the Facility Net Capacity of any individual Facility.

**Section 3.10 Delivery of Energy Prior to Commercial Operation Date.** For each Facility, prior to the Commercial Operation Date of such Facility, Seller shall sell and deliver to the Points of Delivery, and Buyer shall purchase and receive at and from the Points of Delivery, the Delivered Energy associated with such Facility for a maximum of thirty (30) days at the price set forth in Section 1 of Appendix A; provided, in no event shall Buyer be obligated to purchase or receive Delivered Energy in excess of the Maximum Generation unless Buyer shall by notice given to Seller elect to purchase any such Energy in excess of Maximum Generation. For avoidance of doubt, Buyer shall have no obligation to purchase and receive Delivered Energy for more than thirty (30) days from any Facility that has not achieved Commercial Operation.

**Section 3.11 Facility Removal for Failure to Obtain CEC Certification.** Seller shall remove from the Project any Facility or Facilities that have achieved Commercial Operation under this Agreement but have not been CEC Certified by the date that is (a) one hundred eighty (180) days following such Facility's Commercial Operation Date if such failure to be CEC Certified is the result of Seller's fault or negligence (including any failure to submit timely required documentation to the CEC) or (b) three hundred sixty (360) days following such Facility's Commercial Operation Date if such failure to be CEC Certified is not the result of Seller's fault or negligence. Seller shall provide notice to Buyer and remove such Facility from the Project and upon delivery of such notice the Project Net Capacity will be reduced by the amount of the Facility Net Capacity associated with such Facility and the Guaranteed Generation reduced in accordance with the reduced Project Net Capacity. If such Facility removal occurs after the Minimum Capacity Cure Date, Buyer shall calculate in a commercially reasonable manner, and consistent with Section 13.3(b), the positive amount, if any, calculated as its Costs, *plus* Losses, *minus* Gains with respect to such reduction in Project Net Capacity; provided, Costs, Losses and Gains shall all be determined with respect to the reduction in Project Net Capacity rather than with respect to termination of all obligations under this Agreement, and further provided that, if the result of the foregoing calculation is negative, no amount shall be due to Seller. As soon as reasonably practical, Buyer shall provide notice to Seller of such damages along with a demand for payment, which demand shall be provided with a written statement explaining in reasonable detail the calculation of the demanded amount. Within ten (10) Business Days after receipt of such demand and written statement, Seller shall pay the undisputed amount of such demand and provide written notice of any disputed amount (if any), which dispute shall be resolved in accordance with Section 14.3. If Buyer prevails in any such dispute, then Seller shall pay the amount determined to be due to Buyer,

together with interest on such amount calculated at the Interest Rate from the original due date until the date paid. If, before the dispute is resolved, Buyer draws on the Delivery Term Security for any disputed amount and Seller thereafter prevails in the dispute, then Buyer (i) shall be required to refund the amount of the erroneous draw, together with interest calculated at the Interest Rate from the date of the draw through the date of refund and (ii) shall pay to Seller any documented costs and expenses incurred by Seller due to the erroneous draw on the Delivery Term Security. If Seller fails to pay or dispute the amount of a demand within ten (10) Business Days after receipt of Buyer's demand and supporting written statement, then Buyer shall be entitled to draw from the Delivery Term Security the unpaid amount. Payment of the damages as described in this Section 3.11 are Buyer's sole and exclusive remedies for Seller's failure to obtain CEC Certification for a Facility.

**Section 3.12 [Reserved].**

**Section 3.13 Decommissioning and Other Costs.** Buyer shall not be responsible for any cost of decommissioning or demolition of any Facility or any part thereof or any environmental or other liability associated with the decommissioning or demolition without regard to the timing or cause of the decommissioning or demolition.

**ARTICLE IV  
OPERATION AND MAINTENANCE OF THE FACILITY**

**Section 4.1 General Operational Requirements.** Seller shall, at all times:

(a) At its sole expense, operate and maintain, or cause an Affiliate to operate and maintain, each Facility (i) in accordance with the Requirements, and (ii) in a manner that, to the extent commercially reasonable to do so, is reasonably likely to maximize the output of Energy and Capacity Attributes from the Facility and result in a useful life for the Facility of not less than twenty (20) years;

(b) Employ, or cause an Affiliate to employ, qualified and trained personnel for managing, operating, and maintaining each Facility and for coordinating with Buyer, and ensure that necessary personnel are available on-site or on-call and available to be on Site within four (4) hours, twenty-four (24) hours per day, each day during the Delivery Term;

(c) Operate and maintain, or cause an Affiliate to operate and maintain, each Facility with due regard for the safety, security, and reliability of the interconnected facilities and Transmission System; and

(d) Comply, or cause compliance, to the extent commercially reasonable to do so, with operating and maintenance standards recommended or required by each Facility's equipment suppliers.

**Section 4.2 Operation and Maintenance Plan; Operation and Maintenance Reports.** Seller shall devise and implement, or cause an Affiliate to devise and implement, a plan of inspection, maintenance, and repair for each Facility and the components thereof in order to maintain such equipment in accordance with Prudent Utility Practices, and shall keep, or cause to be kept, records with respect to inspections, maintenance, and repairs thereto. The aforementioned

plan and all records of such activities shall be available for inspection by Buyer during Seller's regular business hours upon reasonable notice; provided that Buyer shall at all times comply with Seller's or the contractor's safety and security requirements when present at any Facility.

**Section 4.3 Environmental Credits.** Seller or its Affiliates shall, if applicable, obtain in its own name and at its own expense all pollution or environmental Permits, credits or offsets necessary to operate each Facility in compliance with the Requirements of Law.

**Section 4.4 Planned and Forced Outages.**

(a) Seller shall schedule all Planned Outages within the time-period determined by the CAISO for each Facility as a Resource Adequacy Resource that is subject to the Availability Standards (as defined in the CAISO Tariff) to qualify for an "Approved Maintenance Outage" under the CAISO Tariff. Seller shall reimburse Buyer for any documented cost incurred by a Project Participant to provide substitute Capacity Attributes, as required by the CAISO, during any Planned Outages, whether as originally scheduled or as rescheduled in accordance with this Section 4.4(a) (including, to the extent actually incurred and documented by Project Participants, the cost of procuring replacement Capacity Attributes for a full calendar month during any month in which a Planned Outage is planned or scheduled). Notwithstanding the foregoing, Seller shall not be permitted to schedule Planned Outages during the months of June through September each Contract Year (the "**Major Maintenance Blockout**"). No later than sixty (60) days prior to the anticipated commencement of the first (1<sup>st</sup>) Contract Year and the commencement of each Contract Year thereafter, Seller shall provide Buyer with its non-binding written projection of all Planned Outages for the succeeding three (3) years (the "**Planned Outage Projection**") reflecting no scheduled maintenance during the Major Maintenance Blockout. The Planned Outage Projection shall include information concerning all projected Planned Outages during such period, including (i) the anticipated start and end dates of each Planned Outage; (ii) a description of the maintenance or repair work to be performed during the Planned Outage; and (iii) the MW capacity anticipated to be impacted, if any, during the Planned Outage. Seller shall notify Buyer of any change in the Planned Outage Projection as soon as practicable; provided that Major Maintenance shall not be performed more than one week before or after the scheduled time without Buyer's consent unless (i) for changes that move the date of Major Maintenance to an earlier date, Seller provides notice of the change at least fifty (50) Business Days prior to the first day of the month in which such Major Maintenance is to be rescheduled, and (ii) for changes that move the date of such Major Maintenance to a later date, Seller provides notice of the change prior to the first day of the month in which such Major Maintenance was originally scheduled. Seller will use commercially reasonable efforts to accommodate reasonable requests of Buyer with respect to the timing of Planned Outages and Seller will, to the extent consistent with Prudent Utility Practices, coordinate Planned Outages to coincide with planned transmission outages. In the event of a System Emergency, Seller shall make all reasonable efforts to reschedule any Planned Outage previously scheduled to occur during the System Emergency.

(b) In the event of a Forced Outage affecting at least seven and a half (7.5) MW of Project Net Capacity which Seller anticipates shall be of a duration more than one (1) hour, to the extent practicable, Seller shall notify Buyer by email as soon as possible and shall make efforts to provide such notification within the hour of the commencement of the Forced Outage and, within seven (7) days thereafter, provide Buyer detailed information concerning the Forced

Outage, including (i) the start and anticipated end dates of the Forced Outage; (ii) a description of the cause of the Forced Outage; (iii) a description of the maintenance or repair work to be performed during the Forced Outage; and (iv) the anticipated MW capacity, if any, during the Forced Outage. Seller shall take all reasonable measures and exercise commercially reasonable efforts to avoid Forced Outages and to limit the duration and extent of any such outages.

**Section 4.5 Facility Operation.** Each Facility shall be operated during the Delivery Term by Seller or an Affiliate of Seller that is under the Control of Seller or such other Person(s) as Seller or the applicable Project Company may contract with from time to time under an agreement for the operation of such Facility; provided that such agreement shall provide Seller with the rights, as a creditor, beneficiary or otherwise, to enforce such agreement so as to ensure compliance with all applicable provisions of this Agreement. The agreement with respect to the operations of such Facility shall require that such Facility be operated in a manner that is in full compliance with the Requirements. Seller shall provide to Buyer a copy of the relevant operations agreement (which may be redacted to remove confidential information of the parties thereto).

## **ARTICLE V COMPLIANCE DURING OPERATION PERIOD; GUARANTEES**

**Section 5.1 Guarantees.** Seller warrants and guarantees that (i) it will perform, or cause to be performed, all engineering, design, development, construction, operation and maintenance of each Facility in a good and workmanlike manner and in accordance with the Requirements; and (ii) throughout the Delivery Term (a) each Facility, its engineering, design and construction, its components, and related work, will be free from material defects caused by errors or omissions in design, engineering and construction or repaired as provided below, (b) each Facility will be free and clear of all Liens other than Permitted Encumbrances, and (c) each Facility and all parts thereof will be designed, constructed, tested, operated and maintained in material compliance with the Requirements, all applicable requirements of the latest revision of the ASTM, ASME, AWS, EPA, IEEE, ISA, National Electrical Code, National Electric Safety Code, and OSHA, as applicable, and the Uniform Building Code, Uniform Plumbing Code, and the applicable local County Fire Department Standards of the applicable county. Seller shall promptly repair or replace, or cause to be repaired or replaced, consistent with Prudent Utility Practice, any component of a Facility that does not comply with the foregoing warranties and guarantees. Seller shall at all times exercise commercially reasonable efforts to undertake, or cause to be undertaken, all recommended or required updates or modifications to each Facility, and its equipment and materials, including procedures, programming and software in a timely manner. Seller shall, at its expense, maintain or cause to be maintained throughout the Delivery Term an inventory of spare parts for each Facility in a quantity that is consistent with manufacturers' recommendations and Prudent Utility Practice.

**Section 5.2 Buyer's Right to Monitor in General.** At Buyer's sole expense and without interfering with Seller's or its Affiliates' activities at the Facility, Buyer shall have the right, and Seller shall permit Buyer and its representatives, advisors, engineers, and consultants, to observe, inspect, and monitor all operations and activities at each Site, including the performance of the contractors under the construction contracts pertaining to such Facility, the design, engineering, procurement, and installation of the equipment, start up and testing, and the achievement of Commercial Operation; provided that Buyer shall at all times comply with Seller's,

the contractor's or the operator's safety and security requirements when present at the Facility. Notwithstanding the foregoing, Seller shall have the right and Buyer shall permit Seller to withhold any proprietary information, including with respect to proprietary intellectual property of Seller; provided that such information shall be provided by Seller to Buyer to the extent required by Buyer to enforce its rights or to carry out its responsibilities under this Agreement. In addition, Buyer shall hold any information obtained during or in connection with such monitoring in confidence pursuant to Section 14.21.

**Section 5.3 Effect of Review by Buyer.** Any review by Buyer of the design, construction, engineering, operation or maintenance of a Facility is solely for the information of Buyer. Buyer shall have no obligation to share the results of any such review with Seller, nor shall any such review or the results thereof (whether or not the results are shared with Seller) nor any failure to conduct any such review relieve Seller from any of its obligations under this Agreement. By making any such review, Buyer makes no representation as to the economic and technical feasibility, operational capability or reliability of a Facility. Seller shall in no way represent to any third party that any such review by Buyer of a Facility, including, but not limited to, any review of the design, construction, operation or maintenance of the Facility by Buyer, is a representation by Buyer as to the economic and technical feasibility, operational capability, or reliability of the Facility. Seller is solely responsible for the economic and technical feasibility, operational capability and reliability thereof.

**Section 5.4 Reporting and Information; Administration and Periodic Reporting.**

(a) Seller shall provide to Buyer such other information regarding the permitting, engineering, construction, or operation of each Facility by Seller or its subcontractors and other data concerning Seller, its subcontractors and the Facilities as Buyer may, from time to time, reasonably requested in order to enforce its rights or discharge its responsibilities under this Agreement. Notwithstanding the foregoing, Seller shall have the right and Buyer shall permit Seller to withhold any proprietary information, including with respect to the intellectual property of Seller; provided that such information shall be provided by Seller to Buyer to the extent required by Buyer to enforce its rights or to carry out its responsibilities under this Agreement. In addition, Buyer shall hold any Confidential Information obtained during or in connection with such monitoring in confidence pursuant to Section 14.21.

(b) Seller shall perform administrative and periodic reporting to Buyer which shall include the following:

(i) Safety matters including monthly reports, including OSHA recordable and non-recordable incidents and site safety information;

(ii) Monthly operational reports with respect to Facility activities, including plant performance, capacity factor, availability, weather and generation data, and in each case confirming that applicable contractual requirements have been met;

(iii) Any notice of non-compliance with NERC and FERC rules or regulations;

(iv) Any environmental contamination that Seller or its Affiliates, and any of their contractors, become aware of at any Site; and

(v) Any information that is requested by the CPUC with respect to a Facility, this Agreement, or the Project.

**Section 5.5 Initial Performance Test.** Prior to the Commercial Operation Date for each Facility, Seller shall provide to Buyer the opportunity, at Buyer's sole expense and without interfering with Seller's or its Affiliates' activities at the Facility, to:

(a) review and monitor the contractors' performance and achievement of all initial performance tests and all other tests required under the Facility construction contracts performed to achieve the Commercial Operation Date, and Seller shall, or shall cause its contractor, to provide at least ten (10) Business Days prior notice to Buyer before any such test begins; provided that Buyer shall at all times comply with Seller's or the contractor's safety and security requirements when present at the Facility;

(b) be present to witness such initial performance tests and review the results thereof; provided that Buyer shall at all times comply with Seller's or the contractor's safety and security requirements when present at the Facility; and

(c) perform such detailed examinations, inspections, quality surveillance, and tests as are appropriate and advisable to determine that the Facility equipment and all ancillary components of the Facility have been installed in accordance with the Facility construction contracts and the Requirements.

**Section 5.6 Contract Provisions.** For each Facility, Seller shall cause to be included in the Facility construction contracts provisions whereby the contractors and Seller:

(a) grant to Buyer, at Buyer's sole expense and without interfering with Seller's or the construction contractors' activities at the Facility, rights of access to the Facility at all reasonable times (but subject to reasonable safety precautions) and the right to inspect, make notes about, and copy all documents, drawings, plans, specifications, permits, test results, and information as Buyer may reasonably request; provided that Buyer shall at all times comply with Seller's or the contractor's safety and security requirements when present at the Facility. Notwithstanding the foregoing, Seller shall have the right and Buyer shall permit Seller to withhold any proprietary information, including with respect to intellectual property of Seller; provided that such information shall be provided by Seller to Buyer to the extent required by Buyer to enforce its rights or to carry out its responsibilities under this Agreement. In addition, Buyer shall hold any Confidential Information obtained during or in connection with such monitoring in confidence pursuant to Section 14.21;

(b) make the personnel of, and consultants to, the contractors and Seller available to Buyer and its agents, representatives and consultants for a reasonable number of hours, at reasonable times, and with reasonable prior notice for purpose of discussing any aspect of the Facility or the development, engineering, construction, installation, testing, or performance thereof; and

(c) otherwise cooperate in all reasonable respects with Buyer and its Authorized Representatives, advisors, engineers and consultants in order to allow Buyer to exercise its rights under this Section 5.6.

**Section 5.7 Quality Assurance Program; Routine and Preventive Maintenance Services.**

(a) Seller shall develop a written quality assurance policy (“*Quality Assurance Program*”) in accordance with the requirements of Appendix H within sixty (60) days prior to commencement of construction on the first Facility, and Seller shall cause all work performed on or in connection with each Facility to comply with said Quality Assurance Program.

(b) Seller shall perform, or cause to be performed, routine and preventive maintenance services in accordance with manufacturers’ instructions and Prudent Utility Practices, including:

(i) Conducting regular equipment inspections and recording any noncompliance with applicable standard specifications for the equipment, and reporting any noncompliance that materially and adversely affects a Facility’s performance or is likely to materially and adversely affect a Facility’s performance and any defective conditions or operational failures with respect to the equipment to Buyer;

(ii) Performing all required preventive maintenance, including meter calibration and testing, and scheduling and arranging for routine maintenance during operations and planned outages, and for maintenance that can be conducted during a Forced Outage;

(iii) Conducting periodic maintenance to equipment in accordance with Prudent Utility Practices, and providing a report thereof to Buyer;

(iv) Conducting monthly quality assurance inspections of Facility plant and equipment and providing a report thereof to Buyer.

**Section 5.8 No Liens.** Except as otherwise permitted by this Agreement, each Facility shall be owned by Seller or an Affiliate of Seller. Seller shall not, and shall cause its Affiliates not to, other than to another Affiliate, sell, transfer or otherwise dispose of or create, incur, assume or permit to exist any Lien (other than Permitted Encumbrances) on any portion of any Facility without the prior written consent of Buyer.

**Section 5.9 Seller Performance Security.**

(a) Within thirty (30) days following the date that the Project Participant Approval has been received, Seller shall have furnished to Buyer a letter of credit issued by a Qualified Issuer substantially in the form of Appendix E, as such form may be modified with the consent of Buyer (not to be unreasonably withheld, conditioned or delayed), in an amount equal to [REDACTED]

[REDACTED] which shall secure all of Seller’s obligations to pay liquidated damages under Section 3.7 (“*Project Development Security*”). Seller shall maintain such Project Development

Security until Buyer is required to return the Project Development Security under Section 5.9(c) below. Any reduction of the Minimum Capacity pursuant to Section 2.4 or Section 3.1 shall result in the recalculation of the amount of Project Development Security and Seller shall be entitled to reduce the Project Development Security in accordance with such calculation. In the event that Buyer draws on the Project Development Security at any time, Seller shall within ten (10) Business Days thereafter replenish such Project Development Security; provided, however, that in no event shall the aggregate amount of the original posting of Project Development Security plus all such replenishments exceed an amount equal to two hundred percent (200%) of the applicable amount of Project Development Security required to be maintained by Seller at the time of any such replenishment.

(b) As a condition to the achievement of Commercial Operation for each Facility, Seller shall have furnished to Buyer (i) one or more guarantees from a Qualified Guarantor substantially in the form of Appendix G, as such form may be modified with the consent of Buyer (not to be unreasonably withheld, conditioned or delayed), (ii) a letter of credit issued by a Qualified Issuer substantially in the form of Appendix E, as such form may be modified with the consent of Buyer (not to be unreasonably withheld, conditioned or delayed), or (iii) a combination of any of the foregoing, in the aggregate amount equal to [REDACTED]

[REDACTED], which shall guarantee Seller's obligations under this Agreement following the Commercial Operation Date ("***Delivery Term Security***"). From and after the Commercial Operation Date for a Facility, Seller shall maintain the corresponding Delivery Term Security until Buyer is required to return the Delivery Term Security to Seller as set forth in Section 5.9(d) below; provided that Seller may, from time to time, replace any portion of the Delivery Term Security with another form of Delivery Term Security meeting the foregoing requirements. In the event that Buyer draws on the Delivery Term Security at any time, Seller shall within ten (10) Business Days thereafter replenish such Delivery Term Security.

(c) Upon the earliest to occur of (i) the Project Net Capacity is increased to an amount that is equal to or greater than the Minimum Capacity, (ii) this Agreement is terminated while the Project Development Security is outstanding, or (iii) Seller's payment of Capacity Buydown Damages in accordance with Section 3.7(a), Seller shall no longer be required to maintain the Project Development Security, and Buyer shall return to Seller the Project Development Security, less any and all amounts drawn by Buyer as permitted under the terms of this Agreement. The Project Development Security (or portion thereof) due to Seller after any and all amounts are drawn by Buyer as permitted under the terms of this Agreement shall be returned to Seller within five (5) Business Days after the first event described in clauses (i) through (iii) of this Section 5.9(c) occurs.

(d) Buyer shall return the unused portion of Delivery Term Security, if any, to Seller promptly after both of the following have occurred: (i) the Agreement Term has ended, and (ii) all obligations of Seller arising under this Agreement are paid (whether directly or indirectly such as through set-off or netting) or performed in full.

(e) Seller shall notify Buyer of the occurrence of a Downgrade Event within five (5) Business Days after obtaining knowledge of the occurrence of such event. If at any time there shall occur a Downgrade Event, then Buyer may require that Seller replace the Performance

Security from the Person that has suffered the Downgrade Event within ten (10) Business Days after notice from Buyer to Seller requesting such replacement Performance Security. In the event that such replacement Performance Security is not so provided by Seller, Buyer shall have the right to demand payment of the full amount of such Performance Security and retain such amount in order to secure Seller's obligations under this Section 5.9 and other applicable provisions of this Agreement. In such case, Buyer shall hold the demanded amount in an escrow account until the earlier of (i) Seller's delivery of replacement Performance Security, upon receipt of which Buyer shall return to Seller the portion of the Performance Security then remaining in the escrow account within ten (10) Business Days and (ii) the date that the applicable Performance Security is required to be returned to Seller in accordance with Section 5.9(c) for the Project Development Security or Section 5.9(d) for the Delivery Term Security.

(f) If any Performance Security is in the form of a letter of credit, then Seller shall either provide, or cause to be provided, a replacement letter of credit or guarantee (from a Qualified Issuer or Qualified Guarantor, as applicable) in the required amount set forth in this Section 5.9 within ten (10) Business Days after the earlier of the date that Seller becomes aware, or Buyer notifies Seller of the occurrence of any one of the following events:

- (i) the failure of the issuer of the letter of credit to renew such letter of credit thirty (30) Business Days prior to the expiration of such letter of credit;
- (ii) the failure of the issuer of the letter of credit to immediately honor Buyer's properly documented request to draw on such letter of credit; or
- (iii) the issuer of the letter of credit suffers a Bankruptcy.

(g) If any Performance Security is in the form of a guarantee, then Seller shall either provide, or cause to be provided, a replacement guarantee or letter of credit (from Qualified Guarantor or Qualified Issuer, as applicable) in the required amount set forth in this Section 5.9 within ten (10) Business Days after the earlier of the date that Seller becomes aware, or Buyer notifies Seller, of the occurrence of any one of the following events:

- (i) the failure of the guarantor to make a payment thereunder immediately following Buyer's properly documented claim made pursuant to the guarantee in accordance with its terms;
- (ii) any representation or warranty made by the guarantor in connection with this Agreement is false or misleading in any material respect when made or when deemed made or repeated;
- (iii) the guarantor suffers a Bankruptcy;
- (iv) the guarantee fails to be in full force and effect in accordance with the terms of this Agreement prior to the satisfaction of all obligations of Seller under this Agreement; or
- (v) the guarantor repudiates, disaffirms, disclaims, or rejects, in whole or in part, or challenges the validity of, its guarantee.

(h) In the event that a replacement letter of credit or guarantee is not delivered in accordance with Section 5.9(f) or (g), as applicable, Buyer shall have the right to demand payment of the full amount of the letter of credit or the guarantee, as applicable. In such case, Buyer shall hold the demanded amount in an escrow account until the earlier of (i) Seller's delivery of replacement Performance Security, upon receipt of which Buyer shall return to Seller the portion of the Performance Security then remaining in the escrow account within ten (10) Business Days and (ii) the date that the applicable Performance Security is required to be returned to Seller in accordance with Section 5.9(c) for the Project Development Security or Section 5.9(d) for the Delivery Term Security.

(i) To secure its obligations under this Agreement, and until released as provided herein, Seller hereby grants to Buyer a present and continuing first-priority security interest ("**Security Interest**") in, and lien on (and right to net against), and assignment of the Project Development Security and Delivery Term Security, and any and all interest thereon or proceeds resulting therefrom or from the liquidation thereof, whether now or hereafter held by, on behalf of, or for the benefit of Buyer, and Seller shall, from time to time as requested by Buyer, execute, acknowledge, record, register, deliver and file all such notices, statements, instruments, and other documents as may be necessary or advisable to render fully valid, perfected, and enforceable under all Requirements of Law the Performance Security and the rights, Liens, and priorities of Buyer with respect to such Performance Security.

(j) Except as otherwise provided in this Agreement, the Performance Security: (i) constitutes security for, but is not a limitation of, Seller's obligations under this Agreement, and (ii) shall not be Buyer's exclusive remedy against Seller for Seller's failure to perform in accordance with this Agreement.

**Section 5.10 Lease or Permit No Longer in Effect.** Seller shall remove from the Project any Facility that is unable to operate because one or more of the Leases or Permits fails to be in effect or has terminated for such Facility; provided, if such failure or termination is due to a decision of a Governmental Authority, such decision must be final and non-appealable. Seller shall provide notice to Buyer and remove such Facility from the Project and upon delivery of such notice the Project Net Capacity will be reduced by the amount of the Facility Net Capacity associated with such Facility and the Guaranteed Generation reduced in accordance with the reduced Project Net Capacity. If such Facility removal occurs after the Minimum Capacity Cure Date, Buyer shall calculate in a commercially reasonable manner, and consistent with Section 13.3(b), the positive amount, if any, calculated as its Costs, *plus* Losses, *minus* Gains with respect to such reduction in Project Net Capacity; provided, Costs, Losses and Gains shall all be determined with respect to the reduction in Project Net Capacity rather than with respect to termination of all obligations under this Agreement, and further provided that, if the result of the foregoing calculation is negative, no amount shall be due to Seller. As soon as reasonably practical, Buyer shall provide notice to Seller of such damages along with a demand for payment, which demand shall be provided with a written statement explaining in reasonable detail the calculation of the demanded amount. Within ten (10) Business Days after receipt of such demand and written statement, Seller shall pay the undisputed amount of such demand and provide written notice of any disputed amount (if any), which dispute shall be resolved in accordance with Section 14.3. If Buyer prevails in any such dispute, then Seller shall pay the amount determined to be due to Buyer, together with interest on such amount calculated at the Interest Rate from the original due date

until the date paid. If, before the dispute is resolved, Buyer draws on the Delivery Term Security for any disputed amount and Seller thereafter prevails in the dispute, then Buyer (i) shall be required to refund the amount of the erroneous draw, together with interest calculated at the Interest Rate from the date of the draw through the date of refund and (ii) shall pay to Seller any documented costs and expenses incurred by Seller due to the erroneous draw on the Delivery Term Security. If Seller fails to pay or dispute the amount of a demand within ten (10) Business Days after receipt of Buyer's demand and supporting written statement, then Buyer shall be entitled to draw from the Delivery Term Security the unpaid amount. Payment of the damages as described in this Section 5.10 are Buyer's sole and exclusive remedies for Seller's failure to maintain Leases or Permits for a Facility.

**Section 5.11 Project Company Bankruptcy.** Seller shall remove from the Project any Facility for which the Project Company is subject to a Bankruptcy. Seller shall provide notice to Buyer and remove the Facility of such bankrupt Project Company from the Project and upon delivery of such notice the Project Net Capacity will be reduced by the amount of the Facility Net Capacity associated with such Facility of the bankrupt Project Company and the Guaranteed Generation reduced in accordance with the reduced Project Net Capacity. If such Facility removal occurs after the Minimum Capacity Cure Date, Buyer shall calculate in a commercially reasonable manner, and consistent with Section 13.3(b), the positive amount, if any, calculated as its Costs, *plus* Losses, *minus* Gains with respect to such reduction in Project Net Capacity; provided, Costs, Losses and Gains shall all be determined with respect to the reduction in Project Net Capacity rather than with respect to termination of all obligations under this Agreement, and further provided that, if the result of the foregoing calculation is negative, no amount shall be due to Seller. As soon as reasonably practical, Buyer shall provide notice to Seller of such damages along with a demand for payment, which demand shall be provided with a written statement explaining in reasonable detail the calculation of the demanded amount. Within ten (10) Business Days after receipt of such demand and written statement, Seller shall pay the undisputed amount of such demand and provide written notice of any disputed amount (if any), which dispute shall be resolved in accordance with Section 14.3. If Buyer prevails in any such dispute, then Seller shall pay the amount determined to be due to Buyer, together with interest on such amount calculated at the Interest Rate from the original due date until the date paid. If, before the dispute is resolved, Buyer draws on the Delivery Term Security for any disputed amount and Seller thereafter prevails in the dispute, then Buyer (i) shall be required to refund the amount of the erroneous draw, together with interest calculated at the Interest Rate from the date of the draw through the date of refund and (ii) shall pay to Seller any documented costs and expenses incurred by Seller due to the erroneous draw on the Delivery Term Security. If Seller fails to pay or dispute the amount of a demand within ten (10) Business Days after receipt of Buyer's demand and supporting written statement, then Buyer shall be entitled to draw from the Delivery Term Security the unpaid amount. Payment of the damages as described in this Section 5.11 are Buyer's sole and exclusive remedies for a Bankruptcy of a Project Company.

**Section 5.12 Buyer Credit Arrangements.**

(a) To secure its obligations under this Agreement, Buyer shall deliver to Seller within one hundred twenty (120) days after the Effective Date, Buyer Liability Pass Through Agreements from Project Participants with Liability Shares as set forth on Appendix M. Seller shall countersign each Buyer Liability Pass Through Agreement within ten (10) days of receipt of

each such Buyer Liability Pass Through Agreement. Buyer shall maintain such Buyer Liability Pass Through Agreements in full force and effect until both of the following have occurred: (a) the Agreement Term has expired or terminated early; and (b) all payment obligations of Buyer due and payable under this Agreement are paid in full (whether directly or indirectly such as through set-off or netting).

(b) Buyer may amend Appendix M in its sole discretion with respect to the identity of Project Participants and the amount of each Project Participant's Liability Share; and other amendments shall be subject to the consent of Seller (not to be unreasonably withheld, conditioned or delayed). If Buyer amends Appendix M, Buyer shall provide Seller replacement Buyer Liability Pass Through Agreements executed by Buyer and the applicable Project Participants that incorporate Liability Shares as set forth in the amended Appendix M ("**Replacement BLPTAs**"). Seller shall countersign each Replacement BLPTA executed by Buyer and the applicable Project Participant within ten (10) Business Days after Buyer's delivery of such Replacement BLPTAs to Seller; *provided* that until the Replacement BLPTAs have been executed by Seller and all applicable Project Participants, the prior agreements will remain in effect.

## **ARTICLE VI PURCHASE AND SALE OF POWER**

### **Section 6.1 Purchases by Buyer.**

(a) For all Delivered Energy comprised of Facility Energy from a Facility prior to its Commercial Operation Date, Seller shall sell and deliver, and Buyer shall purchase and receive, such Delivered Energy in accordance with Section 3.10.

(b) For all Delivered Energy comprised of Facility Energy from a Facility after its Commercial Operation Date, Seller shall sell and deliver, and Buyer shall purchase and receive, all such Delivered Energy and all Replacement Energy for the price set forth in Section 2 of Appendix A; provided that, in no event shall Buyer be obligated to purchase or receive Delivered Energy in excess of the Maximum Generation unless Buyer shall by notice given to Seller elect to purchase any such Energy in excess of Maximum Generation.

(c) Notwithstanding Section 6.1(b), during the period of time between the day that is one hundred eighty (180) days following the Commercial Operation Date of a Facility and the day that is one (1) day following the date upon which Buyer receives evidence that such Facility is CEC Certified, Buyer may retain a portion of any payment to be made to Seller hereunder associated with the Delivered Energy from such Facility in an amount equal to the positive difference between (1) the price of the Delivered Energy pursuant to Section 6.1(b), and (2) the average of the on-peak and off-peak Energy prices, weighted by the number of hours in the on-peak and off-peak periods, during the month in which the deliveries occurred for Energy that is not from an Eligible Renewable Energy Resource under the RPS, as listed in the Intercontinental Exchange Palo Verde Electricity Price Index or its successor index, or any other index mutually agreed by the Parties. Buyer shall release such retained amount, which shall not be calculated with interest of any kind, within forty-five (45) days following the receipt of evidence satisfactory to Buyer from Seller that the Facility is CEC Certified. Within thirty (30) days after any removal of a Facility under Section 3.11, Seller shall refund to Buyer, for Delivered Energy associated with

such Facility and purchased by Buyer during the first one hundred eighty (180) days following the Commercial Operation Date of such Facility that has not been CEC Certified at the price set forth in paragraph 2 of Appendix A, the positive difference between (1) the price paid by Buyer and (2) the average of the on-peak and off-peak Energy prices, weighted by the number of hours in the on-peak and off-peak periods, during the month or months in which the deliveries of such Delivered Energy occurred for Energy that is not from an Eligible Renewable Energy Resource under the RPS, as listed in the Intercontinental Exchange Palo Verde Electricity Price Index or its successor index, or any other index mutually agreed by the Parties. Upon such removal, Seller shall have no obligation to transfer any Green Attributes related to the Delivered Energy from the removed Facility.

(d) At its sole discretion, Buyer or Project Participants may re-sell or use for another purpose all or a portion of the Facility Energy, Replacement Energy, Capacity Rights, and associated Green Attributes, provided that no such re-sale or use shall relieve Buyer of any obligations hereunder. Buyer shall have exclusive rights to offer, bid, or otherwise submit the Facility Energy, Replacement Energy, Capacity Rights, and associated Green Attributes for resale in the market, and retain and receive any and all related revenues. Buyer has no obligation to purchase from Seller any Facility Energy, Replacement Energy, and associated Green Attributes for which the Facility Energy is not or cannot be delivered to the Points of Delivery as a result of an outage of a Facility, a Force Majeure, curtailments required under a Facility's interconnection agreement, or curtailments required by Buyer due to a System Emergency not resulting from the fault or negligence of Buyer.

**Section 6.2 Seller's Failure.** Except as provided in Article IX, and except for Energy that is RPS Compliant that is provided by the Transmission Provider pursuant to its tariff in connection with the Transmission Services, in no event shall Seller have the right to procure energy from sources other than the Project for sale and delivery pursuant to this Agreement. Seller shall not sell, deliver or convey any Facility Energy, Capacity Rights, and associated Green Attributes from any Facility to any third-party except as set forth in Section 6.4. If Seller sells any part of any Facility Energy, Capacity Rights, and associated Green Attributes to a third party in violation of Section 6.4 (including in connection with a claimed Force Majeure that does not satisfy the requirements of a Force Majeure in accordance with Section 14.3), Seller shall pay Buyer, within thirty (30) days of such sale all proceeds that Seller receives from such sale.

**Section 6.3 Buyer's Failure.** Unless excused by Force Majeure or Seller's failure to perform its obligations under this Agreement, if Buyer fails to receive at the Points of Delivery all or any part of any Facility Energy required to be received by Buyer under this Article VI, Article VIII, or Article IX, Buyer shall pay Seller, within thirty (30) days of Seller's written request therefor, an amount for each MWh of such deficiency equal to the positive difference, if any, obtained by subtracting the Sales Price from the price per MWh that would have been payable by Buyer for the Energy and Green Attributes not received by Buyer. Seller shall provide Buyer prompt written notice of the Sales Price together with back-up documentation.

**Section 6.4 Sales to Third Parties.** Seller may sell to Persons other than Buyer (i) any Facility Energy and associated Green Attributes in excess of Maximum Generation not purchased by Buyer in accordance with Section 6.1, and (ii) any Facility Energy, Capacity Rights, and associated Green Attributes that Seller is unable to deliver to Buyer due to Force Majeure declared

by Buyer or Seller that either prevents Seller from delivering to Buyer the Facility Energy, Capacity Rights, and associated Green Attributes, or that prevents Buyer from receiving the Facility Energy, Capacity Rights, and associated Green Attributes. Except as provided above in this Section 6.4, Seller shall not sell or otherwise transfer any Facility Energy, Capacity Rights, or associated Green Attributes to any Person other than Buyer during the Delivery Term, except for any Facility Energy (excluding any associated RECs or Capacity Rights) that is Imbalance Energy transferred or sold pursuant to the terms of a Transmission Provider's tariff.

**Section 6.5 Nature of Remedies.** The damages that Buyer would incur as a result of Seller's failure as described in Section 6.2 or that Seller would incur as a result of Buyer's failure as described in Section 6.3 would be difficult or impossible to predict with certainty, and it is impractical and difficult to assess actual damages in those circumstances, but the liquidated damages set forth in Section 6.2 and Section 6.3 are fair and reasonable calculations of such damages. The remedy set forth in Section 6.2 is in addition to, and not in lieu of, any other right or remedy of Buyer under this Agreement for failure of Seller to sell and deliver Energy and Green Attributes as and when required by this Agreement. The remedy set forth in Section 6.3 is in addition to any other right or remedy of Seller for any failure by Buyer to receive Energy as and when required by this Agreement.

## **ARTICLE VII TRANSMISSION AND SCHEDULING; TITLE AND RISK OF LOSS**

**Section 7.1 In General.** Seller shall arrange and be responsible for any Transmission Services required to deliver Facility Energy or Replacement Energy to the Point of Delivery and shall Schedule or arrange for Scheduling services with its Transmission Providers to deliver the Facility Energy or Replacement Energy to the Point of Delivery. Seller shall have no obligations or liability in respect of Facility Energy or Replacement Energy after the Point of Delivery (as to Transmission Services or otherwise).

### **Section 7.2 Scheduling of Energy.**

(a) Seller shall be the Scheduling Coordinator or designate a qualified third party to provide Scheduling Coordinator services with the CAISO for the Project for the delivery of Delivered Energy to the Point of Delivery, and bid the Delivered Energy into the Day-Ahead Market and the Real-Time Market consistent with Prudent Operating Practice. Seller shall perform or cause to be performed all scheduling and transmission activities in compliance with (i) the CAISO Tariff, (ii) WECC scheduling practices, and (iii) Prudent Operating Practice. The Parties agree to communicate and cooperate as necessary in order to address any scheduling or settlement issues as they may arise, and to work together in good faith to resolve them in a manner consistent with the terms of the Agreement. Seller (as the Project's Scheduling Coordinator) shall ensure that all Delivered Energy and Replacement Energy is electronically tagged (e-tagged) in accordance with Generally Accepted Utility Practice. Seller shall comply with any requirements of the CPUC, CEC, WREGIS and CARB, as applicable, with respect to documenting and reporting E-tags, including, as applicable, requirements to match E-tags to WREGIS Certificate creation. In addition to Seller's requirements under Section 8.4, Seller shall provide additional information as reasonably requested by Buyer on E-tags or as reasonably necessary to facilitate Buyer's members' reporting requirements under the RPS.

(b) As Scheduling Coordinator for the Project, Seller shall be responsible for all CAISO costs, including without limitation, all penalties, Imbalance Energy charges, and other charges, and shall be entitled to all CAISO revenues, including without limitation, credits, Imbalance Energy payments, and revenues associated with CAISO dispatches, bid cost recovery, Inter-SC Trade (as defined in the CAISO Tariff) credits, or other credits in respect of the Delivered Energy. Seller shall be responsible for all CAISO penalties resulting from any failure by Seller to abide by the CAISO Tariff or the outage notification requirements set forth in this Agreement. The Parties agree that any Availability Incentive Payments (as defined in the CAISO Tariff) are for the benefit of Seller and for Seller's account and that any Non-Availability Charges (as defined in the CAISO Tariff) are the responsibility of Seller and for Seller's account. In addition, if during the Delivery Term, the CAISO implements or has implemented any sanction or penalty related to scheduling, outage reporting, or generator operation, the cost of such sanctions or penalties arising from the scheduling, outage reporting, or generator operation of the Facility shall be the Seller's responsibility.

(c) Seller (as the Project's Scheduling Coordinator) shall be responsible for all settlement functions with the CAISO related to the Project. Seller or its Affiliates shall also fulfill the contractual, metering, and interconnection requirements so as to be able to deliver Facility Energy and Replacement Energy to the Points of Delivery.

(d) At least forty-five (45) days before the first anticipated Commercial Operation Date and no later than forty-five (45) days before the beginning of each Contract Year, Seller or Seller's designee shall provide, or cause to be provided, a non-binding forecast of each month's average-day deliveries of Facility Energy and Replacement Energy, by hour, for the following eighteen (18) months.

(e) At least ten (10) days before the first anticipated Commercial Operation Date and no later than ten (10) Business Days before the beginning of each month during the Delivery Term, Seller or Seller's designee shall provide, or cause to be provided, a non-binding forecast of each day's average deliveries of Facility Energy and Replacement Energy, by hour, for the following month to Buyer at the addresses for scheduling notices set forth in Appendix C.

(f) By 4:30 a.m. on the Business Day immediately preceding each day of delivery of Facility Energy during the Delivery Term, Seller or Seller's designee shall cause Seller's Scheduling Coordinator to provide Buyer with a copy of a non-binding hourly forecast of deliveries of Facility Energy and Replacement Energy for each hour of the immediately succeeding day. A forecast provided a day prior to any non-Business Day shall include forecasts for the immediate day, each succeeding non-Business Day and the next Business Day. Seller shall provide Buyer with a copy of any updates to such forecast indicating a change in forecasted Facility Energy and Replacement Energy from the then current forecast at the addresses for scheduling notices set forth in Appendix C.

(g) By 12:00 p.m. on the normal Business Day prior to each pre-scheduling day as identified in the WECC pre-scheduling calendar, Seller shall provide Buyer via email, at the addresses for scheduling notices set forth in Appendix C, day-ahead pre-schedules for each of the succeeding twenty-four (24) hours in the form of an excel spreadsheet. Seller shall notify Buyer

or Buyer's Agent via telephone of any hourly changes due to a change in unit availability or an outage no later than one-hundred five (105) minutes prior to the start of such Scheduling hour.

(h) Throughout the Delivery Term, Seller shall provide to Buyer and Project Participants, if requested by the applicable Project Participant, access to the supervisory control and data acquisition ("SCADA") system of each Facility to the extent necessary to allow Buyer and those Project Participants who have requested access to obtain the following data on a real-time basis: for each Facility that has achieved Commercial Operation, read-only access to megawatt capacity and any other facility availability information; read-only access to energy output information collected by the SCADA system for the Facility; provided that if Buyer is unable to access the Facility's SCADA system, then upon written request from Buyer, Seller shall provide energy output information to Buyer in four (4)-second intervals in the form of a flat file to Buyer through a secure file transport protocol (FTP) system with an e-mail back-up for each flat file submittal; and read-only access to all electricity, production, and consumption data from the Electric Metering Devices.

**Section 7.3 Costs.** Seller shall be responsible for any costs or charges imposed on or associated with the delivery and scheduling of Facility Energy to the Points of Delivery.

**Section 7.4 Curtailment Required by Buyer; Market Curtailment Periods.** Seller shall reduce deliveries of Energy for (a) curtailments required under a Facility's interconnection agreement or (b) curtailments required by Buyer due to a System Emergency not resulting from the fault or negligence of Buyer, and Seller may reduce deliveries of Energy in the event of a Market Curtailment Period; provided that, for any curtailed Energy resulting from a Market Curtailment Period, Buyer will pay Seller for such curtailed Energy as set forth in Section 3 of Appendix A. During the Delivery Term, the Parties shall estimate the amount of curtailed Energy for each such curtailment event by multiplying (i) the arithmetic average of the applicable Facility's metered output rate, in MW, immediately before and after such curtailment event, by (ii) the duration of such curtailment event. The Parties shall use the curtailed Energy estimate for the purpose of determining Seller's compliance towards Guaranteed Generation, and, solely with respect to curtailed Energy resulting from a Market Curtailment Period, for purposes of calculating any payments due from Buyer to Seller pursuant to Section 3 of Appendix A. For the avoidance of doubt, Buyer shall be obligated to take delivery of and pay for all Delivered Energy, except that Buyer shall not be obligated to take delivery of and pay for Energy to the extent that such Energy exceeds the Maximum Generation and Buyer has not elected to purchase such Energy as provided in Section 6.1.

**Section 7.5 Curtailment of Seller's Transmission Services.** In the event of the curtailment or other interruption of the Transmission Services utilized pursuant to the Agreement that prevents Seller from delivering Facility Energy to the Primary Point of Delivery, Seller shall, subject to the last sentence of this Section 7.5, upon furnishing notice as soon as practicable to Buyer obtain alternate Transmission Services complying with the requirements of the Agreement utilizing other Transmission System or Systems for delivery of the Facility Energy to such Primary Point of Delivery or the Alternate Points of Delivery during the period of such curtailment or other interruption of such Transmission Services. Seller shall provide Buyer with advance notice, at the addresses for general notices set forth in Appendix C, of the end of the period of such curtailment or interruption and the restoration of the Transmission Services pursuant to the Agreement for the

delivery of the Facility Energy to the Primary Point of Delivery. This Section 7.5 shall (i) not obligate Seller to utilize such alternate Transmission Services or Alternate Points of Delivery, as applicable, and (ii) not preclude Seller from claiming Force Majeure under Section 14.6, unless such alternate Transmission Services or Alternate Points of Delivery, as applicable, are available at costs that do not exceed six dollars per MWh (\$6/MWh), or such alternate Transmission Services shall be available at costs that exceed six dollars per MWh (\$6/MWh) and Buyer agrees to pay the amount of such excess.

**Section 7.6 Title; Risk of Loss.** As between the Parties, Seller shall be deemed to be in exclusive control (and responsible for any damages or injury caused thereby) of Facility Energy prior to a Point of Delivery, and Buyer shall be deemed to be in exclusive control (and responsible for any damages or injury caused thereby) of Facility Energy at and from such Point of Delivery. Seller shall deliver all Facility Energy, Capacity Rights, and Green Attributes to Buyer free and clear of all Liens created by any Person other than Buyer. Title to and risk of loss as to all Facility Energy, Capacity Rights, and Green Attributes shall pass from Seller to Buyer at the respective Points of Delivery.

## **ARTICLE VIII GREEN ATTRIBUTES; RPS COMPLIANCE**

**Section 8.1 Transfer of Green Attributes.** For and in consideration of Buyer entering into this Agreement, and in addition to the agreement by Buyer and Seller to purchase and sell Facility Energy on the terms and conditions set forth herein, subject to Section 6.4, Seller shall transfer to Project Participants, and Project Participants shall receive from Seller, all right, title, and interest in and to all Green Attributes, whether now existing or acquired by Seller or that hereafter come into existence or are acquired by Seller during the Delivery Term, for all Facility Energy and Replacement Energy. Seller agrees to transfer and make such Green Attributes available to Project Participants immediately to the fullest extent allowed by applicable law upon Seller's production or acquisition of the Green Attributes. Seller shall not assign, transfer, convey, encumber, sell or otherwise dispose of all or any portion of such Green Attributes to any Person other than Project Participants or attempt to do any of the foregoing with respect to any of the Green Attributes. The consideration for the transfer of Green Attributes is contained within the relevant prices for Delivered Energy under Articles VI and IX and Appendix A.

**Section 8.2 Reporting of Ownership of Green Attributes.** During the Delivery Term, Seller shall not report to any Person that the Green Attributes granted hereunder to Project Participants belong to any Person other than Buyer, and Buyer may report under any program that such Green Attributes purchased hereunder belong to it.

**Section 8.3 Green Attributes.** Upon Buyer's request, Seller shall take all reasonable actions and execute all documents or instruments as are reasonable and necessary under applicable law, bilateral arrangements or other voluntary Green Attribute programs of any kind, as applicable, to maximize the attribution, accrual, realization, generation, production, recognition and validation of Green Attributes throughout the Delivery Term. Upon request of Buyer, Seller shall submit, a Green-e® Energy Tracking Attestation Form ("**Attestation**") for Delivered Energy to the Center for Resource Solutions ("**CRS**") at <https://www.tfaforms.com/4652008> or its successor. The Attestation shall be submitted in accordance with the requirements of CRS and shall be submitted

within thirty (30) days of Buyer's request or the last day of the month in which the applicable Delivered Energy was generated, whichever is later.

#### **Section 8.4 Use of Accounting System to Transfer Green Attributes.**

(a) In furtherance and not in limitation of Section 8.3, Seller shall use WREGIS or any successor system to evidence the transfer of any Green Attributes considered RECs under applicable law or any voluntary program ("**WREGIS Certificates**") associated with Facility Energy or Replacement Energy in accordance with WREGIS reporting protocols. Prior to the Commercial Operation Date for a Facility, Seller shall establish an account with WREGIS and commence registration of such Facility with WREGIS. After each Facility is registered with WREGIS, at Buyer's option, Seller shall transfer WREGIS Certificates using the Forward Certificate Transfer method, as described in WREGIS Operating Rules, from Seller's WREGIS account to up to ten (10) Project Participant WREGIS accounts, as designated by Buyer; provided, however, that Buyer shall have identified such accounts by written notice to Seller delivered no later than ten (10) days prior to the Commercial Operation Date for such Facility.

(b) Seller shall be responsible for the WREGIS expenses associated with registering each Facility, maintaining its account, WREGIS Certificate issuance fees, and transferring WREGIS Certificates to Project Participants, and Project Participants shall be responsible for the WREGIS expenses associated with maintaining their accounts and any subsequent transferring or retiring of WREGIS Certificates.

(c) Forward Certificate Transfers shall occur monthly based on the certificate creation timeline established by the WREGIS Operating Rules. Since WREGIS Certificates will only be created for whole MWh amounts of Delivered Energy or Replacement Energy, any fractional MWh amounts (i.e., kWh) will be carried forward until sufficient generation is accumulated for the creation of a WREGIS Certificate. Seller shall, at its sole expense, ensure that the WREGIS Certificates for a given calendar month correspond with the Delivered Energy and Replacement Energy for such calendar month, as evidenced by the Facility's or Replacement Unit's metered data, as applicable, and, unless otherwise agreed by Buyer, matching E-Tags. WREGIS Certificates must be matched with E-Tags, unless otherwise agreed by Buyer. Seller shall ensure that no WREGIS Certificates are transferred to a Project Participant's WREGIS Account unless they are the result of Delivered Energy or Replacement Energy and matched with E-Tags. WREGIS Certificates without matching E-Tags will be rejected.

(d) A "**WREGIS Certificate Deficit**" means any deficit or shortfall in WREGIS Certificates delivered to Buyer for a calendar month as compared to the Delivered Energy and Replacement Energy for the same calendar month caused by an error or omission of Seller. If any WREGIS Certificate Deficit is caused, or the result of any action or inaction by Seller, then the aggregate amount of Delivered Energy and Replacement Energy in the month of a WREGIS Certificate Deficit shall be reduced by the amount of the WREGIS Certificate Deficit for purposes of calculating Buyer's payment to Seller under Article XI and Shortfall Energy for the applicable Contract Year; provided, however, that such adjustment shall not apply to the extent that Seller resolves the WREGIS Certificate Deficit within ninety (90) days after the month of such WREGIS Certificate Deficit. Without limiting Seller's obligations under this Section 8.4, if a WREGIS Certificate Deficit is caused solely by an error or omission of WREGIS, the Parties shall cooperate

in good faith to cause WREGIS to correct its error or omission. Seller shall be responsible for, at its expense, validating and disputing data with WREGIS prior to WREGIS Certificate creation each month. Buyer shall take all necessary actions to facilitate the transfer of Green Attributes as provided above, including accepting any transfer requests made by Seller through WREGIS in accordance with the foregoing. Notwithstanding any other provision of this Section 8.4, in the event that WREGIS is not in operation, Seller shall document the production and transfer of RECs under this Agreement by delivering to Buyer an attestation for the RECs produced by each Facility, or Replacement Energy, measured in whole MWh, or by such other method as Buyer shall designate, in accordance with the form set forth in Appendix P and the Parties shall cooperate to complete the transfer of WREGIS Certificates for the benefit of Buyer or Buyer's designees as soon as reasonably possible. Buyer shall take all necessary actions to facilitate the transfer of Green Attributes as provided above, including accepting any transfer requests made by Seller through WREGIS in accordance with the foregoing.

**Section 8.5 Further Assurances.** At Buyer's request, the Parties shall execute all such documents and instruments and take such other action in order to effect the transfer of the Green Attributes specified in this Agreement to Buyer's designees and to maximize the attribution, accrual, realization, generation, production, recognition and validation of Green Attributes throughout the Delivery Term as Buyer may reasonably request. If WREGIS changes the WREGIS Operating Rules after the Effective Date or applies the WREGIS Operating Rules in a manner inconsistent with this Section 8.5 after the Effective Date, the Parties promptly shall modify Section 8.4 as reasonably required to cause and enable Seller to transfer to Buyer's designees a quantity of WREGIS Certificates for each given calendar month that corresponds to the Delivered Energy and Replacement Energy delivered in the same calendar month; provided, however, that Seller's obligations under Section 8.4 shall be subject to the Compliance Expenditure Cap, in accordance with Section 8.6(c).

**Section 8.6 RPS Compliance.**

(a) Seller, and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement that: (i) the Project qualifies and is certified by the CEC as an Eligible Renewable Energy Resource ("ERR") as such term is defined in Public Utilities Code Section 399.12 or Section 399.16; and (ii) the Project's output delivered to Buyer qualifies under the requirements of the California Renewables Portfolio Standard. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law. [STC 6].

(b) The term "commercially reasonable efforts" as used in Section 8.6(a) and in Section 8.6(e) means Seller's compliance with Section 8.6(c) and (d), below. The term "Project" as used in Section 8.6(a) means each Facility included in the Project.

(c) If (i) a Change in Law occurring after the Effective Date has increased Seller's known or reasonably expected costs (A) to cause any Facility, its Facility Energy or the associated Green Attributes to be RPS Compliant or to obtain, maintain, convey or effectuate Buyer's use of any Green Attributes, or (B) to cause any Facility to be or to remain a Firm Clean Resource, or (ii) a change in WREGIS Operating Rules after the Effective Date increases Seller's

costs to comply with its obligations under Section 8.4 (the obligations set forth in the foregoing clauses (i) and (ii) collectively, “**Compliance Obligations**”), then the Parties agree that the maximum aggregate amount of out-of-pocket costs and expenses (“**Compliance Costs**”) that Seller shall be required to bear during the Delivery Term with respect to each affected Facility to comply with all of such Compliance Obligations shall be capped at [REDACTED] of the Facility Net Capacity of the applicable affected Facility (“**Compliance Expenditure Cap**”). Seller’s internal administrative costs associated with obtaining, maintaining, conveying or effectuating Buyer’s use of (as applicable) any Product are excluded from the Compliance Expenditure Cap.

(d) Any actions required for Seller to comply with its obligations set forth in Section 8.6(c) above, the Compliance Costs of which will be included in the Compliance Expenditure Cap, shall be referred to collectively as the “**Compliance Actions**.” If Seller reasonably anticipates the need to incur Compliance Costs in excess of the Compliance Expenditure Cap in order to take any Compliance Action, then Seller shall provide written notice to Buyer of such anticipated Compliance Costs. Buyer will have sixty (60) days to evaluate such notice (during which time period Seller is not obligated to take any Compliance Actions described in the notice) and shall, within such time, either (i) agree to reimburse Seller for all or some portion of the Compliance Costs that exceed the Compliance Expenditure Cap, as applicable (such Buyer-agreed upon costs, the “**Accepted Compliance Costs**”), or (ii) waive Seller’s obligation to take such Compliance Actions, or any part thereof for which Buyer has not agreed to reimburse Seller. If Buyer does not respond to a notice given by Seller under this Section 8.6(d) within sixty (60) days after Buyer’s receipt of same, Buyer shall be deemed to have waived its rights to require Seller to take the Compliance Actions that are the subject of the notice, and Seller shall have no further obligation to take, and no liability for any failure to take, the Compliance Actions that are the subject of the notice for the remainder of the Term. If Buyer agrees to reimburse Seller for the Accepted Compliance Costs, then Seller shall take such Compliance Actions covered by the Accepted Compliance Costs as agreed upon by the Parties and Buyer shall reimburse Seller for Seller’s actual costs to effect the Compliance Actions, not to exceed the Accepted Compliance Costs, within sixty (60) days from the time that Buyer receives an invoice and documentation of such costs from Seller.

(e) Seller and, if applicable, its successors, represents and warrants that throughout the Delivery Term of this Agreement the Renewable Energy Credits transferred to Buyer conform to the definition and attributes required for compliance with the California Renewables Portfolio Standard, as set forth in California Public Utilities Commission Decision 08-08-028, and as may be modified by subsequent decision of the California Public Utilities Commission or by subsequent legislation. To the extent a change in law occurs after execution of this Agreement that causes this representation and warranty to be materially false or misleading, it shall not be an Event of Default if Seller has used commercially reasonable efforts to comply with such change in law. [STC REC-1].

(f) Seller warrants that all necessary steps to allow the Renewable Energy Credits transferred to Buyer to be tracked in the Western Renewable Energy Generation Information System will be taken prior to the first delivery under the contract. [STC REC-2].

(g) The phrase “such Facility qualifies and is certified by the CEC as an Eligible Renewable Energy Resource” as used in Section 8.6(a) means “such Facility qualifies and is CEC Pre-certified or CEC Certified as an Eligible Renewable Energy Resource.”

**Section 8.7 Solar Generating Capacity Serving Parasitic Load.** Seller has the right, but not the obligation, to install and operate solar generating capacity behind a Facility’s Electric Metering Devices at any Site for purposes of providing some or all of such Facility’s Parasitic Load, in which case the geothermal Energy generated by such Facility that would have otherwise served the Parasitic Load shall for purposes of this Agreement constitute Facility Energy from such Facility and shall be sold to Buyer in accordance with the provisions of this Agreement; provided, that Seller shall ensure that such solar generation (i) is only used to serve Parasitic Load associated with the applicable Facility, and (ii) is not delivered to Buyer for sale hereunder. Buyer acknowledges that using on-site solar generation to supply the applicable Facility’s Parasitic Load will result in an increase in Delivered Energy and associated Green Attributes delivered by Seller hereunder by reducing station use, and Buyer agrees that such increase in Delivered Energy and associated Green Attributes will be sold to Buyer in accordance with the terms of this Agreement.

## ARTICLE IX MAKEUP OF SHORTFALL ENERGY

**Section 9.1 Makeup of Shortfall.** During each Contract Year, all Delivered Energy during such Contract Year shall first be applied to the determination of whether Seller has delivered the Guaranteed Generation. Except to the extent caused by a Force Majeure (but subject to the provisions of Section 14.6(a) providing that the obligations of Seller with respect to satisfaction of Guaranteed Generation under this Article IX not satisfied due to Force Majeure are not excused, but such required delivery shall be extended for the duration of the Force Majeure), or except for curtailment under Section 7.4 or Buyer’s failure to accept Facility Energy in accordance with this Agreement, if Seller fails during any Contract Year to deliver Delivered Energy in an amount equal to the Guaranteed Generation, then Seller shall make-up that shortfall of Delivered Energy (such shortfall between the Guaranteed Energy and the Delivered Energy, “*Shortfall Energy*”) in the same Contract Year in accordance with this Article IX.

**Section 9.2 Replacement Energy.** Seller may reduce the amount of Shortfall Energy by providing Replacement Energy in the same Contract Year. The Replacement Energy shall be delivered to Buyer at the Points of Delivery on a delivery schedule reasonably approved by Buyer and consistent with the Project’s historic delivery profile. As employed in this Agreement, “*Replacement Energy*” means Energy and associated Green Attributes that is produced by a Replacement Unit (a) for which Seller has obtained rights to sell prior to the time that the Energy and associated Green Attributes have been generated, (b) that Seller has not sold or transferred to any other person or entity, (c) that is free and clear of all encumbrances, (d) that includes Green Attributes that have the same value and the same vintage with respect to the timeframe for retirement of such Green Attributes as the Green Attributes that would have been generated by the Project during the period for which the Replacement Energy is being provided; and (e) that is transferred to Buyer in real time.

**Section 9.3 Shortfall Liquidated Damages.** To the extent Seller is unable to procure sufficient Replacement Energy to make up any remaining Shortfall Energy within the same

Contract Year, Seller shall pay Buyer, as liquidated damages, an amount for each MWh of remaining Shortfall Energy equal to the positive difference, if any, obtained by subtracting the amount that Buyer would have paid had Project Energy equal to the amount of Shortfall Energy been delivered to the Points of Delivery from the Replacement Price (“*Shortfall Liquidated Damages*”). The Shortfall Liquidated Damages payable under this Section 9.3 shall be payable in lieu of actual damages, shall be guaranteed as to payment by the Delivery Term Security, and, notwithstanding any other provision of this Agreement, other than Buyer’s remedies for a Default by Seller under Section 13.1(f), Shortfall Liquidated Damages shall be Buyer’s sole remedy, and Seller’s sole liability, for Seller’s failure to deliver Facility Energy and the associated Green Attributes and Replacement Energy and associated Green Attributes as provided under Sections 9.1 and 9.2, above. The Parties acknowledge and agree that (i) the damages that Buyer would incur due to shortfalls in Delivered Energy would be difficult or impossible to predict with certainty, and (ii) it is impractical and difficult to assess actual damages in those circumstances and, therefore, Shortfall Liquidated Damages are a fair and reasonable calculation of such damages.

## **ARTICLE X CAPACITY RIGHTS**

### **Section 10.1 Purchase and Sale of Capacity Rights.**

(a) For and in consideration of Buyer entering into this Agreement, and in addition to the agreement by Buyer and Seller to purchase and sell Facility Energy and Green Attributes on the terms and conditions set forth in this Agreement, Seller hereby transfers to Buyer, and Buyer hereby accepts from Seller, all of the Capacity Rights, subject to Section 6.4. The consideration for the transfer of Capacity Rights is contained within the relevant prices for Facility Energy. In no event shall Buyer have any obligation or liability whatsoever for any debt pertaining to any Facility by virtue of Buyer’s ownership of the Capacity Rights or otherwise

(b) Prior to Commercial Operation of each Facility, Seller either shall qualify each such Facility as a Pseudo-Tie Resource or a Dynamically Scheduled Resource with the CAISO pursuant to the CAISO’s New Resource Implementation process (as defined in the CAISO Tariff) and Seller shall maintain each Facility as either a Pseudo-Tie Resource or a Dynamically Scheduled Resource in compliance with the CAISO Tariff throughout the Delivery Term.

(c) Buyer shall cause the Project Participants to use commercially reasonable efforts to maintain the Import Capability necessary to import the Guaranteed Net Qualifying Capacity from the Project into the CAISO. Seller shall use commercially reasonable efforts to support Buyer and Project Participants in obtaining such Import Capability. To the extent Project Participants do not or cannot maintain Import Capability necessary to support the importation of the Guaranteed Net Qualifying Capacity into the CAISO for reasons other than a Seller failure under this Agreement or the inability of Seller to maintain each Facility as either a Pseudo-Tie Resource or a Dynamically Scheduled Resource, the Capacity Attributes that are not imported or that cannot be imported shall constitute Deemed Delivered RA.

(d) No later than the Notification Deadline corresponding to each Showing Month of the Delivery Term, Seller shall submit, or cause each Facility’s Scheduling Coordinator

to submit, Supply Plans to identify and confirm the Resource Adequacy Benefits provided to Project Participants for each Showing Month from each Facility.

(e) Resource Adequacy Benefits are delivered and received when the CIRA Tool shows that the Supply Plans for each Project Participant for each Facility have been accepted by the CAISO. If CAISO rejects either the Supply Plans or Project Participants' Resource Adequacy Plans with respect to any part of the Resource Adequacy Benefits in any Showing Month, the Parties will confer, make such corrections as are necessary for acceptance, and resubmit the corrected Supply Plans or Resource Adequacy Plans for validation before the applicable Notification Deadline for the relevant Showing Month.

(f) If Seller anticipates that it will have an RA Shortfall Month, Seller may provide Replacement RA in the amount of (i) the Guaranteed Net Qualifying Capacity with respect to such Showing Month, *minus* (ii) the expected Net Qualifying Capacity that is able to be included in the Supply Plans for the Project Participants for such Showing Month *plus* any Deemed Delivered RA; *provided*, that any Replacement RA is communicated in the form of Appendix Q by Seller to Buyer no later than the Notification Deadline.

(g) Notwithstanding anything to the contrary in this Agreement, Seller shall be permitted to reduce deliveries of Capacity Attributes and Resource Adequacy Benefits during any Force Majeure Event that results in Seller's inability, despite the use of commercially reasonable efforts, to deliver Facility Energy to the Points of Delivery.

**Section 10.2 Representation Regarding Ownership of Capacity Rights.** Subject to Section 6.4, Seller shall not assign, transfer, convey, encumber, sell or otherwise dispose of any of the Capacity Rights to any Person other than the Project Participants or attempt to do any of the foregoing with respect to any of the Capacity Rights. Seller shall not report to any Person that any of the Capacity Rights belong to any Person other than Buyer (or at Buyer's designation, the Project Participants).

**Section 10.3 Resource Adequacy Failure.**

(a) For each RA Shortfall Month, Seller shall pay to Buyer as liquidated damages the RA Deficiency Amount, as set forth in Section 10.3(b), and/or provide Replacement RA, as set forth in Section 10.1(f), in each case, as the sole remedy for Capacity Attributes that Seller fails to convey to the Project Participants from each Facility.

(b) For each RA Shortfall Month, Seller shall pay to Buyer an amount (the "**RA Deficiency Amount**") equal to the product of (i) the difference, expressed in kW, of (A) the then applicable Guaranteed Net Qualifying Capacity, *minus* (B) the Net Qualifying Capacity included in the Supply Plans for the Project Participants (or any subsequent purchasers to whom Project Participants have resold Capacity Attributes), *plus* any Replacement RA that was able to be included in the Supply Plans for such Showing Month for the Project Participants (or any subsequent purchasers to whom Project Participants have resold Capacity Attributes) and any Deemed Delivered RA, *multiplied by* (ii) the lower of (A) thirteen dollars and fifty cents (\$13.50) per kW-month, or (B) the sum of the CPM Soft Offer Cap and the RA Penalties paid or required

to be paid Project Participants for RAR applicable to the RA Deficiency Amount for such RA Shortfall Month.

#### **Section 10.4 CPUC Mid-Term Reliability Requirements.**

(a) Seller acknowledges that Buyer intends for this product to comply with mandatory procurement obligations for incremental capacity pursuant to CPUC D.21-06-035. Seller represents and warrants to Buyer that commencing on the Effective Date and continuing throughout the Agreement Term:

(i) The Agreement includes the exclusive right to claim the Guaranteed Net Qualifying Capacity of the Facility as an incremental resource for purposes of CPUC D.21-06-035;

(ii) Seller has not and will not sell, assign, or transfer the right to claim any Facility as an incremental resource for purposes of CPUC D.21-06-035 to any other person or entity; and

(iii) Seller will reasonably cooperate with Buyer to ensure the Agreement will meet the procurement mandates set forth in CPUC D.21-06-035.

(b) In furtherance of any compliance and reporting obligations related to the foregoing, and without limiting Seller's obligations under any other provision of this Agreement, Seller agrees to provide documentation reasonably requested by Buyer in connection with such compliance obligations, including but not limited to the following:

(i) Evidence of interconnection, site control, notice to proceed with construction, and other evidence of construction status and progress towards Commercial Operation;

(ii) Engineering assessments demonstrating that each Facility satisfies the Firm Clean Resource requirements; and

(iii) Any other engineering assessments, contractual support, or relevant information required or requested by the CPUC pursuant to CPUC D.21-06-035 and any other applicable requirements of CPUC D.21-06-035 as such decision has been interpreted by the CPUC in public guidance documents or other public communications.

### **ARTICLE XI**

#### **BILLING; PAYMENT; AUDITS; METERING; POLICIES**

**Section 11.1 Billing and Payment.** Billing and payment for all Delivered Energy, Green Attributes, and Capacity Rights shall be as set forth in this Article XI.

#### **Section 11.2 Calculation of Delivered Energy; Invoices and Payment.**

(a) **Delivered Quantity.** For each month during the Agreement Term, commencing with the first month in which Energy is delivered by Seller to and received by Buyer

under this Agreement, Seller shall calculate the amount of Energy so delivered and received during such month as determined (i) in the case of Delivered Energy, from recordings produced by the Electric Metering Devices maintained pursuant to Section 11.6, at or near midnight on the last day of the month in question, (ii) in the case of a Market Curtailment Period, the amount of curtailed Energy determined pursuant to Section 7.4, and (iii) in the case of Replacement Energy, the amount in MWh actually supplied by Seller pursuant to Section 9.2, as measured by metering equipment approved by Buyer in its reasonable discretion. Seller shall measure the amount of Delivered Energy using the Electric Metering Devices. All Electric Metering Devices will be operated pursuant to applicable CAISO-approved calculation methodologies and maintained as Seller's cost.

(b) **Invoice.** Not later than the tenth (10th) day of each month, commencing with the month next following the month in which Energy is first delivered by Seller and received by Buyer under this Agreement, Seller shall deliver to Buyer an invoice showing the amount of Energy delivered by Seller for each Facility of the Project and received by Buyer, or curtailed Energy during a Market Curtailment Period, during the preceding month (with a separate allocation for each Facility and any Replacement Energy), Seller's computation of the amount due Seller in respect thereof for Delivered Energy, including start-up and test Energy consistent with Section 3.10, for curtailed Energy resulting from a Market Curtailment Period, and for Replacement Energy, in each case in accordance with Appendix A. Seller shall deliver to Buyer with each monthly invoice copies of the recordings and data from the Electric Metering Devices that support the calculations of Energy and Green Attributes included in the invoice for such month. Each invoice shall include (a) a reconciliation in .xlsx format of hourly meter data, E-Tag data and associated calculations, including the lesser of each by hour, in a format reasonably requested by Buyer, plus any additional data as may be reasonably required by Buyer for compliance with CPUC reporting obligations, including pursuant to the CPUC's Energy Division *Portfolio Content Category Classification Review Handbook* (or successor publication); (b) a statement of the quantity of WREGIS Certificates transferred during the prior month that have been matched with E-Tags, including as associated with the Dynamic Schedules, and (c) any additional information reasonably requested by Buyer. Buyer may reconcile invoices using meter data made available through Section 11.6(d). Monthly invoices shall be sent to the address set forth in Appendix C or such other address as Buyer may provide to Seller. Buyer shall not be required to make invoice payments if the invoice is received more than six (6) months after the billing period, unless Seller's delay in delivering the invoice is due to one or more events of Force Majeure. Each invoice shall show the title of the Agreement and, if applicable, the Agreement number, the name, address and identifying information of Seller and the identification of material, equipment, or services covered by the invoices. To the extent applicable in accordance with Section 8.4, Seller shall deliver to Buyer attestations of Green Attributes concurrently with the monthly invoices sent pursuant to this Section 11.2(b).

(c) **Payment.** Not later than the thirtieth (30th) day after receipt by Buyer of Seller's monthly invoice (or the next succeeding Business Day, if such thirtieth (30th) day is not a Business Day), Buyer shall pay to Seller, by wire transfer of immediately available funds to an account specified by Seller or by any other means agreed to by the Parties from time to time, the amount set forth as due in such monthly invoice, subject to Section 11.3.

**Section 11.3 Disputed Invoices.** In the event any portion of any invoice is in dispute, the undisputed amount shall be paid when due. The Party disputing a payment shall promptly notify the other Party of the basis for the dispute, setting forth the details of such dispute in reasonable specificity. Disputes shall be discussed by the Authorized Representatives, who shall use reasonable efforts to amicably and promptly resolve the disputes, and any failure to agree shall be subject to resolution in accordance with Section 14.3. Upon resolution of any dispute, if all or part of the disputed amount is later determined to have been due, then the Party owing such payment or refund shall pay within ten (10) days after receipt of notice of such determination the amount determined to be due plus interest thereon at the Interest Rate from the due date until the date of payment. For purposes of this Section 11.3, “*Interest Rate*” shall mean the lesser of (i) two hundred (200) basis points above the per annum prime rate reported daily in The Wall Street Journal, or (ii) the maximum rate permitted by applicable Requirements of Law. Buyer may dispute an invoice at any time within three hundred sixty-five (365) days after Buyer’s receipt of the invoice, provided that Buyer provides Seller with a written notification of such dispute, setting forth the details of such dispute in reasonable specificity. If, within three hundred sixty-five (365) days of Buyer’s receipt of an invoice, Buyer does not notify Seller in writing of a dispute related to that invoice, Buyer shall be deemed to have waived any dispute related to that invoice and the invoice shall be considered correct and complete.

**Section 11.4 Right of Setoff.** In addition to any right now or hereafter granted under applicable law and not by way of limitation of any such rights, either Party shall have the right at any time or from time to time without notice to the other Party or to any other Person, any such notice being hereby expressly waived, to set off against any amount due from such Party to the other under this Agreement any amount due from the other Party to it under this Agreement, including any amounts due because of breach of this Agreement or any other obligation.

**Section 11.5 Records and Audits.** Seller and its Affiliates shall maintain, and shall cause Seller’s and its Affiliates’ subcontractors and suppliers, as applicable, to maintain, all records pertaining to the management of this Agreement, related subcontracts, and performance of services pursuant to this Agreement (including all billings, costs, metering, and Green Attributes), in their original form, including reports, documents, deliverables, employee time sheets, accounting procedures and practices, records of financial transactions, and other evidence, regardless of form (for example, machine readable media such as disk or tape, etc.) or type (for example, databases, applications software, database management software, or utilities), sufficient to properly reflect all services performed pursuant to this Agreement. If Seller and its Affiliates or Seller’s and its Affiliates’ subcontractors or suppliers are required to submit cost or pricing data in connection with this Agreement, Seller and its Affiliates shall maintain all records and documents necessary to permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used. Buyer and the Authorized Auditors may discuss such records with Seller’s officers and independent public accountants (and by this provision Seller authorizes said accountants to discuss such billings and costs), all at such times and as often as may be reasonably requested. All such records shall be retained and shall be subject to examination and audit by the Authorized Auditors, for a period of not less than four (4) years following final payment made by Buyer hereunder or the expiration or termination date of this Agreement, whichever is later. Seller and its Affiliates shall make said records or to the extent accepted by the Authorized Auditors, photographs, micro-photographs, or other authentic reproductions thereof, available to the Authorized Auditors at the Seller’s offices located at all

reasonable times and without charge. The Authorized Auditors may reproduce, photocopy, download, transcribe, and the like any such records. Any information provided by Seller and its Affiliates on machine-readable media shall be provided in a format accessible and readable by the Authorized Auditors. Seller shall not, however, be required to furnish the Authorized Auditors with commonly available software. Seller, its Affiliates, and Seller's subcontractors and suppliers, as applicable to the services provided under this Agreement, shall be subject at any time with fourteen (14) days prior written notice to audits or examinations by Authorized Auditors, relating to all billings and to verify compliance with all Agreement requirements relative to practices, methods, procedures, performance, compensation, and documentation. Examinations and audits shall be performed using generally accepted auditing practices and principles. To the extent that the Authorized Auditor's examination or audit reveals inaccurate, incomplete or non-current records, or records are unavailable, the records shall be considered defective. Consistent with standard auditing procedures, Seller shall be provided fifteen (15) days to review the Authorized Auditor's examination results or audit and respond to Buyer's prior to the examination's or audit's finalization and public release. If the Authorized Auditor's examination or audit indicates Seller has been overpaid under a previous payment application, the identified overpayment amount shall be paid by Seller to Buyer within fifteen (15) days of notice to Seller of the identified overpayment. Notwithstanding the foregoing, if the audit reveals that Buyer's overpayment to Seller is more than the greater of \$100,000 or five percent (5.0%) of the billings reviewed, Seller shall pay all expenses and costs incurred by the Authorized Auditors arising out of or related to the examination or audit. Such examination or audit expenses and costs shall be paid by Seller to Buyer within fifteen (15) days of notice to the Seller of such costs and expenses. Any information provided by Seller to the Authorized Auditor shall be held by such Authorized Auditor in strict confidence and Seller may require such Authorized Auditor to enter into a reasonable confidentiality agreement prior to the disclosure of information hereunder; provided that the Authorized Auditors shall not be prevented from disclosure of such information to Buyer to the extent such disclosure to Buyer is required to enable Buyer to carry out its rights and responsibilities under this Agreement and Buyer shall treat such information as Confidential Information to the extent provided under Section 14.21.

#### **Section 11.6 Electric Metering Devices.**

(a) Delivered Energy shall be measured using Electric Metering Devices installed, owned and maintained by the Seller and its Affiliates. If the Electric Metering Devices are not installed at a Point of Delivery, meters or meter readings shall be adjusted to reflect losses from the Electric Metering Devices to such Point of Delivery. To the extent consistent with the requirements of the Transmission Provider, all Electric Metering Devices used to provide data for the computation of payments shall be sealed and Seller or its designee shall only break the seal when such Electric Metering Devices are to be inspected and tested or adjusted in accordance with this Section 11.6. Seller or its designee shall specify the number, type, and location of such Electric Metering Devices.

(b) Seller, its Affiliates or its designee, at no expense to Buyer, shall inspect and test all Electric Metering Devices upon installation and at least annually thereafter. Seller or its Affiliates shall provide Buyer annual certified test reports for each Facility Electric Metering Device thereafter throughout the duration of the Delivery Term. Seller shall provide Buyer with reasonable advance notice of, and permit a representative of Buyer to witness and verify, such inspections and tests to the extent consistent with the requirements of the Transmission Provider.

Upon request by Buyer, Seller or its designee shall perform additional inspections or tests of any Electric Metering Device and shall allow a qualified representative of Buyer the right to inspect or witness the testing of any Electric Metering Device. The actual expense of any such requested additional inspection or testing shall be borne by Buyer, unless the results of such additional inspection or testing show an inaccuracy greater than one percent (1%), in which case Seller shall bear such costs. Seller shall provide copies of any inspection or testing reports to Buyer. Notwithstanding the foregoing, Seller shall have the right and Buyer shall permit Seller to withhold proprietary information unless such information is reasonably needed by Buyer to evaluate and verify such inspections and tests. In addition, Buyer shall hold any information obtained during or in connection with such inspections and tests in confidence.

(c) If an Electric Metering Device fails to register, or if the measurement made by an Electric Metering Device is found upon testing to be inaccurate by more than one percent (1.0%), an adjustment shall be made correcting all measurements by the inaccurate or defective Electric Metering Device for both the amount of the inaccuracy and the period of the inaccuracy. The adjustment period shall be determined by reference to Seller's check-meters, if any, or as far as can be reasonably ascertained by Seller from the best available data, subject to review and approval by Buyer. If the period of the inaccuracy cannot be ascertained reasonably, any such adjustment shall be for a period equal to one-third of the time elapsed since the preceding test of the Electric Metering Devices. To the extent that the adjustment period covers a period of deliveries for which payment has already been made by Buyer, Buyer shall use the corrected measurements as determined in accordance with this Section 11.6 to recompute the amount due for the period of the inaccuracy and shall subtract the previous payments by Buyer for this period from such recomputed amount. If the difference is a positive number, the difference shall be paid by Buyer to Seller; if the difference is a negative number, that difference shall be paid by Seller to Buyer, or at the discretion of Buyer, may take the form of an offset to payments due to Seller from Buyer. Payment of such difference by the owing Party shall be made not later than thirty (30) days after the owing Party receives notice of the amount due, unless Buyer elects payment via an offset.

(d) Seller shall work with Buyer to establish direct access by the Buyer to interval meter data for purposes of Buyer reconciliation of invoices.

**Section 11.7 Taxes.** Seller shall be responsible for and shall pay before the due dates therefor, any and all federal, state and local Taxes incurred by it as a result of entering into this Agreement and all Taxes imposed or assessed with respect to each Facility, each Site, or any other assets of Seller, the sale of Facility Energy and Green Attributes and all Taxes related to Seller's income. Buyer shall be responsible for and shall pay before the due dates therefor, any and all federal, state and local Taxes incurred by it as a result of entering into this Agreement and all Taxes imposed or assessed with respect to any assets of Buyer or the purchase of Facility Energy and Green Attributes under this Agreement.

Failure by either Party to make any payment under this Agreement or any of the Buyer Ancillary Documents, in the case of Buyer, or Seller Ancillary Documents, in the case of Seller, when and as due which is not cured within thirty (30) calendar days after receipt of notice thereof.

(b) Performance Default. Failure by Buyer or Seller to perform any of its other duties or obligations under this Agreement or any of the Buyer Ancillary Documents, in the case of Buyer, or Seller Party Ancillary Documents, in the case of Seller, except for obligations as to which an express remedy is herein provided, when and as required that is not cured within thirty (30) days after receipt of notice thereof; provided that if such failure cannot be cured within such thirty (30) day period, despite reasonable commercial efforts and such failure is not a failure to make a payment when due, the non-performing Party shall have up to ninety (90) days to cure.

(c) Breach of Representation and Warranty. Inaccuracy in any material respect at the time made or deemed to be made of any representation, warranty, certification, or other statement made herein or in any Buyer Ancillary Document, in the case of Buyer, or Seller Ancillary Documents, in the case of Seller, which representation, warranty, certification or other statement is not cured within thirty (30) days after receipt of notice thereof.

(d) Buyer Bankruptcy. Bankruptcy of Buyer.

(e) Seller Bankruptcy. Bankruptcy of Seller.

(f) Shortfall Energy Default. The failure of Seller to deliver in each of two consecutive Contract Years at least fifty percent (50%) of the Guaranteed Generation, which shall be reduced by the amount of Facility Energy that would have been generated and delivered during such Contract Year but for (i) Force Majeure, (ii) Buyer's failure to perform (including Buyer's failure to receive Facility Energy under Section 6.3), or (iii) curtailment pursuant to Section 7.4.

(g) Performance Security Failure. The failure of Seller to maintain or replace the Performance Security in compliance with Section 5.9.

(h) Buyer Financial Covenants. The failure of Buyer, following Project Participant Approval, to maintain Buyer Liability Pass Through Agreements from Project Participants with Liability Shares that total one hundred percent (100%), and such failure is not remedied within thirty (30) days after written notice thereof, or the termination or expiration of the Project Participation Share Agreement.

(i) Insurance Default. The failure of Seller or any Project Company to maintain and provide acceptable evidence of Insurance unless cured within ten (10) days.

(j) Fundamental Change. Except as permitted by Section 14.7 (i) a Party makes an assignment of its rights or a delegation of its obligations under this Agreement (other than as a result of a transaction or series of transactions that does not constitute a Change in Control) or (ii) a Change in Control occurs (whether voluntary or by operation of law).

### **Section 13.2 Default Remedy.**

(a) If Buyer is in Default for nonpayment, subject to any duty or obligation under this Agreement, Seller may continue to provide services pursuant to its obligations under this Agreement; provided that nothing in this Section 13.2(a) shall affect Seller's rights and remedies set forth in this Section 13.2. Seller's continued service to Buyer shall not act to relieve Buyer of any of its duties or obligations under this Agreement.

(b) Notwithstanding any other provision herein, if any Default has occurred and is continuing, the affected Party may, whether or not the dispute resolution procedure set forth in Section 14.3 has been invoked or completed, bring an action in any court of competent jurisdiction as set forth in Section 14.13 seeking injunctive relief in accordance with applicable rules of civil procedure.

(c) Except as expressly limited by this Agreement, if a Default has occurred and is continuing and the Buyer is the Defaulting Party, Seller may without further notice exercise any rights and remedies provided herein or otherwise available at law or in equity, including the right to terminate this Agreement pursuant to Section 13.3. No failure of Seller to exercise, and no delay in exercising, any right, remedy or power hereunder shall operate as a waiver thereof, nor shall any single or partial exercise by Seller of any other right, remedy or power hereunder preclude any other or future exercise of any right, remedy or power.

(d) Except as expressly limited by this Agreement, if a Default has occurred and is continuing and the Seller is the Defaulting Party, Buyer may without further notice exercise any rights and remedies provided for herein or otherwise available at law or equity, including (i)

application of all amounts available under the Performance Security against any amounts then payable by Seller to Buyer under this Agreement and (ii) termination of this Agreement pursuant to Section 13.3. No failure of Buyer to exercise, and no delay in exercising, any right, remedy or power hereunder shall operate as a waiver thereof, nor shall any single or partial exercise by Buyer of any right, remedy or power hereunder preclude any other or future exercise of any right, remedy or power.

### **Section 13.3 Termination for Default.**

(a) If a Default occurs, the Party that is not the Defaulting Party (the “*Non-Defaulting Party*”) may, for so long as the Default is continuing and without limiting any other rights or remedies available to the Non-Defaulting Party under this Agreement, by notice (“*Termination Notice*”) to the Defaulting Party (i) establish a date (which shall be no earlier than the date of such notice and no later than twenty (20) days after the date of such notice) (“*Early Termination Date*”) on which this Agreement shall terminate, and (ii) withhold any payments due in respect of this Agreement; provided, upon the occurrence of any Default of the type described in Section 13.1(d) or Section 13.1(e), this Agreement shall automatically terminate, without notice or other action by either Party as if an Early Termination Date had been declared immediately prior to such event.

(b) If an Early Termination Date has been designated, the Non-Defaulting Party shall calculate in a commercially reasonable manner its Gains, Losses and Costs resulting from the termination of this Agreement and the resulting Termination Payment. The Gains, Losses and Costs relating to the Facility Energy, Capacity Rights and Green Attributes that would have been required to be delivered under this Agreement had it not been terminated shall be determined by comparing the amounts Buyer would have paid therefor under this Agreement to the equivalent quantities and relevant market prices either quoted by a bona fide third party offer or which are reasonably expected by Buyer to be available in the market under a replacement contract for this Agreement covering the same products and having a term equal to the Remaining Term at the date of the Termination Notice adjusted to account for differences in transmission, if any. The Non-Defaulting Party shall not be required to enter into any such replacement agreement in order to determine its Gains, Losses and Costs or the Termination Payment. To ascertain the market prices of a replacement contract, the Non-Defaulting Party may consider, among other valuations, quotations from dealers in energy contracts and bona fide third party offers. If the Non-Defaulting Party’s Costs and Losses exceed its Gains, then the Termination Payment shall be an amount owing to the Non-Defaulting Party. If the Non-Defaulting Party’s Gains exceed its Costs and Losses, then the Termination Payment shall be zero dollars (\$0). The Termination Payment shall not include consequential, incidental, punitive, exemplary, or indirect or business interruption damages.

(c) For purposes of the Non-Defaulting Party’s determination of its Gains, Losses and Costs and the Termination Payment, it shall be assumed, regardless of the facts, that Seller would have sold, and Buyer would have purchased, each day during the Remaining Term (i) Facility Energy in an amount equal the Assumed Daily Deliveries, and (ii) the Green Attributes associated therewith. The “*Assumed Daily Deliveries*” is an amount equal to the Guaranteed Generation for the then current Contract Year *multiplied* by 1.0556, divided by 365.

(d) The Non-Defaulting Party shall notify the Defaulting Party of the Termination Payment, which notice shall include a written statement explaining in reasonable detail the calculation of such amount. The Defaulting Party shall, within ten (10) Business Days after receipt of such notice, pay the Termination Payment to the Non-Defaulting Party, together with interest accrued at the Interest Rate from the Early Termination Date until paid.

(e) If the Defaulting Party disagrees with the calculation of the Termination Payment and the Parties cannot otherwise resolve their differences, the calculation issue shall be submitted to informal non-binding dispute resolution as provided in Section 14.3(a). Following resolution of the dispute, the Defaulting Party shall pay the full amount of the Termination Payment (if any) determined by such resolution as and when required, but no later than thirty (30) days following the date of such resolution, together with all interest, at the Interest Rate, that accrued from the Early Termination Date until the date the Termination Payment is paid.

(f) For purposes of this Agreement:

(i) “*Gains*” means, with respect to a Party, an amount equal to the present value of the economic benefit (exclusive of Costs), if any, resulting from the termination of its obligations under this Agreement, determined in a commercially reasonable manner;

(ii) “*Losses*” means, with respect to a Party, an amount equal to the present value of the economic loss (exclusive of Costs), if any, resulting from the termination of its obligations under this Agreement, determined in a commercially reasonable manner;

(iii) “*Costs*” means, with respect to a Party, brokerage fees, commissions and other similar transaction costs and expenses reasonably incurred in terminating any arrangement pursuant to which it has hedged its obligations or entering into new arrangements which replace this Agreement, excluding attorneys’ fees, if any, incurred in connection with enforcing its rights under this Agreement. Each Party shall use reasonable efforts to mitigate or eliminate its Costs.

(iv) In no event shall a Party’s Gains, Losses or Costs include any penalties or similar charges imposed by the Non-Defaulting Party; provided, however, that Buyer may include in a calculation of Losses, should Seller be the Defaulting Party, any RA Penalties resulting from Seller’s Default.

(g) At the time for payment of any amount due under this Section 13.3, each Party shall pay to the other Party all additional amounts, if any, payable by it under this Agreement (including any amounts withheld pursuant to Section 13.3(a)(ii) above).

**Section 13.4 Pass Through of Buyer Liability.** Notwithstanding any other provision of this Agreement, if Buyer fails to make when due any payment required pursuant to this Agreement, and such failure is not remedied within thirty (30) calendar days after receipt of notice thereof, Seller may, without waiving any of its rights with respect to Buyer except as expressly provided herein, pursue remedies under any or all of the Buyer Liability Pass Through Agreements as provided therein. Seller hereby waives the right to recover directly from Buyer any Termination

Payment owed by Buyer that is not paid by Buyer pursuant to Section 13.3(d), but the foregoing waiver does not apply to any other right or remedy of Seller under this Agreement, including the right to recover payments owed by Buyer pursuant to Section 11.2, other amounts payable or reimbursable under this Agreement or any other amounts incurred or accrued prior to termination of this Agreement, and the right to terminate the Agreement as the result of a Default by Buyer.

**Section 13.5 No Recourse to Members of Buyer.** Buyer is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) pursuant to its Joint Powers Agreement and is a public entity separate from its constituent members. Except as set forth in Section 13.4 and any Buyer Liability Pass Through Agreements issued by one or more Project Participants pursuant to Section 5.12, Buyer shall solely be responsible for all debts, obligations and liabilities accruing and arising out of this Agreement, and Seller shall have no rights and shall not make any claims, take any actions or assert any remedies against any of Buyer's constituent members, or the employees, directors, officers, consultants or advisors or Buyer or its constituent members, in connection with this Agreement.

#### ARTICLE XIV MISCELLANEOUS

**Section 14.1 Authorized Representative.** Each Party shall designate an authorized representative who shall be authorized to act on its behalf with respect to those matters contained herein (each an "**Authorized Representative**"), which shall be the functions and responsibilities of such Authorized Representatives. Each Party may also designate an alternate who may act for the Authorized Representative. Within thirty (30) days after execution of this Agreement, each Party shall notify the other Party of the identity of its Authorized Representative, and alternate if designated, and shall promptly notify the other Party of any subsequent changes in such designation. The Authorized Representatives shall have no authority to alter, modify, or delete any of the provisions of this Agreement.

**Section 14.2 Notices.** With the exception of billing invoices pursuant to Section 11.2(b) hereof, all notices, requests, demands, consents, waivers and other communications which are required under this Agreement shall be (a) in writing (regardless of whether the applicable provision expressly requires a writing), (b) deemed properly sent if delivered in person or sent by facsimile transmission, reliable overnight courier, or sent by registered or certified mail, postage prepaid to the persons specified in Appendix C, and (c) deemed delivered, given and received on the date of delivery, in the case of facsimile transmission, or on the date of receipt in the case of registered or certified mail. In addition to the foregoing, the Parties may agree in writing at any time to deliver notices, requests, demands, consents, waivers and other communications through alternate methods, such as electronic mail.

#### **Section 14.3 Dispute Resolution.**

(a) In the event of any claim, controversy or dispute between the Parties arising out of or relating to or in connection with this Agreement (including any dispute concerning the validity of this Agreement or the scope and interpretation of this Section 14.3) (a "**Dispute**"), either Party (the "**Notifying Party**") may deliver to the other Party (the "**Recipient Party**") notice of the

Dispute with a detailed description of the underlying circumstances of such Dispute (a “**Dispute Notice**”). The Dispute Notice shall include a schedule of the availability of the Notifying Party’s senior officers (having a title of senior vice president (or its equivalent) or higher) duly authorized to settle the Dispute during the thirty (30) day period following the delivery of the Dispute Notice.

(b) The Recipient Party shall within five (5) Business Days following receipt of the Dispute Notice, provide to the Notifying Party a parallel schedule of availability of the Recipient Party’s senior officers (having a title of senior vice president (or its equivalent) or higher) duly authorized to settle the Dispute. Following delivery of the respective senior officers’ schedules of availability, the senior officers of the Parties shall meet and confer as often as they deem reasonably necessary during the remainder of the thirty (30) day period in good faith negotiations to resolve the Dispute to the satisfaction of each Party.

(c) In the event a Dispute is not resolved pursuant to the procedures set forth in Section 14.3(a) and Section 14.3(b) by the expiration of the thirty (30) day period set forth in Section 14.3(a), then either Party may pursue any legal remedy available to it in accordance with the provisions of Section 14.13 of this Agreement.

**Section 14.4 Further Assurances.** Each Party agrees to execute and deliver all further instruments and documents and take all further action not inconsistent with the provisions of this Agreement that may be reasonably necessary to effectuate the purposes and intent of this Agreement.

**Section 14.5 No Dedication of Facilities.** Any undertaking by one Party hereto to the other Party under any provisions of this Agreement shall not constitute the dedication of the system or any portion thereof of either Party to the public or to the other Party or any other Person, and it is understood and agreed that any such undertaking by either Party shall cease upon the termination of such Party’s obligations under this Agreement.

**Section 14.6 Force Majeure.**

(a) A Party shall not be considered to be in default in the performance of any of its obligations under this Agreement, other than an obligation to make payment, when and to the extent such Party’s performance is prevented by a Force Majeure that, despite the exercise of due diligence, such Party is unable to prevent or mitigate, provided the Party, as soon as practicable after becoming aware of the Force Majeure, declares the Force Majeure by giving a written notice (the “**Force Majeure Notice**”) to the other Party and upon request by the other Party furnishes the other Party with a detailed description of the full particulars of the Force Majeure reasonably promptly (and in any event within fourteen (14) days after the request therefor), which shall include information with respect to the nature, cause and date and time of commencement of such event, and the anticipated scope and duration of the delay. The Party providing the Force Majeure Notice shall be excused from fulfilling its obligations under this Agreement until such time as the Force Majeure has ceased to prevent performance or other remedial action is taken, at which time the Party shall promptly notify the other Party of the resumption of its obligations under this Agreement. If Seller is unable to deliver, or Buyer is unable to receive, Facility Energy due to a Force Majeure, Buyer shall have no obligation to pay Seller for the Energy not delivered or received by reason thereof. It is understood by the Parties that the foregoing provisions shall not

excuse any obligations of Seller with respect to Guaranteed Generation, as provided for under Article IX, that is not achieved due to Force Majeure, provided that Seller's requirement to provide the Guaranteed Generation shall be extended for the duration of the Force Majeure. In no event shall Buyer be obligated to compensate Seller or any other Person for any losses, expenses or liabilities that Seller or such other Person may sustain as a consequence of any Force Majeure.

(b) The term "***Force Majeure***" means (i) curtailment or interruption of Transmission Service (subject to Section 14.6(c)), any act of God, labor disturbance, act of the public enemy, war, insurrection, riot, civil disturbances, sabotage, blockade, expropriation, confiscation, fire, unusual or extreme adverse weather-related events or natural disasters (such as lightning, landslide, earthquake, tornado, hurricane, storm or flood), condemnation, epidemic, pandemic (including the disease designated COVID-19 or the related virus designated SARS-CoV-2 or any mutation thereof), or any order, regulation or restriction imposed by WECC or NERC or by governmental, military or lawfully established civilian authorities, or (ii) any other event of circumstance, which, in each case of clauses (i) and (ii), (A) prevents one Party from performing any of its obligations under this Agreement, (B) is not within the reasonable control of, or the result of negligence, willful misconduct, breach of contract, intentional act or omission or wrongdoing on the part of the affected Party (or any subcontractor or Affiliate of that Party, or any Person under the Control of that Party or any of its subcontractors or Affiliates, or any Person for whose acts such subcontractor or Affiliate is responsible), and (C) which by the exercise of due diligence the affected Party is unable to overcome or avoid or cause to be avoided; provided, nothing in this clause (C) shall be construed so as to require either Party to accede or agree to any provision not satisfactory to it in order to settle and terminate a strike or labor dispute in which it may be involved. Any Party rendered unable to fulfill any of its obligations by reason of a Force Majeure shall exercise due diligence to remove such inability with reasonable dispatch within a reasonable time period and mitigate the effects of the Force Majeure. The relief from performance shall be of no greater scope and of no longer duration than is required by the Force Majeure. Without limiting the generality of the foregoing, a Force Majeure does not include any of the following (each an "***Unexcused Cause***"): (1) any Change in Law that shall cause the RPS to be no longer in force or effect or that, as a result of such Change in Law, Seller shall be unable to make a Facility RPS Compliant as provided in Section 8.6; (2) events arising from the failure by Seller to construct, operate or maintain a Facility in accordance with this Agreement; (3) any increase of any kind in any cost; (4) delays in or inability of a Party to obtain financing or other economic hardship of any kind; (5) Seller's ability to sell any Energy at a price in excess of those provided in this Agreement; (6) Seller's failure to secure or obtain interconnection of a Facility or Transmission Services to a Point of Delivery; (7) curtailment or other interruption of any Transmission Services except as otherwise expressly provided in Section 14.6(c); (8) failure of third parties to provide goods or services essential to a Party's performance except to the extent caused by an event that otherwise constitutes Force Majeure hereunder; (9) Facility or equipment failure of any kind except to the extent caused by an event that otherwise constitutes Force Majeure hereunder; (10) any changes in the financial condition of the Buyer, any Seller Party, the Facility Lender or any subcontractor or supplier affecting the affected Party's ability to perform its obligations under this Agreement; or (11) drought in any county in which the affected Facility is located except to the extent it is a drought that (i) begins after the Effective Date, and (ii) is materially more severe than the drought conditions that have existed during the ten (10) year period prior to the Commercial Operation Date of the Facility as determined by the National Integrated Drought Information System.

(c) Neither Party may raise a claim of Force Majeure based in whole or in part on curtailment or other interruption of Transmission Services for any Energy at any time unless (A) such Party has arranged for Firm Transmission to be provided for the Facility Energy in connection with such Transmission Service at the time, and (B) the curtailment or interruption is not due to the fault or negligence of the Party claiming Force Majeure; provided, that notwithstanding anything in this Section to the contrary, the existence of the foregoing factors shall not be sufficient to conclusively or presumptively prove the existence of Force Majeure absent a showing of other facts and circumstances which in the aggregate with such factors establish that a Force Majeure as defined in Section 14.6(b) has occurred. For the avoidance of doubt, Buyer may not claim Force Majeure for any curtailment, interruption or other circumstance associated with Transmission Services downstream of a Point of Delivery, unless and to the extent that such curtailment, interruption or circumstance prevents Buyer or Buyer's Transmission Provider from receiving Facility Energy at such Point of Delivery.

(d) During the Delivery Term, if one or more events of Force Majeure (i) shall cause the aggregate capacity net of Parasitic Load of the Facilities that have achieved Commercial Operation to be reduced to a capacity of less than fifty percent (50%) of the Project Net Capacity prior to the event of Force Majeure (adjusted to reflect the difference between ambient temperatures and annual average temperature) for a period of six (6) consecutive months, or (ii) shall prevent Buyer from accepting more than fifty percent (50%) of the Project Net Capacity prior to the event of Force Majeure (adjusted to reflect the difference between ambient temperatures and annual average temperature) at the Points of Delivery for any hour that a Facility is able to generate Facility Energy for a period of six (6) consecutive months (the period of six (6) consecutive months in either (i) or (ii), the "*Force Majeure Trigger Period*"), the non-claiming Party shall have the right, if the claiming Party is unable to overcome the condition in clause (i) or (ii) above, as applicable, within the Force Majeure Cure Period, to terminate this Agreement upon the last day of such Force Majeure Cure Period, so long as written notice of termination is received by the other Party prior to the end of the Force Majeure Cure Period. Such termination shall automatically trigger release and return of the Delivery Term Security in accordance with Section 5.9(d).

(e) If one or more events of Force Majeure shall prevent or delay Seller from causing the Project Net Capacity to be equal to or greater than ninety percent (90%) of the Minimum Capacity by the Minimum Capacity Cure Date, then Buyer shall have the right to terminate this Agreement upon the Minimum Capacity Cure Date. Such termination shall automatically trigger release and return of the Project Development Security in accordance with Section 5.9(c).

#### **Section 14.7 Assignment of Agreement; Certain Agreements by Seller.**

(a) Except as set forth in this Section 14.7, neither Party may assign any of its rights, or delegate any of its obligations, under this Agreement or the Ancillary Documents without the prior written consent of the other Party, such consent not to be unreasonably withheld, conditioned or delayed. Any Change in Control (whether voluntary or by operation of law) shall be deemed an assignment and shall require the prior written consent of Buyer, which consent shall not be unreasonably withheld, conditioned or delayed. Seller shall provide Buyer with sixty (60) days' prior written notice of any proposed Change in Control. Concurrently with any reorganization or financing transaction or transactions constituting any Change in Control in which

Seller merges or consolidates with any other Person and ceases to exist, the successor entity to Seller shall execute a written assumption agreement in favor of Buyer pursuant to which any such successor entity shall assume all of the obligations of Seller under this Agreement and the Seller Ancillary Documents to which Seller is a party and agree to be bound by all the terms and conditions of this Agreement and such Seller Ancillary Documents, as applicable.

(b) Buyer may from time to time and at any time assign any or all of its rights, and delegate any or all of its obligations, under this Agreement in whole or in part without the consent of Seller to any of Buyer's Members that has executed, or will execute contemporaneously with such assignment, an agreement to purchase the Energy delivered to Buyer under this Agreement; provided that the proposed assignee has an Investment-Grade Credit Rating and an assignment pursuant to this Section 14.7 will not impair the assignee's credit rating. Except as set forth in this Section 14.7(b), Buyer shall not assign any of its rights, or delegate any of its obligations, under this Agreement without the prior written consent of Seller, which consent shall not be withheld, conditioned or delayed unreasonably. Any purported assignment or delegation in violation of this provision shall be null and void and of no force or effect.

(c) Except as set forth in or permitted by this Section 14.7, neither Seller nor any Project Company has sold or transferred or shall sell or transfer any Facility to any Person, without the prior written consent of Buyer, which consent shall not be withheld, conditioned or delayed unreasonably. Any purported sale or transfer in violation of this Section 14.7(c) shall be null and void and of no force or effect.

(d) There are no third-party beneficiaries of this Agreement, and, except as provided in this Section 14.7, this Agreement shall not grant any rights enforceable by any Person not a party to this Agreement. Notwithstanding the foregoing, Buyer's consent shall not be required for Seller to collaterally assign this Agreement to any Facility Lender for the sole purpose of financing or refinancing. Seller shall provide Buyer with prior written notice of any such assignment to any Facility Lender. Notwithstanding the foregoing or anything else expressed or implied herein to the contrary, Seller shall not assign, transfer, convey, encumber, sell or otherwise dispose of all or any portion of the Facility Energy, Capacity Rights or Green Attributes (not including the proceeds thereof) to any Facility Lender.

(e) To facilitate Seller's or its Affiliates' obtaining of financing or refinancing after the date of this Agreement in connection with the construction and/or operation of one or more Facilities, which may be financed individually or in one or more Portfolios as provided in Section 14.7(f), or the performance by Seller of its obligations under this Agreement, Buyer shall provide such consents to assignment of this Agreement, any Buyer Ancillary Documents and/or any Seller Ancillary Documents, in each case not including the deed of trust, mortgage or similar arrangement referred to in Section 14.7(f), (in form and substance reasonably satisfactory to Buyer), as may be reasonably requested by Seller or any Facility Lender in connection with such financing, including the acquisition of equity for the development, construction, or operation of one or more Facilities or Seller. Seller shall reimburse, or shall cause the Facility Lender to reimburse, Buyer for the reasonable incremental direct third-party expenses incurred by Buyer in the preparation, negotiation, execution or delivery of any documents requested by Seller or the Facility Lender, and provided by Buyer, pursuant to this Section 14.7(e).

(f) Notwithstanding anything to the contrary in this Agreement, Seller or one of more Affiliates thereof may hereafter enter into one or more credit or other agreements with one or more Facility Lenders providing for financing or refinancing of one or more Facilities, individually or as a Portfolio, (each, a “**Facility Credit Agreement**”) that provides, as security for Seller’s or such Affiliates’ performance thereunder, in addition to any assignment of this Agreement (if applicable), for a Lien on and security interest in and to the Facility(ies) or the Portfolio (as applicable) under a deed of trust, mortgage or similar arrangement, but only with the consent by Buyer (which consent shall not be withheld, conditioned or delayed unreasonably) provided pursuant to an agreement by and among Buyer, Seller or Seller’s Affiliates and the Facility Lender which shall be in form and substance reasonably acceptable to Buyer and shall contain terms that are customary for such consents provided in the context of arrangements similar to those contemplated in this Agreement.

**Section 14.8 Ambiguity.** The Parties acknowledge that this Agreement was jointly prepared by them, by and through their respective legal counsel, and any uncertainty or ambiguity existing herein shall not be interpreted against either Party on the basis that the Party drafted the language, but otherwise shall be interpreted according to the application of the rules on interpretation of contracts.

**Section 14.9 Attorney Fees & Costs.** Both Parties hereto agree that in any action to enforce the terms of this Agreement that each Party shall be responsible for its own attorney fees and costs. Each of the Parties to this Agreement was represented by its respective legal counsel during the negotiation and execution of this Agreement. Notwithstanding the foregoing, to the extent Buyer incurs third party legal costs in order to facilitate any collateral assignment or pledge of this Agreement under Section 14.7 or in taking such other action or review that is at the request of Seller, Seller shall bear Buyer’s reasonable and documented third party legal costs therefor.

**Section 14.10 Voluntary Execution.** Both Parties hereto acknowledge that they have read and fully understand the content and effect of this Agreement and that the provisions of this Agreement have been reviewed and approved by their respective counsel. The Parties to this Agreement further acknowledge that they have executed this Agreement voluntarily, subject only to the advice of their own counsel, and do not rely on any promise, inducement, representation or warranty that is not expressly stated herein.

**Section 14.11 Entire Agreement.** This Agreement (including all Appendices and Exhibits) contains the entire understanding concerning the subject matter herein and supersedes and replaces any prior negotiations, discussions or agreements between the Parties, or any of them, concerning that subject matter, whether written or oral, except as expressly provided for herein. This is a fully integrated document. Each Party acknowledges that no other party, representative or agent, has made any promise, representation or warranty, express or implied, that is not expressly contained in this Agreement that induced the other Party to sign this document. This Agreement may be amended or modified only by an instrument in writing signed by each Party.

**Section 14.12 Governing Law.** This agreement and the rights and duties of the parties hereunder shall be governed by and construed, enforced and performed in accordance with the laws of the state of California, without regard to principles of conflicts of Law. To the extent enforceable at such time, each party waives its respective right to any jury trial with respect to any

litigation arising under or in connection with this agreement. [STC 17]. For avoidance of doubt, although “agreement” is not capitalized in this Section 14.12, the parties intend for “agreement” to mean this Agreement, and for “party” and “parties” to refer to the Party and Parties as set forth in the preamble to this Agreement.

**Section 14.13 Venue.** The Parties agree that any suit, action or other legal proceeding by or against any party (or its affiliates or designees) with respect to or arising out of this Agreement shall be brought in the federal courts of the United States or the courts of the State of California sitting in San Francisco County, California. The Parties irrevocably agree to submit to the exclusive jurisdiction of such courts in the State of California and waive any defense of *forum non conveniens*.

**Section 14.14 Execution in Counterparts.** This Agreement may be executed in counterparts and upon execution by each signatory, each executed counterpart shall have the same force and effect as an original instrument and as if all signatories had signed the same instrument. Any signature page of this Agreement may be detached from any counterpart of this Agreement without impairing the legal effect of any signature thereon, and may be attached to another counterpart of this Agreement identical in form hereto by having attached to it one or more signature pages.

**Section 14.15 Effect of Section Headings.** Section headings appearing in this Agreement are inserted for convenience only and shall not be construed as interpretations of text.

**Section 14.16 Waiver.** The failure of either Party to this Agreement to enforce or insist upon compliance with or strict performance of any of the terms or conditions hereof, or to take advantage of any of its rights hereunder, shall not constitute a waiver or relinquishment of any such terms, conditions or rights, but the same shall be and remain at all times in full force and effect. Notwithstanding anything expressed or implied herein to the contrary, nothing contained herein shall preclude either Party from pursuing any available remedies for breaches not rising to the level of a Default, including recovery of damages caused by the breach of this Agreement and specific performance or any other remedy given under this Agreement or now or hereafter existing in law or equity or otherwise. Seller acknowledges that money damages may not be an adequate remedy for violations of this Agreement and that Buyer may, in its sole discretion, seek and obtain from a court of competent jurisdiction specific performance or injunctive or such other relief as such court may deem just and proper to enforce this Agreement or to prevent any violation hereof. Seller hereby waives any objection to specific performance or injunctive relief. The rights granted herein are cumulative.

**Section 14.17 Relationship of the Parties.** This Agreement shall not be interpreted to create an association, joint venture or partnership between the Parties hereto or to impose any partnership obligation or liability upon either such Party. Neither Party shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as an agent or representative of, the other Party.

**Section 14.18 Third-Party Beneficiaries.** This Agreement shall not be construed to create rights in, or to grant remedies to, any third party as a beneficiary of this Agreement or any duty, obligation or undertaking established herein.

**Section 14.19 Damage or Destruction; Insurance; Condemnation; Limit of Liability.**

(a) **Damage or Destruction.** In the event of any damage or destruction of a Facility or any part thereof, Subject to the consent of the Facility Lender, Seller shall apply any applicable proceeds of Insurance directly related to such damage or destruction to cause the Facility or such part thereof to be diligently repaired, replaced or reconstructed by Seller so that the Facility or such part thereof shall be restored to substantially the same general condition and use as existed prior to such damage or destruction, unless a different condition or use is approved by the Buyer.

(b) **Insurance.** Seller shall obtain and maintain the Insurance in accordance with Appendix F.

(c) **Condemnation or Other Taking.** For the Agreement Term, Seller shall immediately notify Buyer of the institution of any proceeding for the condemnation or other taking of a Facility or any portion thereof. Buyer may seek to participate in any such proceeding and Seller will deliver to Buyer all instruments reasonably available to Seller that are necessary or required by Buyer to permit such participation. Subject to the consent of the Facility Lender, all awards and compensation for the taking or purchase in lieu of condemnation of a Facility or any portion thereof shall be applied toward the repair, restoration, reconstruction or replacement of the Facility.

(d) **Limitation of Liability.** Except to the extent included in the liquidated damages, indemnification obligations related to third party claims or other specific charges expressly provided for herein, neither Party hereunder shall be liable for special, incidental, exemplary, indirect, punitive or consequential damages arising out of a Party's performance or non-performance under this Agreement, whether based on or claimed under contract, tort (including such Party's own negligence) or any other theory at law or in equity.

**Section 14.20 Severability.** In the event any of the terms, covenants or conditions of this Agreement, or the application of any such terms, covenants or conditions, shall be held invalid, illegal or unenforceable by any court having jurisdiction, all other terms, covenants and conditions of this Agreement and their application not adversely affected thereby shall remain in force and effect, provided that the remaining valid and enforceable provisions materially retain the essence of the Parties' original bargain.

**Section 14.21 Confidentiality.**

(a) Each Party agrees, and shall use reasonable efforts to cause its parent, subsidiary and Affiliates, and its and their respective directors, officers, employees and representatives, to keep confidential, except as required by law, all documents, data, drawings, studies, projections, plans and other written information that relate to economic benefits to or amounts payable by either Party under this Agreement, and, with respect to documents, that are clearly marked "Confidential" at the time a Party shares such information with the other Party or, if orally disclosed, clearly identified as "Confidential" at the time a Party shares such information with the other Party ("**Confidential Information**"). The provisions of this Section 14.21 shall survive and shall continue to be binding upon the Parties for period of one (1) year following the

date of termination of this Agreement. Notwithstanding the foregoing, information shall not be considered Confidential Information if such information (i) is disclosed with the prior written consent of the originating Party, (ii) was in the public domain prior to disclosure or is or becomes publicly known or available other than through the action of the receiving Party in violation of this Agreement, (iii) was lawfully in a Party's possession or acquired by a Party outside of this Agreement, which acquisition was not known by the receiving Party to be in breach of any confidentiality obligation, or (iv) is developed independently by a Party based solely on information that is not considered confidential under this Agreement.

(b) Either Party may, without violating this Section 14.21, disclose matters that are made confidential by this Agreement:

(i) to its counsel, accountants, auditors, advisors, other professional consultants, credit rating agencies, actual or prospective co-owners, investors, lenders, underwriters, contractors, suppliers, and others involved in construction, operation and financing transactions and arrangements for a Party or its subsidiaries, Affiliates, or parent;

(ii) to governmental officials and parties involved in any proceeding in which either Party is seeking a permit, certificate, or other regulatory approval or order necessary or appropriate to carry out this Agreement; and

(iii) to governmental officials or the public as required by any law, regulation, order, rule, order, ruling or other Requirement of Law, including oral questions, discovery requests, subpoenas, civil investigations or similar processes and laws or regulations requiring disclosure of financial information, information material to financial matters, and filing of financial reports. Each Party hereto acknowledges and agrees that information and documentation provided in connection with this Agreement may be subject to the California Records Act (Government Code Section 6250 et seq.).

(c) If a Party is requested or required, pursuant to any applicable law, regulation, order, rule, order, ruling or other Requirement of Law, discovery request, subpoena, civil investigation or similar process to disclose any of the Confidential Information, such Party shall provide prompt written notice to the other Party of such request or requirement so that at such other Party's expense, such other Party can seek a protective order or other appropriate remedy concerning such disclosure.

**Section 14.22 Mobile-Sierra.** Notwithstanding any provision of this Agreement, neither Party shall seek, nor shall they support any third party in seeking, to prospectively or retroactively revise the rates, terms or conditions of service of this Agreement through application or complaint to FERC pursuant to the provisions of Section 205, 206 or 306 of the Federal Power Act, or any other provisions of the Federal Power Act, absent prior written agreement of the Parties. Further, absent the prior agreement in writing by both Parties, the standard of review for changes to the rates, terms or conditions of this Agreement proposed by a Party, a non-Party or the FERC acting sua sponte shall be the "public interest" application of the "just and reasonable" standard of review set forth in *United Gas Pipe Line Co. v. Mobile Gas Service Corp.*, 350 US 332 (1956) and *Federal Power Commission v. Sierra Pacific Power Co.*, 350 US 348 (1956).

**Section 14.23 Service Contract and Forward Contract.**

(a) The Parties intend that this Agreement will qualify as a “service contract” as such term is used in Section 7701(e) of the United States Internal Revenue Code of 1986.

(b) The Parties acknowledge and agree that this Agreement constitutes a “Forward Contract” within the meaning of the United States Bankruptcy Code.

## APPENDIX A

### PAYMENT SCHEDULE

Buyer shall compensate Seller for the Delivered Energy, Capacity Rights, and associated Green Attributes in accordance with this Appendix A.

1. **Energy Delivered Prior to Commercial Operation.** The purchase price for Delivered Energy that is comprised of Facility Energy from a Facility prior to the Commercial Operation Date for such Facility shall be the Contract Price per MWh; provided, in no event shall Buyer be obligated to purchase or receive Delivered Energy in excess of the Maximum Generation unless Buyer shall by notice given to Seller elect to purchase any such Energy in excess of Maximum Generation.
2. **Energy Delivered Following Commercial Operation.** The purchase price for Delivered Energy that is comprised of Facility Energy from a Facility after the Commercial Operation Date for such Facility or for Replacement Energy shall be the Contract Price per MWh; provided, in no event shall Buyer be obligated to purchase or receive Delivered Energy in excess of the Maximum Generation unless Buyer shall by notice given to Seller elect to purchase any such Energy in excess of Maximum Generation.
3. **Payment for Curtailed Energy during Market Curtailment Period.** Buyer shall pay Seller the Contract Price per MWh for Energy that is curtailed as a result of a Market Curtailment Period, with the quantity of such curtailed Energy determined pursuant to Section 7.4.
4. **Calculation of Monthly Delivered Energy Payment.** For each MWh of Delivered Energy in each Settlement Period, Buyer shall pay Seller the difference of: (i) the Contract Price per MWh; *minus* (ii) the Day-Ahead Market LMP applicable to the Settlement Point for such Settlement Period; *provided, however*, that (A) if the Day-Ahead Market LMP applicable to the Settlement Point for such Settlement Period is less than the Negative LMP Strike Price, then the Day-Ahead Market LMP applicable to the Settlement Point for such Settlement Period shall be deemed to be equal to the Negative LMP Strike Price, and (B) if the result of the difference of (i) *minus* (ii) above results in a negative value, then Seller shall pay Buyer the absolute value of such result (which payment may be applied as a credit to Buyer on Seller's monthly invoice). Seller, through its Scheduling Coordinator, shall receive (and, except as otherwise provided in subpart (B) above, is entitled to retain) payment for Delivered Energy from CAISO for such delivery based on the applicable Energy price, as published by CAISO. For the avoidance of doubt, Buyer is purchasing a bundled product and Seller's receipt of payment directly via CAISO settlements is for the Parties' mutual convenience.
5. **Negative LMP Strike Price.** Buyer may change the Negative LMP Strike Price by providing written notice to Seller at least five (5) Business Days prior to the effective date of such change, which notice must identify the new Negative LMP Strike Price and the effective date for the new Negative LMP Strike Price; *provided, however*, that the

Negative LMP Strike Price identified by Buyer must be less than or equal to zero dollars per MWh (\$0/MWh).

### INSURANCE

#### **I. GENERAL REQUIREMENTS**

Prior to the start of work, but not later than thirty (30) days after the date of award of contract, Seller shall furnish Buyer evidence of coverage from insurers rated A VIII or higher by AM Best (for clauses II A - D below) and A- X (for clauses II F-G below) and in a form acceptable to the Risk Management Section of the project manager for Buyer for this purpose. Such insurance shall be maintained by Seller at Seller's sole cost and expense.

Such insurance shall not limit or qualify the liabilities and obligations of Seller assumed under this Agreement. Buyer shall not by reason of its inclusion under these policies incur liability to the insurance carrier for payment of premium for these policies.

Any insurance carried by Buyer which may be applicable shall be deemed to be excess insurance and Seller's insurance is primary for all purposes despite any conflicting provision in Seller's policies to the contrary.

Said evidence of insurance shall contain a provision that the policy cannot be canceled or reduced in coverage or amount without first giving thirty (30) days prior notice thereof (ten (10) days for non-payment of premium) by registered mail to [INSERT BUYER CONTACT].

Should any portion of the required insurance be on a "Claims Made" policy, Seller shall, at the policy expiration date following completion of work, provide evidence that the "Claims Made" policy has been renewed or replaced with the same limits, terms and conditions of the expiring policy, or that an extended discovery period has been purchased on the expiring policy at least for the contract under which the work was performed.

Seller shall be responsible for all subcontractors' compliance with the insurance requirements.

#### **II. SPECIFIC COVERAGES REQUIRED**

##### **A. Commercial Automobile Liability**

Seller shall provide Commercial Automobile Liability insurance which shall include coverages for liability arising out of the use of owned, non-owned, and hired vehicles for performance of the work as required to be licensed under the California or any other applicable state vehicle code. The Commercial Automobile Liability insurance shall have not less than \$1,000,000.00 combined single limit per occurrence and shall apply to all operations of Seller.

The Commercial Automobile Liability policy shall include Buyer, its Board of Directors, its members, and their officers, agents, and employees while acting within the scope of

their employment, as additional insureds with Seller (but only to the extent of Seller's insurable indemnity obligations under this Agreement), and shall insure against liability for death, bodily injury, or property damage resulting from the performance of this Agreement.

## **B. Commercial General Liability**

Seller shall provide Commercial General Liability insurance with Contractual Liability, Independent Contractors, Broad Form Property Damage, Premises and Operations, Products and Completed Operations, fire Legal Liability and Personal Injury coverages included. Such insurance shall provide coverage for total limits actually arranged by Seller, but not less than \$10,000,000.00 combined single limit per occurrence. Should the policy have an aggregate limit, such aggregate limits should not be less than double the Combined Single Limit. Umbrella or Excess Liability coverages may be used to supplement primary coverages to meet the required limits. Evidence of such coverage shall provide for the following:

1. Include Buyer and its officers, agents, and employees as additional insureds with the Named Insured for the activities and operations under this Agreement (but only to the extent of Seller's insurable indemnity obligations under this Agreement).
2. Severability-of-Interest or Cross-Liability Clause such as: "The policy to which this endorsement is attached shall apply separately to each insured against whom a claim is made or suit is brought, except with respect to the limits of the company's liability."
3. A description of the coverages included under the policy.

## **C. Excess Liability**

Seller may use an Umbrella or Excess Liability Coverage to meet coverage limits specified in this Agreement. Seller shall require the carrier for Excess Liability to properly schedule and to identify the underlying policies as provided for Buyer on the Buyer additional insured endorsement form, or on an endorsement to the policy acceptable to Buyer's risk management agent. Such policy shall include, as appropriate, coverage for Commercial General Liability, Commercial Automobile Liability, Employer's Liability, or other applicable insurance coverages.

## **D. Workers' Compensation/Employer's Liability Insurance**

Seller shall provide Workers' Compensation insurance covering all of Seller's employees in accordance with the laws of any state in which the work is to be performed and including Employer's Liability insurance and a Waiver of Subrogation in favor of Buyer. The limit for Employer's Liability coverage shall be not less than \$1,000,000.00 each accident and shall be a separate policy if not included with Workers' Compensation coverage. Evidence of such insurance shall be in the form of a Buyer Special Endorsement of insurance or on an endorsement to the policy acceptable to Buyer's risk management agent. Workers'

Compensation/Employer's Liability exposure may be self-insured provided that Buyer is furnished with a copy of the certificate issued by the state authorizing Seller to self-insure. Seller shall notify Buyer's Risk Management Section by receipted delivery as soon as possible of the state withdrawing authority to self-insure.

**F. Property All Risk Insurance**

Seller shall procure and maintain an All Risk Physical Damage policy to insure the full replacement value of the property located at Facility as described in this Agreement. The policy shall include coverage for expediting expense, extra expense, Business Interruption, ensuing loss from faulty workmanship, faulty materials, or faulty design.

**APPENDIX G**  
**[FORM OF GUARANTEE]**

This GUARANTEE (this “Guarantee”), dated as of [\_\_\_\_\_] (the “Effective Date”), is issued by [\_\_\_\_\_] a corporation organized and existing under the laws of Delaware (“Guarantor”) in favor of California Community Power, a California joint powers authority (“Company”).

Pursuant to that certain Geothermal Portfolio Power Purchase Agreement, dated as of [\_\_\_\_\_] (as the same may be amended, modified or supplemented from time to time, the “Agreement”), by and between Company and [\_\_\_\_\_] a limited liability company organized and existing under the laws of Delaware, of which Guarantor is the [indirect] parent (“Subsidiary”), and pursuant to which Guarantor will indirectly benefit from the terms and conditions thereof, and the performance by Subsidiary of its obligations thereunder, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Guarantor hereby covenants, undertakes and agrees with Company as follows:

**SECTION 1. DEFINITIONS.** Capitalized terms used herein and not otherwise defined shall have their respective meanings as set forth in the Agreement.

**SECTION 2. GUARANTEE.**

(a) **Guarantee.** Guarantor hereby irrevocably and unconditionally guarantees to and for the benefit of Company, the full and prompt payment when due of all obligations owing by Subsidiary to Company arising pursuant to the Agreement on or after the Effective Date up to the limitations set forth in the Agreement (the “Guaranteed Obligations”). The Guaranteed Obligations shall further include, without limitation, all reasonable costs and expenses (including reasonable attorneys’ fees), if any, incurred in successfully enforcing Company’s rights under this Guarantee.

(b) **Nature of Guarantee.** The Guarantee and the obligations of Guarantor hereunder shall continue to be effective or be automatically reinstated, as the case may be, even if at any time payment of any of the Guaranteed Obligations is rendered unenforceable or is rescinded or must otherwise be returned by Company upon the occurrence of any action or event including, without limitation, the bankruptcy, reorganization, winding-up, liquidation, dissolution or insolvency of the Subsidiary, Guarantor, any other Person or otherwise, all as though the payment had not been made.

(c) **Absolute Guarantee.** Guarantor agrees that its obligations under this Guarantee are irrevocable, absolute, independent, unconditional and continuing and shall not be affected by any circumstance that constitutes a legal or equitable discharge of a guarantor or surety other than payment in full of the Guaranteed Obligations. In furtherance of the foregoing and without limiting

the generality thereof, Guarantor agrees, subject to the other terms and conditions hereof, as follows:

(i) this Guarantee is a guarantee of payment when due and not of collectability;

(ii) Company may from time to time in accordance with the terms of the Agreement, without notice or demand and without affecting the validity or enforceability of this Guarantee or giving rise to any limitation, impairment or discharge of Guarantor's liability hereunder, (A) settle, compromise, release or discharge, or accept or refuse any offer of performance with respect to, or substitutions for, the Guaranteed Obligations or any agreement relating thereto and/or subordinate the payment or performance of the same to the payment or performance of any other obligations, (B) request and accept other guaranties of or security for the Guaranteed Obligations and take and hold security for the payment or performance of this Guarantee or the Guaranteed Obligations, (C) release, exchange, compromise, subordinate or modify, with or without consideration, any security for payment or performance of the Guaranteed Obligations, any other guarantees of the Guaranteed Obligations, or any other obligation of any person with respect to the Guaranteed Obligations, (D) enforce and apply any security now or hereafter held by or for the benefit of Company in respect of this Guarantee or the Guaranteed Obligations and direct the order or manner of sale thereof, or exercise any other right or remedy that Company may have against any such security, as Company in its discretion may determine consistent with the Agreement and any applicable security agreement, and even though such action operates to impair or extinguish any right of reimbursement or subrogation or any other right or remedy of Guarantor against Subsidiary or any other guarantor of the Guaranteed Obligations or any other guarantee of or security for the Guaranteed Obligations, and (E) exercise any other rights available to Company under the Agreement, at law or in equity; and

(iii) this Guarantee and the obligations of Guarantor hereunder shall be valid and enforceable and shall not be subject to any limitation, impairment or discharge for any reason (other than payment in full of the Guaranteed Obligations and otherwise as set forth in this Guarantee), including, without limitation, the occurrence of any of the following, whether or not Guarantor shall have had notice or knowledge of any of them: (A) any failure to assert or enforce, or agreement not to assert or enforce, or the stay or enjoining, by order of court, by operation of law or otherwise, or the exercise or enforcement of, any claim or demand or any right, power or remedy with respect to the Guaranteed Obligations or any agreement relating thereto, or with respect to any other guarantee of or security for the payment or performance of the Guaranteed Obligations; (B) any waiver, amendment or modification of, or any consent to departure from, any of the terms or provisions of the Agreement or any agreement or instrument executed pursuant thereto or of any other guarantee or security for the Guaranteed Obligations; (C) the Guaranteed Obligations, or any agreement relating thereto, at any time being found to be illegal, invalid or unenforceable in any respect; (D) the personal or corporate incapacity of any person; (E) any change in the financial condition, or the bankruptcy, administration, receivership or insolvency of Subsidiary or any other person, or any rejection, release, stay or discharge of Subsidiary's or any other person's obligations in connection with any bankruptcy, administration, receivership or similar proceeding or otherwise or any disallowance of all or any portion of any claim by Company, its successors or permitted assigns in connection with any such proceeding; (F) any change in the corporate existence of, or cessation of existence of, Guarantor or the Subsidiary

(whether by way of merger, amalgamation, transfer, sale, lease or otherwise); (G) the failure to create, preserve, validate, perfect or protect any security interest granted to, or in favor of, any person; (H) any substitution, modification, exchange, release, settlement or compromise of any security or collateral for or guaranty of any of the Guaranteed Obligations or failure to apply such security or collateral or failure to enforce such guaranty; (I) the existence of any claim, set-off, or other rights which Guarantor or any affiliate thereof may have at any time against Company or any affiliate thereof in connection with any matter unrelated to the Agreement; and (J) any other act or thing or omission, or delay to do any other act or thing, which may or might in any manner or to any extent vary the risk of Guarantor as an obligor in respect of the Guaranteed Obligations.

(d) **Currency.** All payments made by Guarantor hereunder shall be made in U.S. dollars in immediately available funds.

(e) **Defenses.** Notwithstanding anything herein to the contrary, Guarantor specifically reserves to itself all rights, counterclaims and other defenses that the Subsidiary is or may be entitled to arising from or out of the Agreement, except for any defenses arising out of the bankruptcy, insolvency, dissolution or liquidation of the Subsidiary, or the lack of power or authority of the Subsidiary to enter into the Agreement and to perform its obligations thereunder, or the lack of validity or enforceability of the Subsidiary's obligations under the Agreement or any transaction thereunder; provided, however, that under no circumstances shall Guarantor's liability under this Guarantee exceed Subsidiary's liability under the Agreement.

### **SECTION 3. OTHER PROVISIONS OF THE GUARANTEE.**

#### **(a) Demands and Payment.**

(i) If Subsidiary fails to pay any Guaranteed Obligations when such Guaranteed Obligation is due and owing under the Agreement (an "Overdue Obligation"), Company may present a written demand to Guarantor calling for Guarantor's payment of such Overdue Obligation pursuant to this Guarantee (a "Payment Demand").

(ii) Guarantor's obligation hereunder to pay any particular Overdue Obligation(s) to Company is conditioned upon Guarantor's receipt of a Payment Demand from Company satisfying the following requirements: (1) such Payment Demand must identify the specific Overdue Obligation(s) covered by such demand, the specific date(s) upon which such Overdue Obligation(s) became due and owing under the Agreement, and the specific provision(s) of the Agreement pursuant to which such Overdue Obligation(s) became due and owing; (2) such Payment Demand must be delivered to Guarantor in accordance with Section 5 below; and (3) the specific Overdue Obligation(s) addressed by such Payment Demand must remain due and unpaid at the time of such delivery to Guarantor.

(iii) After issuing a Payment Demand in accordance with the requirements specified in Section 3(b) above, Company shall not be required to issue any further notices or make any further demands with respect to the Overdue Obligation(s) specified in that Payment Demand, and, subject to Section 2(e) above, Guarantor shall be required to make payment with respect to the Overdue Obligation(s) specified in that Payment Demand within twenty (20) Business Days after Guarantor receives such demand.

(b) **Waivers by Guarantor.** Guarantor hereby waives for the benefit of Company, to the maximum extent permitted by Applicable Law:

- (i) notice of acceptance hereof;
- (ii) notice of any action taken or omitted to be taken by Company in reliance hereon;
- (iii) any right to require Company, as a condition of payment by Guarantor, to (A) proceed against or exhaust its remedies against Subsidiary or any person, including any other guarantor of the Guaranteed Obligations, or (B) proceed against or exhaust any security held from Subsidiary or any person, including any other guarantor of the Guaranteed Obligations;
- (iv) subject to Clause 2(e), any defense arising by reason of the incapacity, lack of authority or any disability of Subsidiary including, without limitation, any defense based on or arising out of the lack of validity or the unenforceability of the Guaranteed Obligations or any agreement or instrument relating thereto or by reason of the cessation of the liability of Subsidiary from any cause other than payment in full of the Guaranteed Obligations or termination of this Guarantee in accordance with its terms; and
- (v) any requirement that Company protect, secure, perfect or insure any security interest or lien or any property subject thereto.

(c) **Deferral of Subrogation.** Until such time as the Guaranteed Obligations have been paid or performed in full, notwithstanding any payment made by Guarantor hereunder or the receipt of any amounts by Company with respect to the Guaranteed Obligations, (i) Guarantor (on behalf of itself, its successors and assigns, including any surety) hereby expressly agrees not to exercise any right, nor assert the impairment of such rights, it may have to be subrogated to any of the rights of Company against Subsidiary or against any other collateral security held by Company for the payment or performance of the Guaranteed Obligations, (ii) Guarantor agrees that it will not seek any reimbursement from Company in respect of payments or performance made by Guarantor in connection with the Guaranteed Obligations, or amounts realized by Company in connection with the Guaranteed Obligations and (iii) Guarantor shall not claim or prove in a liquidation or other insolvency proceeding of the Subsidiary in competition with the Company. If any amount shall be paid to Guarantor on account of such subrogation rights at any time when all of the Guaranteed Obligations shall not have been paid in full or otherwise fully satisfied, such amount shall be held in trust by Guarantor for the benefit of Company and shall forthwith be paid to Company, to be credited and applied to the Guaranteed Obligations.

**SECTION 4. REPRESENTATIONS AND WARRANTIES OF GUARANTOR.**

(f) There are no actions, suits, investigations, proceedings, condemnations, or audits by or before any court or other governmental or regulatory authority or any arbitration proceeding pending or, to its actual knowledge after due inquiry, threatened against or affecting Guarantor, its properties, or its assets that would impair Guarantor's ability to perform its obligations under this Guarantee.

## APPENDIX H

### QUALITY ASSURANCE PROGRAM

Seller shall implement a Quality Assurance (“Q/A”) Program to ensure that the operation of each Facility fulfills the requirements of this Agreement. The Q/A Program shall provide assurance that purchasing, manufacturing, shipping, storage, and examination of all equipment, materials, services and maintenance of each Facility will comply with the requirements of this Agreement, all applicable Requirements of Law and the manufacturers or suppliers’ requirements for successful operation of the Facility.

#### **Quality at Seller**

Seller believes that quality is the unit of measure for assessing fulfillment of project goals. A quality project meets or exceeds the contract requirements and accepted standards of professional and industry practice. Furthermore, high quality projects are those that address client and societal needs more successfully than “low” quality projects. While this may seem like a straightforward definition, the process to ensure quality is much more involved and includes quality management, quality planning, quality control, quality assurance, a quality system, and total quality management.

“Quality assurance” refers to a process that reduces the potential for error throughout the phases of a project. On projects with a Q/A Program, the chances of producing a poor-quality deliverable are substantially reduced. Quality control procedures are an integral part of quality assurance. Historically, industry has used the term “quality control” to indicate a checking procedure for verifying the quality of deliverables. This checking commonly occurs at the end of the process, long after an error may have been made and compounded by subsequent work. While quality control checks at the end of a project are an essential exercise, scheduled periodic reviews at each phase are integral to Seller’s Q/A Program. In addition, quality maintenance which meet or exceed manufacturers’ or suppliers’ requirements and best industry practices must be an integral part of Seller’s Q/A Program.

#### **The Quality Management Process**

The surest way to achieve satisfactory quality is to adhere to a proven quality process. The term “quality” most accurately refers to a project’s ability to satisfy needs when considered as a whole and each part of the process meets or exceeds the standards of Prudent Utility Practices.

Seller project management team is responsible for proactively planning and directing the quality of the work process, services, and deliverables. Seller’s project management team utilizes a written maintenance manual for each Facility for the duration of the commercial operation that complies with the maintenance manuals of the manufacturers and suppliers from whom the Seller has purchased equipment or material and best industry practices.

**APPENDIX J**

**GUARANTEED GENERATION AND MAXIMUM GENERATION**

“**Guaranteed Generation**” means, for each Contract Year, the result of the following equation:

$$\text{Guaranteed Generation (in MWh)} = \sum_{j=1}^n A_j \times (B_j \div C_j) \times D_j \times E_j$$

Where:

j = each Facility that has achieved Commercial Operation as of the end of such Contract Year;

n = the total number of Facilities that have achieved Commercial Operation as of the end of such Contract Year;

A = Facility Net Capacity for Facility “j”;

B = the number of days in such Contract Year occurring after Facility “j” achieved Commercial Operation;

C = the total number of days in such Contract Year;

D = 8,760 hours;

E = ninety percent (90%); and.

∑ = summation of n Facilities.

“**Maximum Generation**” means (i) for each hour, the product of the Project Net Capacity for such hour, expressed in MW, and one hundred fifty percent (150%); and (ii) for each Contract Year, the result of the following equation:

Maximum Generation (in MWh) =

$$\sum_{j=1}^n A_j \times (B_j \div C_j) \times D_j \times E_j$$

Where:

j = each Facility that has achieved Commercial Operation as of the end of such Contract Year;

n = the total number of Facilities that have achieved Commercial Operation as of the end of such Contract Year;

A = Facility Net Capacity for Facility “j”;

B = the number of days in such Contract Year occurring after Facility “j” achieved Commercial Operation;

C = the total number of days in such Contract Year;

D = 8,760 hours;

E = one hundred ten percent (110%); and

$\Sigma$  = summation of n Facilities.

Within thirty (30) days after the last Facility achieves Commercial Operation hereunder, the Parties will administratively update this Appendix J to replace the formulas for Guaranteed Generation and Maximum Generation for each Contract Year with a table substantially in the form set forth below, which specifies the Guaranteed Generation and Maximum Generation for each Contract Year. For purposes of populating such table, (i) the Guaranteed Generation and Maximum Generation for the Contract Year following the Contract Year in which the last Facility achieves Commercial Operation hereunder will be established based on the formulas set forth above in this Appendix J, and (ii) the Guaranteed Generation and Maximum Generation for each Contract Year thereafter will be equal to 99.5% of the value for the prior Contract Year.

## **APPENDIX L**

### **FORM OF BUYER LIABILITY PASS THROUGH AGREEMENT**

This Buyer Liability Pass Through Agreement (this “**BLPTA**”) is entered into as of [\_\_\_\_], 2022 (the “**BLPTA Effective Date**”) by and between [\_\_\_\_], a [\_\_\_\_] (together with its successors and permitted assigns “**Project Participant**”), California Community Power, a California joint powers authority (“**CC Power**”), and [\_\_\_\_], a [\_\_\_\_] (together with its successors and permitted assigns “**Seller**”). Seller, CC Power, and Project Participant are sometimes referred to herein individually as a “**Party**” and jointly as the “**Parties**”.

#### **RECITALS**

**WHEREAS**, CC Power and Seller have entered into that certain Renewable Power Purchase Agreement (as amended, restated or otherwise modified from time to time, the “**PPA**”) dated as of [\_\_\_\_], 2022;

**WHEREAS**, Project Participant is entering into this BLPTA to secure, in part, CC Power’s obligations under the PPA;

**WHEREAS**, Project Participant is named as a Project Participant under the PPA and will derive substantial direct and indirect benefits from the execution and delivery of the PPA;

**WHEREAS**, Seller and CC Power will derive substantial and direct benefits from the execution and delivery of this BLPTA; and

**WHEREAS**, initially capitalized terms used but not defined herein have the meaning set forth in the PPA.

**NOW THEREFORE**, in consideration of the mutual covenants and agreements herein contained, and for other good and valuable consideration, the sufficiency and adequacy of which are hereby acknowledged, the Parties agree to the following:

#### **AGREEMENT**

**1. Project Participant Covenants.** For value received, Project Participant does hereby unconditionally, absolutely, and irrevocably guarantee, as obligor and not as a surety, to Seller the complete and prompt payment of such Project Participant’s Liability Share as set forth on Appendix M, as the same may be adjusted pursuant to Paragraph 4 hereof, of all payment obligations and liabilities now or hereafter owing by CC Power to Seller under the PPA, including liabilities for payments owed by CC Power pursuant to Section 11.2 of the PPA or any Termination Payment owed by CC Power, as applicable, and any other damage payments or reimbursement amounts (each such obligation or liability of CC Power under the PPA, a “**Guaranteed Amount**”). Any payment made directly from CC Power to Seller under the PPA shall reduce Project Participant’s liability hereunder by reducing the total amount that is used to calculate the Guaranteed Amount pursuant to the preceding sentence. This BLPTA is an irrevocable, absolute, unconditional, and

continuing guarantee of the punctual payment and performance, and not of collection, of Project Participant's Liability Share of the Guaranteed Amount. In the event CC Power shall fail to duly, completely, or punctually pay any amount owed by Buyer pursuant to the terms and conditions of the PPA, and such failure is not remedied within thirty (30) calendar days after notice thereof pursuant to Section 13.1(a) of the PPA, or in the event CC Power shall fail to duly, completely, or punctually pay any Termination Payment owed by CC Power pursuant to Section 13.3(d) of the PPA, Project Participant shall promptly pay Project Participant's Liability Share of the Guaranteed Amount, as required herein. Project Participant shall be liable to Seller for all reasonable costs and expenses (including reasonable attorneys' fees), if any, incurred in successfully enforcing Seller's rights under this Agreement ("**Enforcement Costs**"), which Enforcement Costs shall be in addition to Project Participant's liability for the Guaranteed Amount. Project Participant shall pay any Enforcement Costs to Seller within thirty (30) calendar days after Seller's delivery of an invoice therefor, together with documentation reasonably supporting the invoiced amount.

**2. Seller Waiver.** In consideration of the foregoing, Seller unconditionally waives all right to recover directly from CC Power any Termination Payment that is not paid by CC Power pursuant to Section 13.3(d) of the PPA, but the foregoing waiver does not apply to any other right or remedy of Seller under the PPA, including the right to recover payments owed by CC Power pursuant to Section 11.2 of the PPA, other amounts payable or reimbursable under the PPA or any other amounts incurred or accrued prior to termination of the PPA and the right to terminate the PPA as the result of a Default by Buyer.

**3. Demand Notice.** For avoidance of doubt, Seller may demand payment from Project Participant for purposes of this BLPTA only when and if a Termination Payment that is owed by CC Power pursuant to Section 13.3(d) is not duly, completely, or punctually paid by CC Power pursuant to the terms and conditions of the PPA, or when and if CC Power fails to make timely payment as required in the PPA and such failure is not remedied by CC Power within thirty (30) calendar days after notice thereof is issued pursuant to Section 13.1(a), as applicable. If CC Power fails to pay any amount when due pursuant to the PPA, and such failure is not remedied by CC Power within the timeframe afforded to CC Power to cure such non-payment, then Seller may exercise its rights under this BLPTA and make a payment demand upon Project Participant to pay Project Participant's Liability Share of the unpaid Guaranteed Amount (a "**Payment Demand**"). A Payment Demand shall be in writing and shall reasonably specify (a) what amount CC Power has failed to pay, (b) an explanation of why such payment is due and owing, (c) a calculation of Project Participant's Liability Share of the Guaranteed Amount, and (d) a specific statement that Seller is requesting that Project Participant pay its Liability Share of the unpaid Guaranteed Amount under this BLPTA. Project Participant shall, within fifteen (15) Business Days following its receipt of the Payment Demand, pay to Seller Project Participant's Liability Share of the unpaid Guaranteed Amount.

**4. Replacement BLPTAs.** Upon Seller's execution of Replacement BLPTAs pursuant to Section 5.12(b) of the PPA, Seller shall cancel this Buyer Liability Pass Through Agreement, effective upon the effectiveness of the Replacement BLPTAs. For the avoidance of doubt, the cancellation of existing Buyer Liability Pass Through Agreements shall not be effective unless and until the Replacement BLPTAs have become effective and binding.

**5. Scope and Duration of BLPTA.** The obligations under this BLPTA are independent of the obligations of CC Power under the PPA, and an action may be brought to enforce this BLPTA whether or

not action is brought against CC Power under the PPA. This BLPTA shall continue in full force and effect from the BLPTA Effective Date, unless Replacement BLPTAs are executed, until both of the following have occurred: (a) the Agreement Term of the PPA has expired or terminated early, and (b) either (i) all payment and indemnity obligations of CC Power due and payable under the PPA are paid in full (whether directly or indirectly such as through set-off or netting) or have otherwise expired or (ii) Project Participant has paid the maximum Guaranteed Amount in full. This BLPTA shall also continue to be effective or be reinstated, as the case may be, if at any time any payment of any Guaranteed Amount by CC Power is rescinded or must otherwise be returned by Seller upon the insolvency, bankruptcy or reorganization of CC Power or similar proceeding, all as though such payment had not been made, and Project Participant's Liability Share of such Guaranteed Amount shall be subject to payment following a Payment Demand issued pursuant to this BLPTA. Without limiting the generality of the foregoing, and to the extent that the Project Participant has not paid its maximum Guaranteed Amount in full, the obligations of the Project Participant hereunder shall not be released, discharged, or otherwise affected, and this BLPTA shall not be invalidated or impaired or otherwise affected for the following reasons:

- a) The extension of time for the payment of any Guaranteed Amount; or
- b) Any amendment, modification or other alteration of the PPA; or
- c) Any insurance that may be available to cover any loss, except to the extent insurance proceeds are used to satisfy the Guaranteed Amount; or
- d) Any voluntary or involuntary liquidation, dissolution, receivership, insolvency, bankruptcy, assignment for the benefit of creditors, reorganization, arrangement, composition or readjustment of, or other similar proceeding affecting CC Power, or any Project Participant, including but not limited to any rejection or other discharge of CC Power's obligations under the PPA, or such Project Participant's obligations hereunder, imposed by any court, trustee or custodian or any similar official or imposed by any law, statute or regulation, in each such event in any such proceeding; or
- e) Any reorganization of CC Power or Project Participant, or any merger or consolidation of CC Power or Project Participant into or with any other Person, or the sale of all or substantially all of the assets of CC Power or Project Participants; or
- f) The receipt, release, modification or waiver of, or failure to pursue or seek relief under or with respect to, the PPA, any other BLPTA, guaranty, collateral, pledge or security device whatsoever; or
- g) CC Power's, or any Project Participant's inability to pay any Guaranteed Amount or perform its obligations under the PPA or hereunder as the case may be; or
- h) Any other event or circumstance that may now or hereafter constitute a defense to payment of the Guaranteed Amount, by either CC Power or any Project Participant, including, without limitation, statute of frauds and accord and satisfaction; *provided* that Project Participant reserves the right to assert for itself any defenses, setoffs or counterclaims that CC Power is or may be entitled to assert against Seller under the terms of the PPA (but not otherwise), including with respect to disputes regarding the calculation of a Guaranteed Amount.

**6. Waivers by Project Participant.** Project Participant hereby unconditionally waives as a condition precedent to the performance of its obligations hereunder, with the exception of the requirements in Paragraphs 2 and 3, (a) notice of acceptance, presentment, demand, or protest, notice of any of the events described in Paragraph 5, or any other notice or demand of any kind with respect to the Guaranteed Amounts and this BLPTA, (b) any requirement that Seller pursue or exhaust any right, power or remedy or proceed against CC Power under the PPA or otherwise or against any other Person, including any obligation to pursue any other BLPTAs, or to marshal assets, (c) any defense based on any of the matters described in Paragraph 4, (d) all rights of subrogation or other rights to pursue CC Power for payments made under this BLPTA until all amounts owing under the PPA have been paid in full, and (e) any duty of Seller to disclose any information or other matters relating to the business, operations or finances or other condition of CC Power, any Project Participant, or any other Person who has provided a BLPTA or other security or guaranty with respect to the PPA now or hereafter known to Seller. Project Participant further acknowledges and agrees that it is and will be bound by actions taken and elections made by CC Power under the PPA and waives any defense based on lack of notice or consent, or CC Power's authority or lack thereof or the validity, regularity or advisability of the actions taken or elections made.

**7. Project Participant Representations and Warranties.** Project Participant hereby represents and warrants that (a) it has all necessary and appropriate powers and authority and the legal right to execute and deliver, and perform its obligations under, this BLPTA, (b) this BLPTA constitutes its legal, valid and binding obligations enforceable against it in accordance with its terms, except as enforceability may be limited by bankruptcy, insolvency, moratorium and other similar laws affecting enforcement of creditors' rights or general principles of equity, (c) the execution, delivery and performance of this BLPTA does not and will not contravene Project Participant's organizational documents, any applicable Law or any contractual provisions binding on or affecting Project Participant, (d) there are no actions, suits or proceedings pending before any court, governmental agency or arbitrator, or, to the knowledge of the Project Participant, threatened, against or affecting Project Participant or any of its properties or revenues which may, in any one case or in the aggregate, adversely affect the ability of Project Participant to enter into or perform its obligations under this BLPTA, and (e) no consent or authorization of, filing with, or other act by or in respect of, any arbitrator or Governmental Authority, and no consent of any other Person (including, any member of the Project Participant), that has not heretofore been obtained is required in connection with the execution, delivery, performance, validity or enforceability of this BLPTA by Project Participant.

any stockholder or creditor of the Seller), that has not heretofore been obtained is required in connection with the execution, delivery, performance, validity or enforceability of this BLPTA by Seller.

**12. Miscellaneous.** This BLPTA shall be binding upon the Parties and their respective successors and assigns and shall inure to the benefit of the Parties and their successors and permitted assigns. No provision of this BLPTA may be amended or waived except by a written instrument executed by Seller, CC Power, and Project Participant. This BLPTA embodies the entire agreement and understanding of the Parties hereto with respect to the subject matter hereof and supersedes all prior or contemporaneous agreements and understandings of the Parties hereto, verbal or written, relating to the subject matter hereof. If any provision of this BLPTA is determined to be illegal or unenforceable (i) such provision shall be deemed restated in accordance with applicable Laws to reflect, as nearly as possible, the original intention of the Parties hereto, and (ii) such determination shall not affect any other provision of this BLPTA and all other provisions shall remain in full force and effect. This BLPTA may be executed in any number of separate counterparts, each of which when so executed shall be deemed an original, and all of said counterparts taken together shall be deemed to constitute one and the same instrument. This BLPTA may be executed and delivered by electronic means with the same force and effect as if the same was a fully executed and delivered original manual counterpart.

**13. Assignment.** Except as provided below in this Paragraph 13, no Party may assign this BLPTA or its rights or obligations under this BLPTA, without the prior written consent of the other Parties, which consent shall not be unreasonably withheld, conditioned or delayed. Seller may, without the prior written consent of Project Participant and CC Power, transfer or assign this BLPTA to any Person to whom Seller may assign its rights or obligations under the PPA, including assignments for financing purposes, including a Portfolio Financing; *provided*, Seller shall give Project Participant and CC Power notice at least fifteen (15) Business Days before the date of such proposed assignment and, except in the case of a collateral assignment or other assignment for financing purposes, provide Project Participant and CC Power a written agreement signed by the Person to which Seller wishes to assign its interests that provides that such Person will fully assume all of Seller's obligations and liabilities under this BLPTA, including obligations and liabilities that arose prior to the date of transfer or assignment, upon such transfer or assignment. Project Participant may, without the prior written consent of Seller and CC Power, transfer or assign this BLPTA to any member of CC Power that (A) has a Credit Rating of at least BBB- from S&P or Baa3 from Moody's, and (B) is a load serving entity; *provided*, Project Participant shall give Seller and CC Power notice at least fifteen (15) Business Days before the date of such proposed assignment and provide to Seller and CC Power a written agreement signed by the Person to which Project Participant wishes to assign its interests that provides that such Person will fully assume all of Project Participant's obligations and liabilities, including obligations and liabilities that arose prior to the date of transfer or assignment, under this BLPTA upon such transfer or assignment, and such agreement is reasonably acceptable to Seller.

**14. No Recourse to Members of Project Participant.** Project Participant is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) pursuant to its joint powers agreement and is a public entity separate from its constituent members. Project Participant shall solely be responsible for all debts, obligations and liabilities

accruing and arising out of this BLPTA. Seller and CC Power shall have no rights and shall not make any claims, take any actions or assert any remedies against any of Project Participant's constituent members, or the officers, directors, advisors, contractors, consultants or employees of Project Participant or its constituent members, in connection with this BLPTA.

**15. No Recourse to Members of CC Power.** CC Power is organized as a Joint Powers Authority in accordance with the Joint Exercise of Powers Act of the State of California (Government Code Section 6500, et seq.) pursuant to its Joint Powers Agreement and is a public entity separate from its constituent members. Except as expressly set forth in the PPA and this BLPTA, CC Power shall solely be responsible for all debts, obligations and liabilities accruing and arising out of this BLPTA, and as such, Seller and Project Participant shall have no rights and shall not make any claims, take any actions or assert any remedies against any of CC Power's constituent members, or the officers, directors, advisors, contractors, consultants or employees of Project Participant or its constituent members, in connection with this BLPTA.

**16. CleanPowerSF as Project Participant.** Paragraph 14 shall not apply if CleanPowerSF is the Project Participant, but the following shall apply:

a) **Designated Fund.** CleanPowerSF payment obligations under this BLPTA are special limited obligations of CleanPowerSF payable solely from the revenues of CleanPowerSF. CleanPowerSF's payment obligations under this BLPTA are not a charge upon the revenues or general fund of the San Francisco Public Utility Commission ("*SFPUC*") or the City and County of San Francisco or upon any non-CleanPowerSF moneys or other property of the SFPUC or the City and County of San Francisco.

b) **Controller Certification.** CleanPowerSF's obligations hereunder shall not at any time exceed the amount certified by the Controller for the purpose and period stated in such certification. Except as may be provided by laws governing emergency procedures, officers and employees of CleanPowerSF are not authorized to request, and CleanPowerSF is not required to reimburse Seller for, commodities or services beyond the agreed upon contract scope unless the changed scope is authorized by amendment and approved as required by law. Officers and employees of CleanPowerSF are not authorized to offer or promise, nor is CleanPowerSF required to honor, any offered or promised additional funding in excess of the maximum amount of funding for which the contract is certified without certification of the additional amount by the Controller. The Controller is not authorized to make payments on any contract for which funds have not been certified as available in the budget or by supplemental appropriation.

c) **Biennial Budget Process.** For each City and County of San Francisco biennial budget cycle during the term of this BLPTA, CleanPowerSF agrees to take all necessary action to include the maximum amount of its annual payment obligations under this BLPTA in its budget submitted to the City and County of San Francisco's Board of Supervisors for each year of that budget cycle.

d) **Compliance with Laws.** Each Party shall keep itself fully informed of all applicable federal, state, and local laws in any manner affecting the performance of its obligations under this BLPTA, and must at all times materially comply with such applicable laws as they may be amended from time to time.

e) Prohibition on Political Activity with City Funds. In performing any services required under this BLPTA, Seller shall comply with San Francisco Administrative Code Chapter 12G, which prohibits funds appropriated by the City for this BLPTA from being expended to participate in, support, or attempt to influence any political campaign for a candidate or for a ballot measure in San Francisco.

f) Non-discrimination in Contracts. Seller shall comply with the provisions of Chapters 12B and 12C of the San Francisco Administrative Code. Seller shall incorporate by reference in all subcontracts the provisions of Sections 12B.2(a), 12B.2(c)-(k), and 12C.3 of the San Francisco Administrative Code and shall require all subcontractors to comply with such provisions. Seller is subject to the enforcement and penalty provisions in Chapters 12B and 12C.

g) Non-discrimination in the Provision of Employee Benefits. San Francisco Administrative Code 12B.2. Seller does not as of the date of this BLPTA, and will not during the term of this BLPTA, in any of its operations in San Francisco, on real property owned by San Francisco, or where work is being performed for the City elsewhere in the United States, discriminate in the provision of employee benefits between employees with domestic partners and employees with spouses and/or between the domestic partners and spouses of such employees, subject to the conditions set forth in San Francisco Administrative Code Section 12B.2.

h) Submitting False Claims. Pursuant to San Francisco Administrative Code §21.35, any contractor or subcontractor who submits a false claim shall be liable to the City for the statutory penalties set forth in that section. A contractor or subcontractor will be deemed to have submitted a false claim to the City if the contractor or subcontractor: (1) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (2) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (3) conspires to defraud the City by getting a false claim allowed or paid by the City; (4) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (5) is a beneficiary of an inadvertent submission of a false claim to the City, subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.

i) Consideration of Salary History. Seller shall comply with San Francisco Administrative Code Chapter 12K, the Consideration of Salary History Ordinance or “Pay Parity Act.” Seller is prohibited from considering current or past salary of an applicant in determining whether to hire the applicant or what salary to offer the applicant to the extent that such applicant is applying for employment to be performed on this BLPTA or in furtherance of this BLPTA, and whose application, in whole or part, will be solicited, received, processed or considered, whether or not through an interview, in the City or on City property.

j) Consideration of Criminal History in Hiring and Employment Decisions. Seller agrees to comply fully with and be bound by all of the provisions of Chapter 12T, “City Contractor/Subcontractor Consideration of Criminal History in Hiring and Employment Decisions,” of the San Francisco Administrative Code, including the remedies provided, and implementing regulations, as may be amended from time to time. The requirements of Chapter 12T shall only apply to Seller’s operations to the extent those operations are in furtherance of the performance of this BLPTA, shall apply only to applicants and employees

who would be or are performing work in furtherance of this BLPTA, and shall apply when the physical location of the employment or prospective employment of an individual is wholly or substantially within the City. Chapter 12T shall not apply when the application in a particular context would conflict with federal or state law or with a requirement of a government agency implementing federal or state law.

k) Conflict of Interest. By executing this BLPTA, Seller certifies that it does not know of any fact which constitutes a violation of Section 15.103 of the City's Charter; Article III, Chapter 2 of City's Campaign and Governmental Conduct Code; Title 9, Chapter 7 of the California Government Code (Section 87100 et seq.), or Title 1, Division 4, Chapter 1, Article 4 of the California Government Code (Section 1090 et seq.), and further agrees promptly to notify the City if it becomes aware of any such fact during the term of this BLPTA.

l) Campaign Contributions. By executing this BLPTA, Seller acknowledges its obligations under Section 1.126 of the City's Campaign and Governmental Conduct Code, which prohibits any person who contracts with, or is seeking a contract with, any department of the City for the rendition of personal services, for the furnishing of any material, supplies or equipment, for the sale or lease of any land or building, for a grant, loan or loan guarantee, or for a development agreement, from making any campaign contribution to (i) a City elected official if the contract must be approved by that official, a board on which that official serves, or the board of a state agency on which an appointee of that official serves, (ii) a candidate for that City elective office, or (iii) a committee controlled by such elected official or a candidate for that office, at any time from the submission of a proposal for the contract until the later of either the termination of negotiations for such contract or twelve months after the date the City approves the contract. The prohibition on contributions applies to each prospective party to the contract; each member of Seller's board of directors; Seller's chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than ten percent (10%) in Seller; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by Seller. Seller shall inform the relevant persons of the limitation on contributions imposed by Section 1.126.

m) MacBride Principles – Northern Ireland. Pursuant to San Francisco Administrative Code § 12F.5, the City and County of San Francisco urges companies doing business in Northern Ireland to move towards resolving employment inequities, and encourages such companies to abide by the MacBride Principles. The City and County of San Francisco urges San Francisco companies to do business with corporations that abide by the MacBride principles.

n) Tropical Hardwood and Virgin Redwood Ban. The City and County of San Francisco urges contractors not to import, purchase, obtain, or use for any purpose, any tropical hardwood, tropical hardwood product, virgin redwood or virgin redwood product. If this order is for wood products or a service involving wood products: (a) Chapter 8 of the Environment Code is incorporated herein and by reference made a part hereof as though fully set forth. (b) Except as expressly permitted by the application of Sections 802(B), 803(B), and 804(B) of the Environment Code, Seller shall not provide any items to the City in performance of this BLPTA which are tropical hardwoods, tropical hardwood products, virgin redwood or virgin redwood products. (c) Failure of Seller to comply with any of the requirements of Chapter 8 of the Environment Code shall be deemed a material breach of contract.

o) Effect on Payment Obligations. The Parties agree that, although breach of an obligation set forth in Sections 16(d) through 16(n) may result in Seller incurring liability for such breach, any such liability will be independent of Project Participant's liability hereunder, and no breach of or default by Seller under Sections 16(d) through 16(n) will relieve Project Participant of its liability for its Liability Share of all Guaranteed Amounts, nor may any such breach or default, or claim of breach or default, be permitted or asserted as a defense to or offset against payment of any amounts owed by Project Participant to Seller hereunder.

**17. City of San José (San José Clean Energy) as Project Participant.** Paragraph 14 shall not apply if the City of San José, as administrator of San José Clean Energy ("*SJCE*") is the Project Participant, but the following shall apply:

a) Designated Fund. The City of San José is a municipal corporation and is precluded under the California State Constitution and applicable law from entering into obligations that financially bind future governing bodies without an appropriation for such obligation, and, therefore, nothing in the Agreement shall constitute an obligation of future legislative bodies of the City to appropriate funds for purposes of the Agreement; *provided, however*, that the City of San José has created and set aside a designated fund (being the San Jose Energy Operating Fund established pursuant to City of San Jose Municipal Code, Title 4, Part 63, Section 4.80.4050 *et. seq.*) ("*Designated Fund*") for payment of its obligations under this BLPTA. Subject to the requirements and limitations of applicable law and taking into account other available money specifically authorized by the San José City Council and allocated and appropriated to the SJCE's obligations, SJCE agrees to establish rates and charges that are sufficient to maintain revenues in the Designated Fund necessary to pay its obligations under this BLPTA.

b) Limited Obligations. SJCE's payment obligations under this BLPTA are special limited obligations of the SJCE payable solely from the Designated Fund and are not a charge upon the revenues or general fund of the City of San José or upon any non- San José Clean Energy moneys or other property of the Community Energy Department or the City of San José.

c) Nondiscrimination/Non-Preference. In performing its obligations under this BLPTA, Seller shall not, and shall not cause or allow its subcontractors to, discriminate against or grant preferential treatment to any person on the basis of race, sex, color, age, religion, sexual orientation, actual or perceived gender identity, disability, ethnicity or national origin. This prohibition applies to recruiting, hiring, demotion, layoff, termination, compensation, fringe benefits, advancement, training, apprenticeship and other terms, conditions, or privileges of employment, subcontracting and purchasing. Seller will inform all subcontractors of these obligations. This prohibition is subject to the following conditions: (i) the prohibition is not intended to preclude Seller from providing a reasonable accommodation to a person with a disability; (ii) the City's Compliance Officer may require Seller to file, and cause any Seller's subcontractor to file, reports demonstrating compliance with this section. Any such reports shall be filed in the form and at such times as the City's Compliance Officer designates. They shall contain such information, data and/or records as the City's Compliance Officer determines is needed to show compliance with this provision.

d) Conflict of Interest. Seller represents that it is familiar with the local and state conflict of interest laws and agrees to comply with those laws in performing this BLPTA. Seller certifies that, as of the Effective Date, it was unaware of any facts constituting a conflict of interest or creating an appearance of

a conflict of interest. Seller shall avoid all conflicts of interest or appearances of conflicts of interest in performing this BLPTA. Seller has the obligation of determining if the manner in which it performs any part of this BLPTA results in a conflict of interest or an appearance of a conflict of interest and shall immediately notify SJCE in writing if it becomes aware of any facts giving rise to a conflict of interest or the appearance of a conflict of interest. Seller's violation of this subsection (ii) is a material breach.

e) Environmentally Preferable Procurement Policy. Seller shall perform its obligations under this BLPTA in conformance with San José City Council Policy 1-19, entitled "Prohibition of City Funding for Purchase of Single serving Bottled Water," and San José City Council Policy 4-6, entitled "Environmentally Preferable Procurement Policy," as those policies may be amended from time to time. The Parties acknowledge and agree that in no event shall a breach of this Section 13.1(g) be a material breach of this BLPTA or otherwise give rise to a Default or entitle SJCE to terminate this BLPTA.

f) Gifts Prohibited. Seller represents that it is familiar with Chapter 12.08 of the San José Municipal Code, which generally prohibits a City of San José officer or designated employee from accepting any gift. Seller shall not offer any City of San José officer or designated employee any gift prohibited by Chapter 12.08. Seller's violation of this subsection (iv) is a material breach.

g) Disqualification of Former Employees. Seller represents that it is familiar with Chapter 12.10 of the San José Municipal Code, which generally prohibits a former City of San José officer and former designated employee from providing services to the City of San José connected with his/her former duties or official responsibilities. Seller shall not use either directly or indirectly any officer, employee or agent to perform any services if doing so would violate Chapter 12.10.

h) Effect on Payment Obligations. The Parties agree that, although breach of an obligation set forth in Sections 17(d) through 17(g) may result in Seller incurring liability for such breach, any such liability will be independent of Project Participant's liability hereunder, and no breach of or default by Seller under Sections 17(c) through 17(h) will relieve Project Participant of its liability for its Liability Share of all Guaranteed Amounts, nor may any such breach or default, or claim of breach or default, be permitted or asserted as a defense to or offset against payment of any amounts owed by Project Participant to Seller hereunder.

**IN WITNESS WHEREOF**, the Parties have caused this BLPTA to be duly executed and delivered by their duly authorized representatives on the date first above written.

**ARTICLE 7**  
**[RESERVED]**

**ARTICLE 8**  
**OPERATING ACCOUNT**

8.1. Calculation of Estimated Monthly Project Cost.

(a) No later than one hundred and eighty (180) days after the Effective Date, the CCP Manager shall present to the Project Committee a proposed Estimated Monthly Project Cost, which shall be equal to the single highest forecasted Monthly Cost over the first Contract Year. The Project Committee shall review, and, if appropriate, recommend, modify, or approve through a Normal Vote, the proposed Estimated Monthly Project Cost.

8.2. Operating Account. CCP shall establish an Operating Account for each Project Participant that is accessible to and can be drawn upon by both CCP and the applicable Project Participant. Such Operating Accounts are for the purpose of providing a reliable source of funds for the payment obligations of the Project and, taking into account the variability of costs associated with the Project for the purpose of providing a reliable payment mechanism to address the ongoing costs associated with the Project.

(a) Operating Account Amount. The Operating Account Amount for each Project Participant shall be an amount equal to the Estimated Monthly Project Cost multiplied by three (3), the product of which is multiplied by such Project Participant's Entitlement Share ("**Operating Account Amount**").

(b) Initial Funding of Operating Account. By no later than three hundred and sixty-five (365) days after the Effective Date, each Project Participant shall deposit into such Project Participant's Operating Account an amount equal to that Project Participant's Operating Account Amount.

(c) Use of Operating Account. CCP shall draw upon each Project Participant's Operating Account each month in an amount equal to the Monthly Costs multiplied by such Project Participant's Entitlement Share. As required by Section 9.5, each Project Participant must deposit sufficient funds into such Project Participant's Operating Account by the deadline specified in Section 9.5.

(d) Final Distribution of Operating Account. Following the expiration or earlier termination of the PPA, and upon payment and satisfaction of any and all liabilities and obligations to make payments of the Project Participants under this Agreement and upon satisfaction of all remaining costs and obligations of CCP under the PPA, any amounts then remaining in any Project Participant's Operating Account shall be paid to the associated Project Participant.

## **ARTICLE 9** **BILLING**

9.1. Monthly Costs. The amount of Monthly Costs for a particular Month shall be the sum of the Project Participant's Entitlement Share multiplied by the Monthly Payments for the Product, as specified in Section 11.2 of the PPA for such Month and to the extent such payment is made by CCP to the Project Developer, plus the Project Participant's Entitlement Share multiplied by the Operating Cost for such Month and subtracting the Project Participant's Entitlement Share multiplied by the positive revenue associated with the sale of any Facility Energy, Capacity Attributes, Ancillary Services, and/or Green Attributes, as shown in the following formula:

Monthly Cost = ((Project Participant's Entitlement Share) × (Monthly Payments)) + ((Project Participant's Entitlement Share) × (Operating Costs)) – ((Project Participant's Entitlement Share) × (revenue from sale of Facility Energy, Capacity Attributes, Ancillary Services and/or Green Attributes))

9.2. Billing Statements. By no later than ten (10) calendar days after CCP receives an invoice from Project Developer for the prior Month of each Contract Year pursuant to Section 11.2 of the PPA, CCP shall issue to each Project Participant a copy of the invoice and a "Billing Statement," which specifies such Project Participant's Monthly Costs, itemized by each part of such Monthly Cost. The amount of Monthly Costs attributable to a Project Participant, and specified in such Billing Statement, shall be the "**Invoice Amount**."

9.3. Disputed Monthly Billing Statement. A Project Participant may dispute, by written Notice to CCP, any portion of any Billing Statement submitted to that Project Participant by CCP pursuant to Section 9.2, provided that the Project Participant shall pay the full amount of the Billing Statement when due. If CCP determines that any portion of the Billing Statement is incorrect,

CCP will deposit the difference between such correct amount and such full amount, if any, including interest at the rate received by CCP on any overpayment into the Project Participant's Operating Account. If CCP and a Project Participant disagree regarding the accuracy of a Billing Statement, CCP will give consideration to such dispute and will advise all Project Participants with regard to CCP's position relative thereto within thirty (30) days following receipt of written Notice by Project Participant of such dispute.

9.4. Payment Adjustments; Billing Errors. If CCP or Project Developer determines that a prior invoice or Billing Statement was inaccurate, CCP shall credit against or increase as appropriate each Project Participant's subsequent Monthly Costs according to such adjustment. The accompanying Billing Statement shall describe the cause of such adjustment and the amount of such adjustment.

9.5. Payment of Invoice Amount. Each Project Participant shall deposit the Invoice Amount for the applicable Month into such Project Participant's Operating Account by no later than the twentieth (20<sup>th</sup>) calendar day of the following Month after the Billing Statement is issued, unless CCP has failed to issue the Billing Statement by the deadline specified in Section 9.2, in which case, each Project Participant shall deposit the Invoice Amount for the applicable Month by no later than thirty (30) days after the date on which CCP issues the Billing Statement to the Project Participant.

9.6. Withdrawal of Invoice Amount from Operating Account. No sooner than five (5) calendar days after CCP issues a Billing Statement to a Project Participant or a Step-Up Invoice to a Project Participant, CCP shall withdraw the Invoice Amount or the Step-Up Invoice Amount from each Project Participant's Operating Account. If the Monthly Cost attributable to such Project Participant is a negative number, CCP shall deposit such funds into the Operating Account of that Project Participant.

9.7. Late Payments.

(a) If any Project Participant fails to deposit the Invoice Amount into the Project Participant's Operating Account by the deadline specified in Section 9.5, then CCP will issue such Project Participant a Late Payment Notice within five (5) days of the deadline specified in Section 9.5 directing the Project Participant to immediately deposit the Invoice Amount into the Project Participant's Operating Account and informing the Project Participant that such Project Participant must pay a charge ("**Late Payment Charge**"). Upon issuing a Late Payment Notice to any Project Participant, CCP shall promptly provide Notice of such occurrence to all other Project Participants.

(b) The Late Payment Charge shall be equal to the Invoice Amount minus any partial payment that was deposited into such Project Participant's Operating Account multiplied by the Interest Rate specified in Section 11.3 of the PPA for the period from the deadline specified in Section 9.5 until the date on which the Project Participant deposits the Invoice Amount plus the Late Payment Charge into such Project Participant's Operating Account. Upon payment, CCP shall withdraw the full amount of such Late Payment Charge from the Project Participant's Operating Account and deposit any such Late Payment Charge into the Operating Accounts of all

other Project Participants on a pro rata share, based on such other Project Participants' Entitlement Shares.

**ARTICLE 10**  
**UNCONDITIONAL PAYMENT OBLIGATIONS; AUTHORIZATIONS; CONFLICTS;**  
**LITIGATION.**

10.1. Unconditional Payment Obligation. Beginning with the earliest of (i) the date CCP is obligated to pay any portion of the costs of the Project, (ii) the date of the COD, or (iii) the date of the first delivery of the Product to Project Participants and continuing through the term of this Agreement, Project Participants shall pay CCP the amounts of Monthly Costs set forth in the Billing Statements submitted by CCP to Project Participants in accordance with the provisions of Section 9, whether or not the Project or any part thereof has been completed, is functioning, producing, operating or operable or its output or the provision of Project products are suspended, interrupted, interfered with, reduced or curtailed or terminated in whole or in part, and such payments shall not be subject to reduction whether by offset or otherwise and shall not be conditional upon the performance or nonperformance by any party of any agreement for any cause whatsoever, provided that the obligation of Project Participants to pay amounts associated with the Monthly Payment shall be limited to the amount of Monthly Payment charged by the Project Developer to CCP and paid by CCP to the Project Developer.

10.2. Authorizations. Each Project Participant hereby represents and warrants that no order, approval, consent, or authorization of any governmental or public agency, authority, or person, is required on the part of such Project Participant for the execution and delivery by the Project Participant, or the performance by the Project Participant of its obligations under this Agreement except for such as have been obtained.

10.3. Conflicts. Each Project Participant represents and warrants to CCP as of the Effective Date that, to the Project Participant's knowledge, the execution and delivery of this Agreement by the Project Participants and the Project Participants' performance hereunder will not constitute a default under any agreement or instrument to which it is a party, or any order, judgment, decree or ruling of any court that is binding on the Project Participant, or a violation of any applicable law of any governmental authority, which default or violation would have a material adverse effect on the financial condition of the Project Participant.

10.4. Litigation. Each Project Participant represents and warrants to CCP that, as of the Effective Date, to the Project Participant's knowledge, except as disclosed, there are no actions, suits or proceedings pending against the Project Participant (service of process on the Project Participant having been made) in any court that questions the validity of the authorization, execution or delivery by the Project Participant of this Agreement, or the enforceability on the Project Participant of this Agreement.

10.5. San José Clean Energy.

(a) The City of San José is a municipal corporation and is precluded under the California State Constitution and applicable law from entering into obligations that financially bind future governing bodies without an appropriation for such obligation, and, therefore, nothing

in the Agreement shall constitute an obligation of future legislative bodies of the City of San José to appropriate funds for purposes of the Agreement; provided, however, that the City of San José has created and set aside a designated fund (being the San Jose Energy Operating Fund established pursuant to City of San Jose Municipal Code, Title 4, Part 63, Section 4.80.4050 *et. seq.*) (“**Designated Fund**”) for payment of its obligations under this Agreement.

(b) Limited Obligations. The City of San José’s payment obligations under this Agreement are special limited obligations of San José Clean Energy payable solely from the Designated Fund and are not a charge upon the revenues or general fund of the City of San José or upon any non- San José Clean Energy moneys or other property of the Community Energy Department or the City of San José.

10.6. Clean Power San Francisco. With regard to Clean Power San Francisco only, (1) obligations under this Agreement are special limited obligations of Clean Power San Francisco payable solely from the revenues of Clean Power San Francisco, and shall not be a charge upon the revenues or general fund of the San Francisco Public Utilities Commission or the City and County of San Francisco or upon any non-Clean Power San Francisco moneys or other property of the San Francisco Public Utilities Commission or the City and County of San Francisco, (2) cannot exceed the amount certified by the San Francisco City Controller for the purpose and period stated in such certification, and (3) absent an authorized emergency per the San Francisco City Charter or Code, no San Francisco City representative is authorized to offer or promise, nor is San Francisco required to honor, any offered or promised payments under this Agreement for work beyond the agreed upon scope or in excess of the certified maximum amount without the San Francisco City Controller having first certified the additional promised amount.

## **ARTICLE 11**

### **PROJECT SPECIFIC MATTERS AND PROJECT PARTICIPANTS’ RIGHTS AND OBLIGATIONS UNDER THE PPA.**

11.1. CCP Rights and Obligations under the PPA. Notwithstanding anything to the contrary contained in this Agreement: (i) the obligation of CCP to cause the delivery of the Project Participants’ Entitlement Shares of the Product during the Delivery Term of this Agreement is limited to the Product which CCP receives from the Project (or the Project Developer, as applicable); (ii) the obligation of CCP to pay any amount to Project Participants hereunder or to give credits against amounts due from Project Participants hereunder is limited to amounts CCP receives in connection with the transaction to which the payment or credit relates (or is otherwise available to CCP in connection with this Agreement for which such payment or credit relates); (iii) any purchase costs, operating costs, energy costs, capacity costs, Project costs, environmental attribute costs, transmission costs, tax costs, insurance costs, indemnifications, other costs or other charges for which CCP is responsible under the PPA shall be considered purchase costs, operating costs, energy costs, capacity costs, Project costs, environmental attribute costs, transmission costs, tax costs, insurance costs, indemnifications, other costs or other charges incurred by CCP and payable by Project Participants as provided in this Agreement; (iv) CCP shall carry out its obligations and exercise its rights under the PPA in a commercially reasonable manner; and (v) any Force Majeure under the PPA or other event of force majeure affecting the delivery of Product pursuant to applicable provisions of the PPA shall be considered an event caused by Uncontrollable Forces affecting CCP with respect to the delivery of the Product hereunder and

CCP forwarding to Project Participants notices and information from the Project Developer concerning an event of Force Majeure upon receipt thereof shall be sufficient to constitute a Notice that Uncontrollable Forces have occurred pursuant to Section 5.1 of this Agreement. Any net proceeds received by CCP from the sale of the Product by the Project Developer to any third-party as a result of a Force Majeure event or failure by CCP to accept delivery of Product pursuant to the PPA and any reimbursement received by CCP for purchase of Replacement RA shall be remitted by CCP to the Project Participants in accordance with their respective Entitlement Shares.

11.2. Obligations of CCP and Project Participants to Maximize the Economic and Compliance Value of the Project.

(a) Each Project Participant shall take all actions that are (i) reasonably necessary to maximize the economic and compliance value of the Project to the Project Participants, and (ii) only capable of being carried out by the Project Participants. Such actions include, but are not limited to, applying for and securing the import capability rights necessary to support the import of Capacity Attributes from the Project into the CAISO in an amount equal to at least its Entitlement Share of all of the import capability rights that are needed to utilize all of the Resource Adequacy Benefits from the Project.

(b) CCP shall take any actions requested by a Project Participant to support the individual Project Participant's obligation under Section 11.2(a) and any actions requested by a Project Participant that are reasonably necessary to maximize the economic and compliance value of the Project to the Project Participants, to the extent that such actions by CCP are feasible and commercially reasonable.

(c) If any individual Project Participant fails to secure import capability rights or other similar rights in an amount equal to at least its Entitlement Share of all of the import capability rights that are needed to utilize all of the Resource Adequacy Benefits available from the Project, then any resulting reduced economic or compliance value of the Project shall not reduce or otherwise modify that Project Participant's payment obligations under Section 10.1.

(d) CCP and the Project Participants agree to take such additional actions in order to help effectuate the transfer of any import capability rights or similar rights from a Defaulting Project Participant to any Non-Defaulting Project Participants that assumes any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c). Such actions include but are not limited to executing additional agreements among the Project Participants, amending this Agreement, and/or submitting necessary documents to CAISO and participating in any CAISO process related to the transfer of import capability rights.

**ARTICLE 12**  
**NONPERFORMANCE AND PAYMENT DEFAULT.**

12.1. Nonperformance by Project Participants. If a Project Participant fails to perform any covenant, agreement, or obligation under this Agreement or shall cause CCP to be in default with respect to any undertaking entered into for the Project or to be in default under the PPA ("**Defaulting Project Participant**"), CCP may, in the event the performance of any such

obligation remains unsatisfied after thirty (30) days' prior written notice thereof to such Project Participant and a demand to so perform, take any action permitted by law to enforce its rights under this Agreement, including but not limited to termination of such Project Participant's rights under this Agreement including any rights to its Entitlement Share of the Product, and/or bring any suit, action or proceeding at law or in equity as may be necessary or appropriate to recover damages and/or enforce any covenant, agreement or obligation against such Project Participant with regard to its failure to so perform. Any Project Participant that is not the Defaulting Project Participant ("**Non-Defaulting Project Participant**") may submit Notice directly to the CCP Board, if such Non-Defaulting Project Participant determines that CCP is or may not be fully taking appropriate actions to enforce CCP's rights under this Agreement against a Defaulting Project Participant. The CCP Board shall consider such Notice and direct CCP to take appropriate action, if any.

12.2. Payment Default. If any Project Participant fails to deposit the Invoice Amount into the Project Participant's Operating Account by the deadline specified in Section 9.5, and if such Participant has not deposited the Invoice Amount plus the Late Payment Charge into such Project Participant's Operating Account within ten (10) calendar days of the issuance of the Late Payment Notice to such Project Participant by CCP, then such occurrence shall constitute a "**Payment Default.**"

12.3. Payment Default Notice. Upon the occurrence of a Payment Default, CCP shall issue a Notice of Payment Default to the Project Participant notifying such Project Participant that as a result of a Payment Default, it is in default under this Agreement and has assumed the status of a Defaulting Project Participant and that such Defaulting Project Participant's Project Revenue Rights have been suspended and that such Defaulting Project Participant's Project Rights are subject to termination and disposal in accordance with Sections 12.6 and 12.8 of this Agreement. CCP shall provide a copy of such Notice of Default to all other Project Participants within five (5) calendar days after the issuance of the written Notice of Payment Default by CCP to the Defaulting Project Participant.

12.4. Cured Payment Default. If after a Payment Default, the Defaulting Project Participant cures such Payment Default within forty-five (45) calendar days after the issuance of the Late Payment Notice by CCP, the Defaulting Project Participant's Project Revenue Rights shall be reinstated and its Project Rights shall not be subject to termination and disposal as provided for in Sections 12.6 and 12.8. In order to cure a Payment Default, the Defaulting Project Participant must deposit the full amount of any unpaid Invoice Amounts and any associated Late Payment Penalties into its Operating Account.

12.5. Suspension of Project Participant's Project Revenue Rights and Treatment of Capacity Attributes and Green Attributes.

(i) Upon the occurrence of a Payment Default, the Defaulting Project Participant's Project Revenue Rights shall be suspended until such time as such Defaulting Project Participant cures the Payment Default pursuant to the requirements of Section 12.4. Any revenue associated with the sale of Facility Energy, Capacity Attributes, Ancillary Services, or Green Attributes associated with the Project shall be deposited by CCP into the Step-Up Reserve Account, as specified in Section 12.7.

(ii) For any Month where the funds remaining in a Defaulting Project Participant's Operating Account are sufficient to pay the entire Invoice Amount, CCP shall withdraw the Invoice Amount from such Defaulting Project Participant's Operating Account and shall cause the delivery of the Defaulting Project Participant's Entitlement Share of the Product, including Capacity Attributes and Green Attributes, associated with the Project or otherwise provided for pursuant to the PPA. For any Month where the funds remaining in a Defaulting Project Participant's Operating Account are less than the amount necessary to pay the entire Invoice Amount, CCP shall withdraw all remaining funds from the Defaulting Project Participant's Operating Account, and to the extent reasonably possible, in CCP's sole discretion, CCP shall cause the delivery of a quantity of Capacity Attributes and Green Attributes proportionate to the portion of the Invoice Amount that the remaining funds were sufficient to pay for. For any Month where the Defaulting Project Participant's Operating Account has no funds remaining, the Defaulting Project Participant shall have no right to any such Capacity Attributes or Green Attributes associated with the Project or otherwise provided for under the PPA.

12.6. Termination and Disposal of Project Participant's Project Rights. If a Defaulting Project Participant has not cured a Payment Default within forty-five (45) calendar days after the payment deadline specified in Section 9.5 by CCP ("**Payment Default Termination Deadline**"), then all Project Rights and Obligations pursuant to this Agreement shall be terminated and disposed in accordance with Sections 12.6 and 12.8 of this Agreement; provided, however, that the Defaulting Project Participant shall be liable for all outstanding payment obligations accrued prior to the Payment Default Termination Deadline and shall remain subject to all rights, obligations, and liabilities of this Agreement, including but not limited to any liabilities for Damage Payment or Termination Payment, as applicable, and any other damage payments or reimbursement amounts under the PPA. CCP shall provide to the Defaulting Project Participant a separate monthly invoice of any such payment obligations of such Defaulting Project Participant. CCP shall immediately notify the other Project Participants of such termination of the Defaulting Project Participant's Project Rights and Obligations.

12.7. Step-Up Invoices.

(a) Upon the occurrence of a Payment Default, CCP shall, concurrently with the Late Payment Notice issued pursuant to Section 9.7(a), issue a Step-Up Invoice to each Non-Defaulting Project Participant that specifies such Non-Defaulting Project Participant's pro rata payment obligation, calculated based on the Entitlement Share of such Non-Defaulting Project Participant, of the amount of the Payment Default for the Defaulting Project Participant (the "**Step-Up Invoice Amount**"); provided, however, that a Non-Defaulting Project Participant's Step-Up Invoice Amount shall not exceed twenty-five percent (25%) of such Non-Defaulting Project Participant's Invoice Amount for the same month for which the Payment Default occurred (the "**Step-Up Invoice Amount Cap**").

(i) Each Non-Defaulting Project Participant shall deposit the Step-Up Invoice Amount into such Non-Defaulting Project Participant's Operating Account by the later of the twentieth (20<sup>th</sup>) calendar day of the following Month or thirty (30) days after the date on which CCP issues the Step-Up Invoice to the other Project Participants. No sooner than five (5) calendar days after CCP issues the Step-Up Invoice, CCP may withdraw the amount of the Step-Up Invoice from each Project Participant's Operating Account and deposit such funds in a separate account

(“**Step-Up Reserve Account**”), which shall be accessible only by CCP, and which CCP may in its sole discretion draw upon in order to ensure that CCP can meet the payment obligations of the PPA. CCP first shall withdraw all funds from a Defaulting Project Participant’s Operating Account before withdrawing funds from the Step-Up Reserve Account.

(ii) Application of Moneys Received from a Defaulting Project Participant. If a Defaulting Project Participant cures a Payment Default on or before the Payment Default Termination Deadline, any funds remaining in the Step-Up Reserve Account shall be deposited into the Operating Accounts of the other Project Participants on a pro rata share, based on the Entitlement Share of such other Project Participant. If a Defaulting Project Participant fails to cure a Payment Default and the Defaulting Project Participant’s Project Rights and Obligations are terminated and disposed of in accordance with Section 12.8, any funds remaining in the Step-Up Reserve Account shall be deposited into the Operating Accounts of the Non-Defaulting Project Participants on a pro rata share, based on the Entitlement Share, subject to the Step-Up Invoice Amount Cap, of such other Project Participant. If any Non-Defaulting Project Participant has not deposited the full amount of its share of the Step-Up Invoice Amount into its Operating Account by the deadline specified in Section 12.7(a)(i), then such occurrence shall be a Late Payment as specified in Section 9.7(a) and is subject to a Late Payment Charge pursuant to Section 9.7(b), and any such Non-Defaulting Project Participant shall not be entitled to its share of any moneys received from the Defaulting Project Participant or any funds remaining in the Step-Up Reserve Account in accordance with this Section 12.7(a)(ii) until such Non-Defaulting Project Participant has deposited the full amount of its Step-Up Invoice Amount and the Late Payment Charge into its Operating Account.

12.8. Step-Up Allocation of Project Participant’s Project Rights. In the event that a Defaulting Project Participant’s Project Rights are terminated pursuant to Section 12.6, then such Defaulting Project Participant’s Entitlement Share shall be allocated to the other Project Participants (“**Step-Up Allocation**”) pursuant to the process set forth in this Section 12.8.

(a) Step-Up Allocation Cap. If a Defaulting Project Participant’s Entitlement Share is allocated to the Non-Defaulting Project Participants pursuant to this Section 12.8, no individual Non-Defaulting Project Participant shall be obligated to assume an allocation that exceeds that Project Participant’s Step-Up Allocation Cap set forth in Column E of the Table in Exhibit B of this Agreement. Each Non-Defaulting Project Participant’s initial Step-Up Allocation Cap shall be equal to the Non-Defaulting Project Participant Entitlement Share as of the Effective Date and set forth in Column B of the Table in Exhibit B of this Agreement, multiplied by one hundred and twenty-five percent (125%). If a Project Participant modifies its Entitlement Share pursuant to Section 4.2 of this Agreement, then that Project Participant’s Step-Up Allocation Cap shall be equal to the Project Participant’s Entitlement Share as modified pursuant to Section 4.2 multiplied by one hundred and twenty-five percent (125%). Upon a modification of a Project Participant’s Entitlement Share pursuant to Section 4.2, the CCP Manager shall cause the Step-Up Allocation Cap specified in Column E of the Table in Exhibit B of this Agreement to be modified in accordance with this Section 12.8(a). For avoidance of doubt, if a Project Participant’s Entitlement Share is increased pursuant to Section 12.8(b) or (c), then such Project Participant’s Step-Up Allocation Cap shall not be modified.

(b) Step-Up Allocation Share. If a Defaulting Project Participant's Project Rights are terminated pursuant to Section 12.6, then such Defaulting Project Participant's Entitlement Share shall be allocated to each Non-Defaulting Project Participant based on such Non-Defaulting Project Participant's pro rata share, calculated based on its Entitlement Share of the entire project minus the Entitlement Share of the Defaulting Project Participant, unless such allocation would cause any individual Non-Defaulting Project Participant to exceed its Step-Up Allocation Cap, in which case Section 12.8(c) shall apply. Upon allocation of a defaulting Project Participant's Entitlement Share pursuant to this Section 12.8(b), the CCP Manager shall cause each affected Project Participant's Entitlement Share specified in Column D of the Table in Exhibit B to be modified in accordance with this Section 12.8.

(c) Voluntary Allocation of Project Rights in Excess of the Step-Up Allocation Caps. If the allocation of a Defaulting Project Participant's Entitlement Share pursuant to Section 12.8(b) would cause any Non-Defaulting Project Participant's Entitlement Share to exceed its Step-Up Allocation Cap, then no allocation shall occur pursuant to Section 12.8(b). In such case, the CCP Manager shall oversee the offering of the total amount of the Defaulting Project Participant's Entitlement Share to the Non-Defaulting Project Participants on a voluntary basis. The initial offering shall be to each Non-Defaulting Project Participant on a pro rata share, based on such Non-Defaulting Project Participant's Entitlement Share. Each Project Participant may accept or reject the portion of the Defaulting Project Participant's Entitlement Share. If any portion of the Defaulting Project Participant's Entitlement Share remains unclaimed after the initial offering, then the remaining portion shall be offered to any Non-Defaulting Project Participant that accepted its full share of the Defaulting Project Participant's Entitlement Share in the initial offering on a pro rata share, based on such Non-Defaulting Project Participant's Entitlement Share as a percentage of the total Entitlement Shares of all Project Participants that are participating in the subsequent round of offerings. The CCP Manager shall conduct subsequent offering rounds until either the total amount of the Defaulting Project Participant's Entitlement Share is accepted by one or more of the Non-Defaulting Project Participants or some portion of the Defaulting Project Participant's Entitlement Share remains, but all Non-Defaulting Project Participants have rejected such remaining amount.

(d) Step-Up Allocation Damage Payment. A Defaulting Project Participant shall owe to each Non-Defaulting Project Participant that assumes any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c) a "**Step-Up Allocation Damage Payment**" equal to the Costs and Losses, on the one hand, netted against its Gains, on the other. If the Non-Defaulting Project Participant's Costs and Losses exceed its Gains, then the Step-Up Allocation Damage Payment shall be an amount owing to such Non-Defaulting Project Participant. If the Non-Defaulting Project Participant's Gains exceed its Costs and Losses, then the Step-Up Allocation Damage Payment shall be zero dollars (\$0). A Defaulting Project Participant shall not be entitled to any Step-Up Allocation Damage Payment or any other damages otherwise authorized under this Agreement from any other Project Participant. The Step-Up Allocation Damage Payment does not include consequential, incidental, punitive, exemplary, or indirect or business interruption damages. Each Non-Defaulting Project Participant that assumes any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c) shall calculate, in a commercially reasonable manner, the Step-Up Allocation Damage Payment for the Defaulting Project Participant's Entitlement Share assumed by the Non-Defaulting Project Participant as of the effective date of such Step-Up

Allocation. Third parties supplying information for purposes of the calculation of Gains or Losses may include, without limitation, dealers in the relevant markets, end-users of the relevant product, information vendors and other sources of market information. If the Defaulting Project Participant disputes the Non-Defaulting Project Participant's calculation of the Step-Up Allocation Damage Payment, in whole or in part, the Defaulting Project Participant shall, within five (5) Business Days of receipt of the Non-Defaulting Project Participant's calculation of the Step-Up Allocation Damage Payment, provide to the Non-Defaulting Project Participant a detailed written explanation of the basis for such dispute. Disputes regarding the Step-Up Allocation Damage Payment shall be determined in accordance with Article 16. Each Party agrees and acknowledges that (i) the actual damages that the other Project Participant would incur in connection with a Step-Up Allocation would be difficult or impossible to predict with certainty, (ii) the Step-Up Allocation Damage Payment described in this Section 12.8(d) is a reasonable and appropriate approximation of such damages, and (iii) the Step-Up Allocation Damage Payment described in this Section 12.8(d) is the exclusive remedy of a Project Participant in connection with a Step-Up Allocation pursuant to the process set forth in Sections 12.8(b) or 12.8(c) against a Defaulting Project Participant but shall not otherwise act to limit any of the Non-Defaulting Project Participant's rights or remedies under this Agreement.

(e) Import Capacity Rights. If a Defaulting Project Participant's Project Rights are terminated pursuant to Section 12.6, then such Defaulting Project Participant shall transfer all import capacity rights and other similar rights that are associated with the Project and that are held by such Defaulting Project Participant to the Non-Defaulting Project Participants that assume any portion of the Defaulting Project Participant's Entitlement Share pursuant to the process set forth in Section 12.8(b) or 12.8(c). The Defaulting Project Participant shall take all actions necessary to effectuate the transfer of such rights to the Non-Defaulting Project Participants.

(f) Remarketing of Unclaimed Defaulting Project Participant's Entitlement Share. If after the process set forth in Section 12.8(c), some portion of the Defaulting Project Participant's Entitlement Share remains unclaimed, the CCP Manager, in their discretion or as directed by the Non-Defaulting Project Participants, may take any action to generate revenue from such unclaimed Entitlement Share in order to meet CCP's payment obligation under the PPA. For avoidance of doubt, the CCP Manager shall not be limited by the requirements of Section 4.2 or 5.1(j) of this Agreement in remarketing or generating revenue base on the unclaimed share.

12.9. Elimination or Reduction of Payment Obligations. Notwithstanding anything to the contrary in this Agreement, upon termination of a Defaulting Project Participant's Project Rights pursuant to Section 12.6 and the disposal of such Defaulting Project Participant's Project Rights and Obligations pursuant to Section 12.8, such Defaulting Project Participant's obligation to make payments under this Agreement (notwithstanding anything to the contrary herein) shall not be eliminated or reduced; provided, however, such payment obligations for the Defaulting Project Participant may be eliminated or reduced to the extent permitted by law, through an amendment to this Agreement, which shall be subject to the consent and approval of all Parties to this Agreement.

## **ARTICLE 13**

13.1. Project Participants' Obligations Several. No Project Participant shall be liable under this Agreement for the obligations of any other Project Participant or for the obligations of CCP incurred on behalf of other Project Participants. Except as provided for under Section 13.5 herein, each Party shall release each of the other Released Parties from any claim or liability that such Party may have cause to assert as a result of any actions or inactions or performance or non-performance by any of the other Released Parties under this Agreement (excluding gross negligence and willful misconduct, which, unless otherwise agreed to by the Parties, are both to be determined and established by a court of competent jurisdiction in a final, non-appealable order). Notwithstanding the foregoing, no such action or inaction or performance or non-performance by any of the Released Parties shall relieve CCP or any Project Participants from their respective obligations under this Agreement, including, without limitation, the Project Participants' obligation to make payments required under Section 9.5 of this Agreement and CCP's obligation to make payments under Section 11.2 of the PPA. The provisions of this Section 13.2 shall not be construed so as to relieve the CCP or the Project Developer from any obligation or liability under this Agreement or the PPA.

13.3. Extent of Exculpation; Enforcement of Rights. The exculpation provision set forth in Section 13.2 hereof shall apply to all types of claims or actions including, but not limited to, claims or actions based on contract or tort. 13.4. No General Liability of CCP. The undertakings under this Agreement by CCP shall not constitute a debt or indebtedness of CCP within the meaning of any provision or limitation of

the Constitution or statutes of the State of California, and shall not constitute or give rise to a charge against its general credit.

13.5. Indemnification. Each Party (an “**Indemnifying Party**”) shall indemnify, defend, protect, hold harmless, and release the other Parties, their directors, board members, officers, employees, agents, attorneys and advisors, past, present or future, from and against any and all claims, demands, liabilities, obligations, losses, damages (whether direct, indirect or consequential), penalties, actions, loss of profits, judgments, orders, suits, costs, expenses (including attorneys’ fees and expenses) or disbursements of any kind or nature whatsoever in law, equity or otherwise, which include, without limitation, death, bodily injury, or personal injury to any person or damage or destruction to any property of Project Participants, CCP, or third persons, that may be imposed on, incurred by or asserted against any Party arising by manner of any breach of this Agreement by the Indemnifying Party, or the negligent acts, errors, omissions or willful misconduct incident to the performance of this Agreement on the part of any such Indemnifying Party or any Indemnifying Party’s directors, board members, officers, employees, agents and advisors, past, present or future.

The CCP Manager shall secure at least one (1), but no more than three (3), valuations of the net present value of the Entitlement Share Reduction Amount over the remaining term of the PPA from one or more qualified firm(s) with the requisite experience to determine such valuation. The valuation, or if more than one valuation is obtained, the average of all valuations received, shall be the "**Proposed Entitlement Share Reduction Compensation Amount.**" The CCP Manager shall call a meeting of the Project Committee and present the Proposed Entitlement Share Reduction Compensation Amount to the Project Committee. The Project Committee shall by a Normal Vote either approve the Proposed Entitlement Share Reduction Compensation Amount or direct the CCP Manager to secure additional valuations. The Proposed Entitlement Share Reduction Compensation Amount approved by the Project Committee shall be the "**Entitlement Share Reduction Compensation Amount.**" The Project Participant proposing to reduce its Entitlement Share may modify the quantity of the Entitlement Share Reduction Amount associated with its proposal or withdraw its proposal at any time prior to the initiation of the process set forth in paragraph (a)(i)(B).

(B) Oversee the Offering of the Entitlement Share Reduction Amount to Other Project Participants. The CCP Manager shall facilitate the offering of the Entitlement Share Reduction Amount to the other Project Participants through multiple rounds of offerings.

a) The initial offering shall be to each Project Participant on a pro rata share, based on such Project Participant's Entitlement Share. Each Project Participant may accept or reject the portion of the Entitlement Share Reduction Amount offered to the Project Participant through this process. If any portion of the Entitlement Share Reduction Amount remains after the initial offering, then the remaining portion shall be offered to any Project Participant that accepted the share of the Entitlement Share Reduction Amount offered in the initial offering on a pro rata share, based on such Project Participant's Entitlement Share as a percentage of the total Entitlement Shares of all Project Participants that accepted the portion of the Entitlement Share Reduction Amount offered to them in the initial offering.

b) The CCP Manager shall conduct subsequent offering rounds until either the total Entitlement Share Reduction Amount is accepted by one or more of the other Project Participants or some portion of the Entitlement Share Reduction Amount remains, but all Project Participants have rejected such amount.

c) Any Project Participant accepting a share of the offered Entitlement Share Reduction Amount shall either pay the offering Project Participant or be compensated by the offering Project Participant at the Entitlement Share Reduction Compensation Amount multiplied by the quantity of the portion being accepted.

d) Before a transfer of all or a portion of any Project Participant's Entitlement share to another Project Participant can become effective, the proposed transfer must be submitted to and approved by the Project Committee through a Normal Vote.

e) After acceptance and payment for such portion of the Entitlement Share Reduction Amount, and upon approval of such transfer by the Project Committee, the CCP Manager shall cause the Entitlement Share specified in Exhibit B to be modified accordingly, and such modification shall be considered an element of the administration of this Agreement and shall not require the consent of the Parties hereto.

(C) Oversee the Offering of the Entitlement Share Reduction Amount to CCP Members that are not Project Participants. If there is any portion of the Entitlement Share Reduction Amount that remains unaccepted after the process specified in paragraph (a)(i)(B) is complete, then the Project Participant proposing to reduce its Entitlement Share may request that the CCP Manager offer the remaining portion of the Entitlement Share Reduction Amount to CCP Members that are not Project Participants. If any CCP Member wishes to accept any or all of the remaining portion of the Entitlement Share Reduction Amount, such action shall require the CCP Member to become a Project Participant through an amendment to this Agreement, which shall be subject to the consent and approval of all Parties to this Agreement and the CCP Member becoming a Project Participant. The compensation amount associated with the CCP Member accepting the remaining portion of the Entitlement Share Reduction Amount shall be negotiated between the CCP Member and the offering Project Participant.

(D) Oversee the Offering of the Entitlement Share Reduction Amount to a Community Choice Aggregator that is not a CCP Member. If there is any portion of the Entitlement Share Reduction Amount that remains unaccepted after the process specified in both paragraphs (a)(i)(B) and (a)(k)(C) is complete, then the Project Participant proposing to reduce its Entitlement Share, may request that the CCP Manager offer the remaining portion of the Entitlement Share Reduction Amount to a community choice aggregator that is not a CCP Member. If any community choice aggregator wishes to accept any or all of the remaining portion of the Entitlement Share Reduction Amount, such action shall require the community choice aggregator to become a CCP Member, and subsequent to becoming a CCP Member, to become a Project Participant through an amendment to this Agreement that is subject to the consent and approval of all Parties to this Agreement and the community choice aggregator becoming a Project Participant. The compensation amount associated with the community choice aggregator accepting the remaining portion of the Entitlement Share Reduction Amount shall be negotiated between the community choice aggregator and the offering Project Participant.
